Peter Pesha, aged 84, retired farmer who has resided in Euphemia Township for many years, was instantly killed Monday afternoon at Bothwell when he stepped off an O. P. R. train directly in front of another. He was knocked down and the top of his head cut off. Mr. Pesha had been spending Christmas and New Year's with his son Alfred at Kent Bridge. His daughter Ida, accompanying him, witnessed the accident.

The Thamesville Herald says:—A petition has been sent from Glencoe, asking to have the time of the mail train changed to an earlier hour, and the Railway Commission sent a representative to interview the business men about it. We believe that the present hour suits Thamesville and Bothwell far better than the old schedule, and it might be well to let the commission know it. Glencoe can afford to be independent, as it has the International Limited stopping there every night. As the International does not even hesitate here, Thamesville finds the mail train quite a convenience.

## 1916 STUDEBAKER CARS

40 H. P. FOUR	50 H. P. SIX
\$1195	\$1395

—more POWER  
Never before have such powerful cars been priced so low. The 4-cylinder car develops 40-45 horse power. The 6-cylinder car has 50-55 horse power.

—more ROOM  
Both cars are roomier than ever. The bodies are deeper and larger in every way. They carry seven passengers in comfort—the auxiliary seats fold into hidden recesses in the floor.

—even HIGHER QUALITY  
It shows in every detail of the car. Genuine hand-buffed leather—chrome-nickel and chrome-vanadium steels in the steering knuckle, gears and shafts—25 color and varnish operations—thirteen Timken bearings—and higher standards of accuracy in manufacturing and inspection.

—and LOWER PRICES  
But Studebaker made no attempt to produce low-priced cars purely for the sake of a low price. Instead, Studebaker started in to build the best car that it could build. The price is low only because of largely increased production for the coming year, great factory resources, complete manufacture of the cars in Studebaker plants and concentration on virtually one chassis.

And all that we ask is that you come in and see the cars—see how much more they give—and the quality that they offer. We honestly don't believe that you can select a car without injustice to yourself if you don't see them.
