The town council of St. Stephen has this summer laid new sewers on King and Princess streets, and is now constructing one on Elm street, from which a new road will be cut through to Main street. C. N. Vroom is the contractor, and he has done his work in a thorough manner.

The council has also laid a lot of asphalt sidewalks and is preparing to extend the electric lighting of the town.

Bears are reported plentiful in Charlotte county this fall. At De Wolfe Corner on Sunday morning, two young ladies en route to church met a large one and made a hearty treat.

Dr. M. Gardner, the well known proprietor of the Border City hotel in Calais, died on Wednesday morning after a protracted illness. He was sixty-five years of age and in every way an excellent citizen.

A strike is on at the bottom mill since Monday, when fourteen girls employed in the spinning room went out against a cut in their daily wages from eighty-four cents to seventy-eight cents. If they remain out, and yarn cannot be got from other mills, about half of the Milltown work will have to shut down next week.

The manager states that if the strike does not prevent, the prospects are excellent for the factory to run with a full crew all winter notwithstanding published statements to the contrary.

Sussex, Oct. 6.—Albert Kelstead, aged two years and three months, son of James Kelstead of Ward's Creek, was buried this morning in the Sussex cemetery. Rev. Mr. Hamilton conducted the funeral ceremonies at both home and grave.

Sussex, Oct. 6.—The fair of the Sussex and Stoddard Agricultural society opened here in the Aberdeen rink this morning under most favorable conditions. The exhibit of farm produce and other articles is very large and is highly creditable to the farmers and their wives and daughters who are represented. This afternoon awards were made on the field grain, roots and fruit exhibited. The judges were W. E. D. Fiewelling and D. W. Westmore.

Adover, Oct. 6.—A misprint in the items of Sept. 20th make it appear that Constable Irvine arrested Shepherd Morrill. Constable of Constable Washington, Duxbury, is receiving hearty congratulations on the arrest. The sheriff, deputy sheriff and several others had made two trips in search of Morrill, but were unsuccessful. At the session of the supreme court which opened here on Sept. 28th Morrill was tried and sentenced to three years in Dorchester penitentiary. A thing which is occasioning a great deal of annoyance and loss time and annoyance has been going on for the last year or two. It is that the judges who preside at the county and supreme courts do not arrive until the day on which court opens, and as the trial does not reach here until between three and four in the afternoon, the day is almost gone. In the meantime the grand jurors and witnesses lose their time and hotel expenses, and the petit jurors are paid for time not occupied. Something should be done to avoid this loss and nuisance.

The government surveyors have lately been looking for a chance to bridge the Tobique at the Narrows so that it will serve in place of both the bridge at the mouth and the one which was swept away from Rowina by ice last spring. The proposed site is about a mile above one bridge and two and a half miles below the other. The banks on the north side of the Tobique are so precipitous and rough that it is difficult to build roads. It is intended if this bridge is built to make one an old road, which formerly was used along the bank of the old site of the Rowina bridge, although this road was very hard to keep up, and also to build a new one across from the bridge to North Leth. It is said that this arrangement will be satisfactory, and effect a saving, although some are uncharitable enough to say that it is an election device.

The Adover Agricultural society have purchased of the recent government auctioneers one half of each of the Shortford, Ayrshire and Holsteins, three cowboys sheep, one Lincoln and one Shropshire and one Leicester. These will be sold to the members, probably on the 15th inst. the day of our exhibition.

A local in today's Sun states that "Mrs. E. H. Hoyt and family have moved to St. John and that Mr. Hoyt works in the office by his business and the post office is transferred." The latter part, referring to Mr. Hoyt is without foundation, as Mr. Hoyt is still in the office.

M. M. Tingley returned on Saturday from Woodville, Kings Co., where he has spent the last two months, superintending the construction of the bridge over the Nepesic.

Indications are now that mining operations in the Albert county are to be carried on in the near future to a greater extent than for many years past. Mr. Hoyt, manager of the company now operating the manganese mines at Dawson settlement, has just returned from the States, where he has spent the last two months, superintending the construction of the bridge over the Nepesic.

At New Horton is a very promising copper mine, in which H. J. Bennett and others are interested, including Sir Charles Tupper. The quartz veins there also show satisfactory indications of silver. It has also been learned that the company operating at Dawson have in contemplation the purchase of the well known Albert county mines, which have been closed for several years. Albert county is undoubtedly rich in mineral resources, including gold, copper, coal and manganese, and capital and push are all that is necessary to develop an industry which would be of great benefit to the county.

At the late regular session of Golden Rule division, S. of T., the following resolution of condolence was adopted: "Whereas, in the wisdom of Divine Providence one of our esteemed members, sister Edna Tingley, has been called away by death, therefore,

"Resolved, That we, the members of Golden Rule division, express our appreciation of the high religious and moral character of our deceased sister and our sorrow and regret at her early death, and also that we extend to Bro. J. B. Tingley, father of the deceased, and his family, our sincere sympathy in their deep affliction."

A copy of this resolution was forwarded to Capt. Tingley.

A very auspicious event occurred at the residence of Robert Parks of Red Bank, when his daughter, Miss Mabel, was given in marriage to James Sherard of Alliston. The happy couple were married on the 10th inst.

Mr. Parks giving the bride away, Miss Mabel was elegantly attired in a suit of blue with blue accessories and a white collar. She looked extremely handsome in her pretty toilet as she blushingly received the well wishes of her numerous guests. Miss Jessie Parks of Red Bank was attendant and the groom was supported by Percy Parks, brother of the bride. After the ceremony between twenty and thirty guests sat down to a sumptuous repast. The bride was the recipient of many kind and useful presents. We wish the young couple many happy days.

Woodstock, Oct. 7.—An interesting and somewhat exciting case was tried at Andover on the occasion of the session of the circuit court, there last week. It was the Queen v. Shepherd Morrill. It appeared on the trial that on the evening of the 10th of February last there was a dancing party at the house of Charles Cochran, in the parish of Drummond. Among the guests were this prisoner and his brother Douglas Morrill, both of whom are regarded as outlaws in the county. They brought the whiskey bottle in the house, which was passed around freely and very early in the evening a large number of the men present were more or less under its influence.

As one lady witness put it, nearly all the men present were "under the influence." The Morrill brothers took part in the drinking, and what was intended to be a pleasant party was pandemonium.

About ten o'clock a fight was in progress in the kitchen between the Morrills and some of the guests. The Morrills, who were in the room with his wife and most of the ladies, and the more sober of the men, went out to quell the disturbance. Sheppard Morrill had his fist raised to strike a man. Tompkins caught hold of his arm to prevent the blow. Douglas Morrill then struck Tompkins in the face, who then let go his hold on Sheppard and grasped Douglas by the throat. Sheppard then drew a knife and plunged it into Tompkins' back, making a wound six inches long and one inch deep at the deepest part. A warrant was immediately issued for his arrest, but the officers of the law were unable to arrest him. He went fully armed and threatened to destroy any one who attempted to capture him. The prisoner is twenty-two years old, tall, slender, straight as an Indian, and was fairly well dressed in a blue looking fellow. He was accompanied at the time by his father, a brother (not Douglas) and his 15 year old wife, whom he had recently married. He is usually called "Sheppard," carrying her off in spite of the crying of her parents. The prisoner was found guilty and was sentenced to three years in the penitentiary.

Fredericton, Oct. 6.—About eight hundred people witnessed the marriage of Alice A. Teasdale, youngest daughter of Rev. J. T. Teasdale, the popular pastor of the Methodist church, and Fred M. Lettney of Digby, which was celebrated at 4.15 this afternoon in the Methodist church. The ceremony was beautifully decorated for the occasion, the work of young lady friends of the bride. The communion rail was banked at its base with green and white flowers, and the bride and groom were seated upon a mat of wood floor. The organ played almost continuously, and the bride's father, assisted by Rev. Lettney of St. John. The groom was attended by James E. Angwin of St. John. The congregation presented the bride with a silver tea service, and the bride's father presented her with a fine china gift tea set. The bride and groom left by western train for Boston.

THE MARKETS.

Revised Every Monday for the Weekly Sun.

COUNTRY MARKET.

The manner in which potatoes are being rushed into this market does not indicate a present scarcity, at all events. About a dozen cars are on the way here. Dealers were last week asked for offers on car lots from Stone Haven, Pettitodac, Black Cape, P. Q., Harvey Station, Havelock, Port Elgin, Kent Junction and other places, and some are coming from P. E. I., besides the supply coming down river. This market will not stand a very large supply, and if stock has to be called it will probably be at ship prices. As yet prices show no change, but if the rush continues the market must weaken. Gross tomatoes are higher. Carrots are cheaper. Butter has an easier tendency. Meats and poultry are unchanged.
