## Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to the terror it would be more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed.

"Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All the ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

### MONCTON

Moncton, N. B., Nov. 7.—At the annual meeting of the Westmorland County Liberal-Conservative Association, held this afternoon, President P. G. Mahoney in the chair, the following officers were elected: President, Dr. O. B. Price, Moncton; general vice-president, O. M. Melanson, Shediac; secretary, E. Trites, Sackville; the executive is composed of the officers and the following vice-presidents from the district parishes: Shediac, Dr. J. E. White; Salisbury, J. A. Foster; Sackville, George A. Fawcett; Moncton, W. E. Hunt; Botsford, P. G. Mahoney; Westmorland, M. G. Siddall; Dorchester, A. W. Chapman; Moncton city, W. B. Marks.

At a meeting of the local division, O. H. tonight preparations were made for a reception and supper to be tendered National President James Regan, who is to visit Moncton Thursday night. A public meeting will be held prior to the supper.

Fred Legere, aged 18, son of Pelican Legere, Cormier Village, parish of Shediac, was the victim of an accidental shooting last Sunday, which it is feared may cost him his life. Young Legere was standing at a loaded shot gun leaning against his abdomen when the gun was discharged in some unaccountable manner. The charge of shot entered the lad's side, tearing a fearful hole, coming out above the left breast, and two ribs being carried away. Portions of clothing were carried into the wound, and how Legere escaped instant death is a marvel. At first Dr. LeBlond, who was called, thought the young man could live but a short time. Strange to say, however, he is still alive with some chance of recovery. Dr. Oulton, who was called later, operated upon the patient, removing the debris with the result that he is doing well.

The annual meeting of the Canadian Club was held this evening when the following officers were elected: Hon. president, Judge Landry; president, John T. Hawke; first vice-president, G. J. Oulton; second vice-president, Mayor Bell; secretary, E. J. Poyon; treasurer, H. G. Charters; archivist, W. A. Cowperthwaite; executive, W. G. Jones, Captain J. E. Masters, B. A. Bourgeois, G. H. Clarke, A. N. Charters, Irving Malcolm, G. L. Harris. Included in the programme after luncheon was an address by Judge Landry along imperial lines.

Moncton, N. B., Nov. 8.—The Moncton police are in search of one Theophilus Melanson. According to Mrs. Melanson's story her husband, who was employed on the I. C. R., drew his pay Monday and then disappeared. She has seen or heard nothing of him since, and she has sought aid of the police in locating him. Mrs.

Melanson is left with two young children, and the neighbors have been supplying them with food the past few days.

The missing man is about thirty-five years old. Dan McDonald, the Cape Breton wrestler, arrived in Moncton this morning from Sydney and intends opening a wrestling and boxing school.

A well known resident was removed by death yesterday in the person of Philip LeBlanc, generally known as Philip White, who had been employed for the last twenty-five years with the Sumner Company, formerly as truckman but in later years as a hand in the warehouse. Deceased was about seventy years of age and had been ill about a month. He leaves a widow, a son, John White, formerly a clerk on the I. C. R.; a daughter, Miss Verne and two smaller children. He is also survived by two brothers, John LeBlanc, the well known coal dealer, Moncton; Jerome LeBlanc, of Minto, and two sisters, Mrs. Mark Bourgeois, of Moncton, and Mrs. Alfred Brime, of Antioch.

Edward Melanson was convicted of assault with a dangerous weapon today and fined \$20.

A young man named Clarence Bower, was fined \$20 by Magistrate Kay today for forcibly seizing a young woman from her place of employment in a state of intoxication. In default of payment of the fine, Bower will spend a month in jail.

The marriage took place at Bastouche Moncton of Miss Hilda Broadbent, aged 76 years, and Mrs. Allan, aged 76 years. This is the fourth time the couple have been married and the second time for the groom.

Keep a piece of sandpaper in the machine drawer for rough or blunted needles; a file, too, will quickly smooth a dull machine needle, and scissors may be sharpened on a large needle or the steam of a glass (or pieces of glass) by opening and closing quickly, as if you were trying to cut the glass.

To keep an embroidered scalloped edge from fraying and to save buttoning it the second time, start at your left hand to work, holding the thread down with your thumb. Throw the thread that is in the needle under the needle, which gives it a double buttonhole edge, making it very strong.

If it is well to always keep a wire strainer in one corner of the sink through which to pour dishwater or the water that has been used to wash vegetables. It will catch all the refuse and prevent the drain pipe from becoming clogged and save a plumber's bill. Empty the strainer at least once a day.

In warm weather rubber sandals are apt to stretch if they are hung by the strap at the back. To obviate this, keep them in a box on the floor, or hang them on a nail or hook by the strap that fits over the ankle. A good plan is to have a wall bag made and fitted with pockets in which to slip the overshoes after wearing.

A satisfactory duster, one that will really hold the dust and not take it up in the air, is a good thing to have. It may be made in this way: Soak a large square of cheesecloth in kerosene oil until thoroughly saturated and hang in the open air all day until well dried. It holds the dust splendidly. When soiled the process may be repeated after the cloth has been washed.

A good way to satisfy the members of a family who do not care for the same kind of cake is this: Make a batch of batter which will make six layers. From this put in two layers thin the plain white dough, then what is left divide and put into three cakes. To one part can be added lemon, orange, or apple flavor. To another can be added some bitter chocolate melted in hot water, making a nice chocolate cake, or one can add either currants, which have been washed, dried and put in flour or a half cupful of coconut, thereby giving enough variety of cake to last a week without, besides having a change without extra labor.

This is a good way to clean buff or cream-colored window blinds: Begin by taking off any trimmings there may be, washing them in hot soapy water, then rinsing them in hot water, and pressing them on the wrong side with a hot iron. Next bake some flour in a dish in the oven; lay the blind flat on the table, dust it with a clean cloth, then dip a piece of dandelion in the flour and rub the blind evenly with it. Take fresh flour and dandelion when soiled. Polish the blind with a clean, soft cloth, sew on the trimmings and, replace it in the window. Green blinds that have faded may be made to look almost like new by brushing them over with some linseed oil.

How many housekeepers who do their own washing stand over a hot stove an hour or more cooking flour starch? Here is the way to make it without cooking: Mix the required amount of flour with just enough cold water to make a thick batter, then add enough boiling water to this, stirring it as you pour the hot water in. Be sure that the water is very hot or the starch will stick.

Try these greasy streaks on glassware after it is washed are due to the fact that the soap or washing powder used has not been thoroughly dissolved.

Put a lump cake filling blanch and pound it pound of almonds, add two eggs, a cupful of sugar and a teaspoonful of vanilla and spread between layers.

When a valuable piece of music begins wearing out along the edge, first press the sheet with a warm iron and then bind the edges with passepartout.

Bio-bates containing mother-of-pearl should never be cleaned with soap and water, instead, it should be rubbed with a cloth dipped into whitening and water. Cooked beets, hollowed out and pickled in mixed vinegar, may be served with minced celery and apple and served on lettuce leaves with oil and vinegar.

Paint the inside woodwork of bedsteads with carbolic sublimate and turpentine. Five cents' worth of the former and a pint of the latter. It will destroy all vermin.

To make egg gruel, beat one egg in a bowl, add salt, a little parsley, a teaspoon of boiling water. Cut into four pieces, a slice of toasted bread and pour gruel over it.

The colored candies used for guest tables and other festive occasions become soiled before they are consumed, they can be nicely washed with a soft brush, white soap and warm water.

Moncton, N. B., Nov. 8.—A fatal accident occurred this afternoon at the Shives Lumber Company's Athol mill, whereby Alphonse Picot, of Bathurst, aged 24, lost his life.

Picot was working at an edger and a piece of scantling flying off the log he was cutting, struck him on the right breast, killing him almost instantly.

The coroner, Dr. Martin, held an inquest this evening, when the jury returned a verdict of "death by accident," attaching no blame to the Shives company.

A brother of the unfortunate man, who is also an employee at the mills, removed the body to Bathurst today for interment.

The deceased was highly respected by his fellow workmen and genuine sorrow is expressed over his untimely death.

## HEART DISEASE REPORTS WERE ENCOURAGING

### Kingston Girl Saved by "Fruit-a-tives"

Heart Weakness and Heart Irritation are the common outgrowth of indigestion. Gas is formed in the stomach and this accumulation of gas bulges out the walls of the stomach and presses against the heart. Palpitation, pain over the heart, and sometimes a feeling of smothering and dizziness, all are caused by the stomach and not because of any organic heart disease.

"Fruit-a-tives" will always cure this weak, irritated condition of the heart by curing the stomach.
