

Gelling his head off.

Cross examination by Prosecutors.

I was out with Goodie the night before at the beach. We had a couple of drinks - wine we had got at farm house. I had we had a pint each. When he showed me as accused at all. I had been out with accused in England once. had a few beers. wouldn't take much & got him drunk so I'm told. The friends took about 10 minutes. The whole thing would be over by 9 p.m. I didn't see Rfr Johnson that evening. I had had 3 or 4 drinks I was feeling alright. I was with another Chap. Goodie was in middle of street - stopping. Anybody could have seen his condition. Goodie ran in front of car and stopped the car. He said he was an MP and no Traffic was allowed down the street. I don't know whether he swore or not. When Major was in car, he said he was a Major in ~~the Army~~. I didn't hear him say those words in first charge. I deny that he said all Americans soldiers are bastards. Goodie looked as if he was going to start a fight. He was stopping. I couldn't smell his breathing. He wasn't speaking clearly. I didn't see Goodie attempt to strike the Major. He looked as if he was going to strike him. I walked down the street to U.S. Provost station. I got on left and left him there.
