

POOR DOCUMENT MC 2035

LOSS OF DOCUMENT LEADS TO ARREST OF FRENCH CAPTAIN

Ladeux is Held Responsible For His Failure in Cases of Bolo Pasha and M. Duval.

Paris, Jan. 2.—(Havas Agency)—Captain Georges Ladeux, former assistant chief of the intelligence bureau of the ministry of war, was arrested today and, after hearing his accusation read by Colonel Bouber, was sent to the Santé prison. The captain is charged with the loss of a document relating to persons likely to be implicated in one of the cases now pending concerning traiting with the enemy.

Proceedings were begun against Captain Ladeux last March, when he was believed to be connected with the cases of Bolo Pasha and M. Duval, director of the Bonnet Rouge, both of whom were executed for treason. Among those now awaiting trial in France on a charge of trading with the enemy is former Premier Cailaux and Senator Humbert.

Miller-Garcia.
A very pretty wedding was solemnized at the home of Mr. and Mrs. J. R. Kennedy, Carleton street, Fredericton, on January 1, at 8 p.m., when Willard Miller, of Newcastle Bridge, Queens county, and Miss Lillian Currie of McNally's Ferry, were united in marriage by Rev. Milton Addison. The bride entered the parlor with her father, Harding Currie, to the strains of the Lohengrin wedding march. The parlor was tastefully decorated with potted plants. The bride looked charming in a traveling suit of navy serge with hat to match. The groom's gift to the bride was a handsome set of black fox furs. The wedding party proceeded to the Imperial Lunch Parlors where a sumptuous repast was served, after which Mr. and Mrs. Miller left on the evening train for a short trip, with many good wishes of relatives and friends. On their return they will reside at Newcastle Bridge. The presents were numerous and beautiful. The out of town guests included Mr. and Mrs. Harding Currie, Mr. and Mrs. Ludlow Clark, of McNally's Ferry; Wm. Currie, of Moncton; Miss Clara Miller, of Newcastle Bridge; Miss Mabel Miller, of Hawkeshaw, and the Misses Lide and Margaret Bailey of St. John.

Enough Said.

"You ask for my daughter? What are your prospects, young man? Do you own the house you live in?"
"No, I rent it, but I have five tons of coal in the cellar."
"Take her."

TURKS SIFTED ASHES OF ARMENIAN WOMEN, LOOKING FOR JEWELS

Horrible Stories Come of Atrocities — 80,000 Killed En Masse.

Paris, Jan. 2.—(Havas Agency)—In giving details of the Armenian massacres in Turkey in the last five years, the Constantinople correspondent of the Petit Parisien says that at one time 100,000 Armenians were killed for alleged strategic reasons at Dorgon, Arakia. The Turkish authorities in Constantinople thought the number concentrated there was too high and gave orders that 50,000 of the Armenians be put out of the way.

In the Mush Valley, the correspondent adds, the Kurds robbed 2,000 Armenian women. Later, suspecting that the women had swallowed their jewels, the Kurds killed them in a horrible manner and burned the bodies. The next day, the correspondent continues: "These monsters quickly sifted the ashes seeking the jewels."

The correspondent reports that in the region seven thousand children between three and ten years of age died of starvation and 100 women were buried alive in trenches which the Turks first forced them to dig.

MARINE NOTES.

The C. P. O. S. liner Tunisian was reported down the bay this morning and is expected to dock this evening or tomorrow morning. She has a large number of returning soldiers on board in addition to mails and general cargo.

A wireless was received this morning from the Manchester Division saying that she would be here about 7 o'clock this evening. She is coming direct from Manchester with general cargo.

The bark Westfield which arrived outside the island last night and is now anchored in the stream, brought 29,978 bags of flour from Australia.

The steamer Kanawha is expected to sail on Sunday for Halifax, where she will load passengers. Several other steamers are expected to get away by Sunday.

The report that the derelict sighted by the S. S. Corsican while proceeding to sea, midway between Brier Island and Grand Manan, is the schooner Marjorie Austen, which went ashore near Apple River, is not correct. Word was received today that the Marjorie Austen is still on the rocks and breaking up. She is reported a total loss.

The government steamer Aberdeen is going to investigate the report of the derelict. Prings with a full cargo of freight from St. John.

The new schooner being built in Plymouth by E. S. C. Jones of Westport, will be launched on Jan. 4, unless unforeseen circumstances arise. She is a vessel of 284 tons and is a beautiful model. As soon as she is launched, work will be started on a coaster of about 120 tons.

The new tern schooner recently launched at Two Rivers, N. S., by Barnhill Bros, has gone on the marine blocks at Riverside to have her iron keel put in and her hull and spars completed. Austin, Graham of Port Greenville has been engaged to finish the work. This vessel was launched before being finished so she would not freeze up at Two Rivers, and brought here to be finished.

The new tern schooner Minus King, recently launched at Bear River, is fast having her finishing touches put on her and if not sold will load plaster at Walton, N. S., for New York City. A beautiful vessel of 470 tons register, is owned by local parties and will be commanded by Comd. Harry Randall.

Officials of the marine department here believe that the sunken vessel reported to be in the preside of the mouth of the Bay of Fundy between Brier Island and Grand Manan, is the new 170-ton schooner Marjorie Austen. Captain Brewster, which is reported from Halifax as having gone ashore Wednesday night near Apple River Light.

SEEMS TO AVERT TROUBLE FOR LAUDER IN MONTREAL

Montreal, Jan. 3.—Mayor Martin is seeking to prevent any trouble between French-Canadians and Harry Lauder over a statement the comedian made last year which was resented by many French-Canadians. This morning the mayor said he was trying to arrange for Mr. Lauder to give an explanation as many garbled versions of what Lauder said have been published.

Mr. Lauder was quoted as saying at a speech at the Rotary Club, this city, that if the French-Canadians did not respond to the call to enlist in the fight for freedom as France had done, then they were not the sons of France, but had a bastard blood in their veins.

Halifax, N. S., Jan. 3.—"I'm really not going to take any notice of it," said Harry Lauder, when asked if he had anything to say regarding the threats that he would be given a "rotten-egg" reception in Montreal.

PAY OF HALIFAX LONGSHOREMEN

The Halifax longshoremen entered upon a new wage agreement starting on Wednesday under which they are to receive fifty-five cents per hour and sixty-five night, a good advance on the current year's schedule, forty and forty-five cents. Negotiations had been going on for some weeks, and without any clear whatever.

It was pointed out by President Coolen that Halifax longshoremen were at a disadvantage in the matter of wages as compared with other Atlantic ports.

The St. John men are in receipt of a flat rate of sixty cents day and night, while at New York the schedule is sixty-five cents per hour day and 81 night.

The steamship agents granted other points urged by Mr. Coolen. Hereafter the men will be allowed ten cents extra (instead of five) per hour for grain handling, which work many men cannot do, and day shifts will, where the night is not to be worked through, knock off at 11 p. m. instead of 11:30, as at present.

The new agreement goes into effect

UNCERTAINTY IN WALL STREET.

New York, Jan. 3.—Confusion of speculative sentiment was again suggested by the uncertain course of prices at the opening of today's stock market. Break-out also yielded a point, probably in connection with its new bond offering, and Mexican Petroleum and United Fruit fell about two points. Meeting, however, immediately bounded almost ten points. Other oils were very strong also. Southern Pacific, St. Paul and Texas Pacific among rails.

CONSERVATION OF SEEING POWER

The amount of energy and nerve force you waste in straining your eyes for a finer point of vision than you are capable of is a waste of seeing power that you cannot well afford.

YOUR EYES WILL TELL YOU
If your eyes are laboring under an undue strain, you must be conscious of something wrong. With normal sight you are never aware of "trying to see"—the eyes performing their function without effort.

For your own good, allow us to make a careful and complete test of your eyes, which will prove whether or not they are in need of help.
