Hens that are fed for egg-laying can't find time to loaf. Give them the material that produces eggs, and they will keep on laying. That material he metals is protein.

Grains alone do not supply enough of it. Feed Beef-Scrap in the right proportions and the rations will contain the protein needed for big egg production.

An instructive book-32 pages-full to the covers with informa-tion on poultry raising, will be sent FREE, if you mention this paper. Ask for "The Hen that Lays is the Hen that Fays."

A limited quantity of large, smooth, white, shallow-eyed, Canadian Stand-ard Potatoes. Has yielded us 380 bus, per sore. Originated in Muskoka Also some Irish Coblers. Price, \$1.00 per bag, F.O.B., G.T.E. or O.P.E.
