"AUNTIE" WRIGHT DEAD.
Passed Away This Afternoon at the Hospital Twenty Minutes After Being Admitted.

From Thursday's Daily.
Auntie Wright (colored) died at the Alexandra Hospital between one and two o'clock this afternoon twenty minutes after being admitted. Today Mayor Coleridge and Chief Fish visited her home on Tunis street and found her with her hands and feet frozen. They at once called the ambulance and had her removed to the hospital where she died as stated above.

Deceased had been a resident of Ingersoll for many years and was a familiar figure on the streets. She had resided alone for years and during the past two or three years had been very feeble.

Members of the council for many years have tried to persuade deceased to go to the House of Refuge at Woodstock, but she refused, and it is said that members of the Indigent Committee have found the door locked against them when they went to visit her to see if she needed food or fuel. Apparently her reason for locking the door when members of the council visited her was that she feared they would take her to the Refuge.

The council has kept her in fuel and food and when her home was visited today she had a supply of both.

Mrs. Amy Warwick, of Regina, has been acquitted by a jury of the murder of her husband. She is 22 years of age.

The Hamilton County Council has endorsed the project to build a permanent roadway between Toronto and Hamilton.

EARLY MORNING FIRE.

At Wingham Street House, Owned by Mr. M. T. Buchanan, and Occupied by Mr. Bielby.

From Friday's Daily.
The firemen had a cold run shortly before four o'clock this morning to the house on Wingham street, owned by Mr. M. T. Buchanan and occupied by Mr. Bielby, of the Collegiate staff. The fire was difficult to get at, owing to it having started in the wall over the hot air pipe from the furnace. The firemen worked from the inside of the house, but it was necessary for them to get a considerable cutting in order to get at the blaze quickly. One of the extinguishers was used, but this did not subdue the fire, and it was necessary to turn on the water. The damage, from all causes, will be considerable. The fire was discovered in the nick of time to prevent a very serious blaze.

Here is a message of hope and good cheer from Mrs. C. J. Martin, Boone Mill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering, and now recommends these tablets to the public. Sold by all dealers.

PLEASING PROGRAM

Rendered at Town Hall Last Night and Enjoyed by Large Audience

From Friday's Daily.
The town hall was filled with a most appreciative audience at the entertainment given last night under the auspices of St. Paul's Ladies' Aid. A particularly meritorious program was presented, one that gave universal satisfaction, and in connection with which many complimentary remarks were heard. The program was nicely balanced and well varied, so that practically all tastes were suited. Those who contributed very pleasing solos were Mrs. Perkins, Mrs. C. T. Chapman, Misses Collins and Ryan, and Messrs. Tune and Burk. The other features were also very pleasing, and on the whole the entertainment was one of the best that Ingersoll people have had the privilege of attending for some time.

FAVORS LEMIEUX ACT.

Sir George Asquith Says It Would Be Useful In Britain.

LONDON, Feb. 7.—(C.A.P. Cable).—"Such a measure as the Lemieux Act, while not assuring complete absence of strikes and lockouts, would, in my opinion, be a valuable asset to the United Kingdom, and employers and employed alike," is the verdict of Sir George Asquith, who visited Canada in September last in behalf of the British Government to enquire into the workings of the Canadian act.

The real value of the measure, Sir George says, lies in permitting the parties and the public to obtain full knowledge of the real cause of the dispute, and in causing an investigation to be made as impartially as possible, on the basis of such knowledge for dealing with existing difficulties, whether a strike or lockout has commenced or not, this action on behalf of the public, allows an element of calm judgment to be introduced into the dispute which, at the time the parties themselves may be unable to exercise.

Another satisfactory feature, in his opinion, is the fact that the act differed essentially from compulsory arbitration, in that it does not force unsuitable regulations upon the industry by compulsory and legal insistence, but leaves an opportunity for modification by parties or indicates the basis on which a settlement can be made. Of 132 disputes arising since the act, 20 were settled before hearing, 107 were reported upon by boards of conciliation and investigation, and five were before boards still in session. Generally objections to the act appeared to Sir George to be such as would disappear as the act becomes better understood, or could be remedied by some amendment of the act, without altering its main principles.

HAS PRECIOUS SERUM.

Doctor Is Rushing Home From Abroad To Save Wife.

NEW YORK, Feb. 7.—Hurry home from abroad with tuberculosis serum in his possession that he says is the first of the widely discussed Friedmann culture to be brought to this country, Dr. Austin B. Heid, a physician of Pittsburgh, arrived on the steamship Potsdam from Europe yesterday, and at once took a train for his home, where his wife, a consumptive, awaits the arrival of what Dr. Heid believes will be a cure for her. Dr. Heid has enough bacilli only for one patient, he declared. That patient will be his wife.

Dr. Heid was met at quarantine by Dr. Milton H. Foster, of the Ellis Island Health Service, and questioned in behalf of the U. S. Government about the Friedmann cure. Dr. Heid told Dr. Foster he had been convinced of the efficacy of the cure, and had obtained from Dr. Friedmann just enough serum to treat a patient suffering from tuberculosis of the bone.

BAD FIRE AT ST. THOMAS.

Business Centre Is Saved by Citizens' Heroic Work.

ST. THOMAS, Feb. 7.—The heart of the business centre of St. Thomas was saved yesterday from destruction by fire by the determined efforts of the fire department, assisted by a citizens' brigade, including merchants, bankers, managers and real estate men, all of whom worked five hours in a cutting north wind at zero weather, to prevent the fire from spreading east of the Baldwin Robinson store, which is situated on the south side of Talbot street, almost opposite The St. Thomas Daily Times office. The loss is estimated at about \$150,000.

Shortly after the store was opened up for business yesterday dense volumes of smoke swept up from the basement. The employees saved only part of the firm's books, and fled to the street. The store, three storeys high, filled with furniture and pianos, burned fiercely, and the flames and smoke prevented the firemen from entering the building. Two who ventured in with the hose were overcome and had to be carried out.

At one time it was feared nothing could save the adjoining building to the east, including the fine jewelry store of C. H. Hepinstall, and the new Merchants' Bank. The valuable stock of Hepinstall was removed to safety vaults. The store and bank, also Dr. Kanis' surgery, on the west side of the fire, were badly damaged by smoke and water.

The loss on building and stock of Baldwin & Robinson was over \$50,000, covered by \$35,000 insurance, all in English companies, including Atlas, Hartford, Royal, Yorkshire, National and British American. The firm will start again in business. The Anderson Co., Ltd., to prevent the dense smoke from entering their store, covered all their windows on Hinks street with wet blankets.

WARNS COMPATRIOTS.

Henri Bourassa Says Borden Policy Is To Recruit Men.

MONTREAL, Feb. 7.—That the British Admiralty is in need of men than battleships, and that the Borden Dreadnought proposal is only a first step towards the recruiting in Canada of men for the English navy, such is the affirmation made by Henri Bourassa in Le Devoir yesterday. The Nationalist chieftain writes: "Let us take good notice of the word 'include.' If it is there, it is because Great Britain wants other things than battleships. Otherwise, the memo would have read 'such aid should consist' in the provision of ships. Then what is the other part of the program? Why did not the Admiralty say all that the aid from Canada should 'include'?"

NINE WARRANTS ISSUED.

On Charge of Assault Preferred by Patrick Ryan, a London Hockey Fan.

From Friday's Daily.
Nine local young men have been placed under arrest and bailed to appear in the police court Monday afternoon at two o'clock to answer a charge preferred by Patrick Ryan, of London, that they did unlawfully assault him and occasion actual bodily harm. The melee occurred in the street in front of the Greek restaurant, and followed a dispute over the hockey game. Ryan had a rib fractured and was removed to the hospital but was able to leave that institution to-day.

LONDON PUT OUT OF THE RUNNING

MOULTON THE STAR OF A FAST GAME WHICH INGERSOLL WON BY A SCORE OF 7 TO 5.

From Friday's Daily.

London juniors were sidetracked here last night and will simply be "spectators" for the remainder of the season. The score was 7 to 5. The home team came to life meteor-like and at all stages they were more than the Londoners could handle. Both teams gave an excellent exhibition of hockey team work being conspicuous, interspersed with rushes that brought the spectators to their feet. The half-time score was Ingersoll 5, London 3.

On the form displayed Ingersoll players were favorites, with the exception of with a few fans from the Forest City who had a strong idea that their team would make a sensational rally in the final period. This they did, even going so far as to tie the score, 5-5, but the wonderful back-checking of the home team held them scoreless from this time on.

From the spectators' standpoint the game was as interesting as any that has been played here this season. Being evenly matched, the players were at it hammer and tongs all the time, introducing brilliant combination and rushes. The same form on the part of the home-boys a week ago would doubtless have tied them with Woodstock for the district championship.

For the visitors Mowen and Moore gave a fine exhibition of stick-handling, and Moulton for Ingersoll was very much in the spot-light. He wormed his way through the opposing lines time after time and made numerous well directed shots on the goal. He scored Ingersoll's first and third goal and started the play which netted the sixth counter.

London did not have the team work that was expected and when the home-boys adopted this style of play, they neglected to check back sufficiently to break up the rushes. The entire Ingersoll team worked better than ever before. Jackson pulled off many fast rushes, and the other players did well with combination. At times the game was strenuous, but there were no rough features. The contest was ably handled by Jimmy Fraser, of Galt.

The London team was accompanied by many rooters who were sanguine of a victory and the result was naturally very discouraging. They had about made up their minds that they were to have another crack at Woodstock.

The teams:
Ingersoll—Goal, Fifth; point, Jackson; cover, Moulton; rover, McDougall; centre, Cline; right, Wilson; left, Henderson.
London—Goal, Wright; point, Acheson; cover, McPhillips; rover, Mowen; centre, Betteridge; right, Buchanan; left, Moore.
