

SPARKS.

Owing to the discomfort caused by smoke and gas in the St. Clair tunnel, the G. T. R. Co. are considering the question of operating the cars through the tunnel by means of electricity.

The Brantford Electric Light Co. has been incorporated with a capital of \$150,000. Messrs. Wm. Buck, Geo. C. Schultz, H. B. Leeming, A. Watts, G. H. Wilkes and J. W. Digby are the promoters of the Company.

The London City Council propose to substitute for the taxes imposed on the Street Railway Co.'s property, amounting to about \$600 a year, a mileage rate of \$200 a mile. The company operate about 11 miles of track, which under the proposed arrangement would compel them to pay a yearly tax of \$2,200.

Opposition to the construction of the proposed electric railway between Hamilton and Guelph, is said to have arisen in the latter city, on the ground that the new road would be likely to divert trade from Guelph to Hamilton, unless it were extended further north. The consent of all the municipalities through which the road is to run has been obtained.

New Facts about the Dakotas is the title of the latest illustrated pamphlet issued by the Chicago, Milwaukee & St. Paul R'y regarding those growing states, whose wonderful crops the past season have attracted the attention of the whole country. It is full of facts of special interest for all not satisfied with their present location. Send to A. J. Taylor, Canadian Passenger Agent, No. 4 Palmer House Block, Toronto, Ont., for a copy free of expense.
