THE STANDARD, ST. JOHN, N. B., TUESDAY, JUNE 24, 1913.

THE MOST STUPENDOUS SALE **BOOTS and SHOES** EVER OFFERED THE PEOPLE OF ST. JOHN UNION AND MILL STREET STORES 10,000 Pairs of Shoes Bought at Our Own Price and Offered at Less Than a Third of Actual Cost

The memory of this sale will live in the minds of the people for years to come. There never has been a chance like this to buy shoes. A Manufacturer determining on giving up the carrying of goods in stock reluctantly accepted our offer for the lot-some thousands of pairs-and our offer was so low that we had not the faintest doubt of it being accepted. We have decided on confining the sale to our UNION AND MILL STREET STORES. Extra staff of salespeople in attendance. People will await this sale as they know that when we advertise to give bargains we do just what we advertise. Unquestionably this will be the GREATEST EVENT OF THE YEAR. Just think, you will be able to buy a pair of shoes for less money than the bare leather costs. Now whilst there are thousands of pairs in the lot it goes without saying that the real plums are soon picked out. So be on hand early.

3 ARTISTS HEALY & ADAMS in B

OPERATHOUSER 3Days Thursday, June 26

If we think we cannot keep our business booming in summer time, we surely will not.

What a jolt it must have been to the fur trade, when the first mid-summer fur advertisement was run in a daily paper! Now many fur stores are following ' the example of that progressive fur man who dared to believe that fur sales need not go down as the mercury goes up.

Energy, linked with Advertising, has turned the month of January into the biggest selling season for white goods. Advertisements of a high stimulative power, combined with a disregard of "seasons," have opened up automobile selling two months earlier than was once thought possible. Advertising has started Christmas shopping early in October instead of the middle of December.

Advertising rises superior to seasons and thermom-eters. The right kind of Advertising strikes a tt w responsive cord in human nature-and human nature is the same in August as in December.

Lord Muskerry, who was supported h Lords Ellenborough, Salisbury, Hal bury and Meath, raised a question i the House of Lords concerning it loss of the missing steamers Neptur and Grindon Hall, regarding which n inquirles were held, the Board of Trade have invariably ordered inve its the state of the sease of missing Bri ish ships. Since that date public a tention has been focussed on the mysteries of the seas. During the par-two years guite a number of inquirk have been held in various parts of th United Kingdom. Today, the marin department of the Board of Trad have informed the Board of Trad have informed the Guild that on th 9th July an inquiry will be held in Newcastleon-Tyne into the circum stances connected with the suppose loss of the Mountswald, a steamer 3,244 tons gross, owned by Messar 3.244 tons gross, ow Lunn and Maccoy of Tyne, and commande Stannard, I.M.S.G.

New Home Treatment For Removing Hairs

(Boudoir Secrets)

Any woman troubled with superfli-ous hairs can remove them in the privacy of her home without pain of trouble by applying a delatone past to the hairs not wanted. This past is made by mixing powhered del-tone with a little water. The past is to remain on the skin 2 or 3 mil-utes, then rub off, wash the skin an the hairs are gone. This treatment irs are gone. This treatmer k, harmless and leaves the ski it spot or blemish. An origina package of delatone is ample.
