

gative in Congestion of the lungs and Lung Fever.

The fifth part makes Wilson's Anti-Bilious and Preserving Pills superior to all others, inasmuch as in it is the tonic strength producing quality, which prevents the cathartics and blood cleansers contained therein from weakening the system. In NO OTHER PILLS offered to the public will be found this union of the CATHARTIC, the CLEANSING, and the STRENGTH PRODUCING, because as a general rule these qualities are opposed to each other. It was Dr. Wilson's good fortune, after long study and laborious researches, to find out how to unite them all in one, without allowing the one to interfere with the other.

TRACADIE, Jan. 15, 1875.

After having used DR. WILSON'S ANTI-BILIOUS PILLS for more than two years, and finding them to be a safe and efficient remedy for Sick Headache and Bilious Attacks, I take pleasure in stating that they are the best medicine I have ever taken for the above complaints. I have been subject to sick headache for seven or eight years, and never found anything to relieve me until I commenced using Dr. Wilson's Pills; and I have been frequently relieved in less than an hour after taking them. SAMUEL NAYLER.

KINGSTON, N.B., Jan. 4, 1877.

I have used DR. WILSON'S ANTI-BILIOUS AND PRESERVING PILLS in bilious attacks, and found them to be the best Pills I ever used for that purpose; I have also used them as a cathartic medicine, and have found but little use for a physician since I had them in my family. A. S. FRENCH.

In Female Diseases Wilson's Anti-Bilious and Preserving Pills are of great service, and may be safely trusted. They correct IRREGULARITIES, relieve STOPPAGES, cure Leucorrhœa or Whites, and are especially useful about the TURN OF LIFE, when so many chronic diseases are apt to take their first beginning. STOPPAGES or SUPPRESSION is often relieved by these Pills by sympathy. They should be given in frequent doses, and aided by a hot bath, or bathing the feet in warm water with mustard in it before going to bed. The PILLS are more likely to bring on the Catamenia if taken when due than if delayed a few days.

A somewhat similar train of symptoms, only characterized rather by a yellowish or greenish colour of the face and skin, paler of the lips, sunken eyes, surrounded by black circles, and accompanied by

costiveness, loss of appetite, and either stoppage of the menses, or an exceedingly light coloured discharge, are relieved by small doses of the Pills taken frequently and for a length of time.

In Rheumatism and Gout they are very valuable. These diseases have their foundation in the faulty secretions of the stomach and bowels, being poured into the blood, and by it disseminated through the system, producing the acute pains in the muscles which we call *Lumbago* and *Local Rheumatism*, or in the joints accompanied by *Swelling, Redness and Fever*, which we call *Articular Rheumatism*, or *Rheumatic Fever*.

The virtues of these Pills penetrate the fountains of the blood, and thus effect cures which could not be believed if they had not been proved. All who use them can see they have curative properties equalled by nothing which had been known before, and are astonished to find a medicine of such wonderful power over diseases, which is harmless—perfectly harmless even to infants.

Their great excellence consists in this, that they are compounded from the concentrated virtues of medicinal substances. Consequently they have far greater potency and remedial effect than the same medicinal substances, whether mixed or administered singly. This is the secret of the extraordinary cures they have produced and are producing. We do not wish to over-estimate their value or their usefulness, but we do desire that the public should know what they have done and are doing for those who are suffering from the disorders they cure.

EEL RIVER, N.B., June 11, 1877.

I am hardly able to express my gratitude for the benefit which my daughter has derived from the use of DR. WILSON'S ANTI-BILIOUS AND PRESERVING PILLS. Our Doctor failed to give her any permanent relief, although she tried his prescriptions faithfully. Her constitution was broken down by the use of mercury. She tried the PILLS, and I am happy to say she has entirely recovered her health.

W. J. COSS.

We have abundant evidence to prove that they are superior as a purgative Pill to any other. They are surer in their operation, more effectual as a remedy, and safer than any preparation which has ever been made available to the public. The enormous consumption of them, and constantly increasing demand, show that their virtues are not unknown, and we shall spare no pains in maintaining their high quality.
