**SAYS CHINA IS NATURAL MARKET FOR CANADIANS**

English Business Man Says Great Opportunity There to Sell Our Grain

Victoria, March 10—After having been around the globe in the interests of trade, J. Holland, of London, Eng., who is attending concerns in the world, offers the opinion that the new republic of China offers the greatest possibility of development.

"China, to my mind," he said, "is Canada's opportunity in regard to the export of grain. Where can you imagine a better market? Almost a quarter of the people of the earth are located within the tremendous boundaries of China, old and new, and as I say, the wave of western civilization is upon it, and is transforming it in such a degree that it is impossible for anyone to carry conviction in an attempt to describe it, so marvellous is the result."

New York, March 10—Hugh Cameron Easterbrook, thirty-six years of age, a Canadian dentist who had a large practice in the Bronx, committed suicide in his home on Sunday by shooting himself in the right temple with a revolver. His wife can give no reason for his act.

He was prosperous, a member of the Masons and Oddfellows and several clubs. He was a native of Canada, and interested in athletics. At the time Hans Holmer, a former Halifax runner, made a tour of Scotland, he lacked Holmer, and his confidence in the athlete was rewarded.

The dentist told a friend last week that he was suffering from nervousness and feared a breakdown.

On Wednesday, Dr. Friedmann will attend a tuberculosis convention in Ottawa.

It was he who secured the first promise from the doctor that he would visit Montreal.

**Now Talk of "Book Trust"**

Washington, March 10—Opposing attorneys appeared before the supreme court here to argue whether there is a "book trust." The argument was the outcome of a suit brought by a New York department store to enjoin the American Publishers' Association, said to be composed of publishers of 70 per cent of the books in the United States, and the American Bookellers' Association, said to be composed of a large majority of the wholesale and retail booksellers of the country, from the enforcement of certain contracts, which, it was contended, prohibit the selling of books to dealers who sell them to the public at less than an established price.

The New York state court held the contracts void in regard to copyrighted books.
