

In the running for school boards

**Platt
Ward 2**

Errol Platt is running for Peel Board of Education trustee in Ward 2.

Platt is employed in the Ontario Conciliation and Mediation Service of the Ontario Ministry of Labor.

"There is a lack of communication between trustees and the public.

"There is an apparent lack of foresight and planning. There is relatively poor labor-management relations, particularly with teacher groups."

**Hart
Ward 2**

John Hart, considered a maverick among his peers when he was a trustee from 1966 to 1972, is running for Peel Board of Education trustee in Ward 2.

Hart, president of Sheridan Consultants, feels strongly about having professionals on the board.

"We need doctors, engineers, computer programmers and research people like myself on the board," Hart says. "These people can better understand the reports the administration is preparing. Board business is very technical and requires people in the field to interpret it."

Hart, in his six years as a trustee, was one of the prime movers for French-

immersion and the testing program for students.

"We have to strive for excellence," Hart says of the board's responsibility to the students. "I initiated the first test and it was found that our students fell below the national norm."

**Gazzola
RC rep**

Peter Gazzola, a separate school representative on Peel Board of Education, will seek re-election as a trustee.

Gazzola, who has been involved with Catholic education for 20 years, is principal of St. Luigi School in Toronto and is also president of the Federation of Catholic Educational Associations

of Ontario.

"I would like to work toward openness and cooperation between all groups which form the educational community of Peel — the students, parents, teachers, administration and trustees."

**Bileski
Ward 6**

Dan Bileski, a trustee with Dufferin-Peel Roman Catholic Separate School Board for the past six years, will seek re-election in Ward 6.

"Unfortunately or fortunately, there are no issues to be discussed in this campaign other than good and progressive management of a growing school board in a time of restraint."

For council

**Marland
Ward 2**

As expected, Ward 2 Peel Board of Education trustee Margaret Marland has jumped into the race for the council seat being vacated by incumbent Mary Helen Spence.

Marland, a resident of Ward 2 for 21 years, says she's "dedicated to continue to keep Ward 2 one of the most beautiful wards in Mississauga in which to live."

A trustee for four years, Marland opposes the "tremendous tendency to empire-building in government today."

"I do not believe in change for the sake of

change, but only if change is needed, because it is usually expensive in every way."

She calls for zero-base budgeting to control municipal expenditures.

The president of the city's Rotary-Annes, who is also a member of city task forces on vandalism and human relations, promises to reveal the names of donors.

**Bradford
Ward 3**

Rob Bradford, 24, declared his candidacy in the Nov. 13 election for the Ward 3 council seat last week, however his picture did not arrive in time to run with the story.

Bradford will contest the seat against incumbent Frank Bean.

REDUCE THE COST OF GASOLINE BY UP TO 25¢ PER GALLON

As we all know, the price of gasoline has skyrocketed in the last year or so. Therefore the average car-owner has to look for ways to stretch his gas dollar.

I have the way to solve that problem with a product called the Ram-Jet mini supercharger.

The Ram-Jet is not to be mistaken for any of the other gas saving contraptions that have been popping in and out over the years, and to emphasize that fact I offering a full 100% money back guarantee if not completely satisfied.

I too was a little skeptical before I took on the job of distributing them in Ontario. In order to make sure I would be selling a product that would do the job right, I tested it myself on my own car as well as cars and trucks belonging to just about all my friends and family.

The results were amazing. We found an increase of 2.5 m.p.g. to 8 m.p.g. depending on the type of car.

Since installing the Ram-Jet, car owners are noticing a big improvement in over-all engine performance. eg. more pep, no more stalling.

Installation is simple enough for anybody. If you can cut a rubber hose, you can install a Ram-Jet. You simply cut the P.C.V. line and join the two cut ends with the Ram-Jet (no clamps needed). Each Ram-Jet comes with easy to follow instructions.

You can order your Ram-Jet in Canada by calling (416) 259-4930 or save C.O.D. charges by sending a cheque or money order for \$19.95 to: Queen-City Ram-Jet 25 Hargrove Lane Toronto Ontario Canada, M8W 4T7
