A BARBECUE. Penobscot Will Royally Celebrate Coronation Day—Gifted Speakers to Attend.

Penobscot, Kings Co., will have a notable celebration of Coronation Day this week, which will attract people from all the surrounding districts, and doubtless many from a distance, for the hospitality of the people on such an occasion is proverbial.

The event will be under the auspices of Court Intervale, I. O. F., and will therefore be of special interest to all Foresters.

When George IV. was crowned, the good people of Penobscot had a barbecue, and again when Victoria was crowned. The last one was eaten under a large pine tree still standing in the village. It is proposed to follow that example and have an ox-roast on Coronation day, near the old spot. A band will be in attendance and sports will be held in the afternoon, baseball, games, dancing, etc., with fireworks in the evening. Dinner and supper will be served.

PARRISBORO, N. S., May 31.—A large number of the members of St. James' Presbyterian Church and congregation assembled at the residence of Mrs. C. E. Beverley on Thursday evening to say farewell to Rev. and Mrs. H. K. Maclean. A number of addresses were made expressive of regret for the departure of the pastor and his esteemed helpmeet, and this expression took a more practical form when M. L. Tucker, on behalf of the male portion of the congregation, presented Mr. Maclean with an address accompanied by a purse containing \$70. The ladies of the congregation gave a similar expression of their great and sympathetic for Mrs. Beverley in their behalf presented a purse containing \$68 to Mrs. Maclean.

The launching of Capt. D. S. Howard's fine four-master—said to be the biggest schooner in Canada—is likely to draw a big crowd of visitors to Parrisboro on June 7th. The leading business men have decided to have a "merchants' day" on that occasion and are offering special inducements to attract custom. Arrangements are being made to have excursions from various points, and the sports which had to be postponed on Victoria day, will be held the day of the launching if the weather permits.

CENTRAL R. R. INQUIRY. Evidence Brought Out by the Coroner's Inquest at Cady's.

The inquiry before Coroner Perry at Cady's, Queens Co., into the causes that led to the death of Fireman S. E. Brand in the recent accident on the Central railway, will be resumed on the 23rd inst.

The witnesses so far examined were Joseph Brand, brother of the deceased; Frank Campbell, E. G. Evans, manager of the line; Conductor LeBaron Skilken, and Whitman Brewer, contractor and builder, who repaired the bridge last fall.

In the course of his evidence Conductor Skilken said: "The master builder told me the bridge was safe, and I depended on him. I did make a statement the bridge had been tampered with. I said I knew of no reason for it going down unless it was tampered with. I did not know it was wrong of me to make any such statement, while this master was before the court. I had no positive grounds for saying so. I did not make the statement for publication. I made it to C. J. Milligan, manager of the Telegraph. It was merely my opinion. I saw Mr. Evans inspect the bridge after the trestle, but he made no remarks to me. He was underneath the draw looking at the timbers. I never knew of a brace falling off while going over it."

Whitman Brewer, in the course of his testimony, said: "I finished repairing the bridge last fall. I put in new bottom cords, new top and bottom lateral bracing, and new side braces, new portal frames, new track stringers and new main plates. This work was all done with Georgia pitch pine. The bottom cords were six by six and the two centre piers six by six. These are the usual size, and are not small. I put no new top cords in. I considered this sufficiently good. The fact that they could run a knife into the rotten part of the top cord as deep as the blade. He never knew hard pine to give out in twelve years. Knew of bridges lasting twenty years. Mr. Evans said the engineer was willing to put new top cords in had he deemed it necessary. I noticed this spring the rail was out of alignment. I did all that Mr. Evans asked me to do or told me to do. I was instructed to let him know if more was needed. Some extra work was done. This work was done by Mr. McCully, of Moncton, is conducting the case on behalf of the family of the deceased, and Hon. H. A. McKeown is watching the proceedings on behalf of the government.

Bicyclists and all athletes depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.

THIS MIGHT HAPPEN IN NEW YORK. "It's a pretty bad looking lot they've hauled in this morning," said his city cousin, who was showing him the sights of the city.

"Yes," said the visitor from the interior looking them over. "Who's that red-headed fellow in the chair? He's about the toughest looking of them."

"No!" said the police magistrate. "Chicago Tribune."
