One New Case Today—Trouble at Musquash—Kings County—Record in Daln.

A suspected case of smallpox was reported on Richmond street today. Dr. Morris will make an examination this afternoon.

The case on Richmond street was later on reported as a mild case of smallpox. The patient is Miss Marion Fraser, eighteen years of age, daughter of W. M. Fraser. There are in the house besides, Mr. Fraser and Mrs. Fraser and son.

No new cases have developed in the General Public Hospital today, nor are any suspected. In the epidemic hospital three cases are causing considerable anxiety. These are Miss Bertie Knapp, Miss Matilda Melanson and Maggie Sherwood.

All the patients who developed smallpox in the general public hospital were vaccinated while in the institution. Miss Munro, however, was only vaccinated the day the disease developed in her.
