

Mr. Campbell stated that the question should be looked upon from a business standpoint. Sheep paid 100 per cent. How much is the dog industry worth?

SWINE.

Mr. T. H. Mason, Strathfordville, Ont., discussed the economic feeding of swine. He predicted that the supply of hogs six months hence would be fifty per cent. less than the demand. High-priced feed and low-priced hogs had caused a scarcity which would be felt two or three years hence. Only hogs should be raised that suited market conditions. Pigs should not be weaned till they were eight or ten weeks old.

Prof. Day stated that the man who has any feed will make a great mistake by selling his breeding stock. This was not a year for feeding stock extensively, but the man who had

feed should sit tight. Frosted wheat was a good feed for stock, and he advised farmers to purchase it. Wheat slightly frosted was almost as good as good wheat for feed.

THE DAIRY.

The dairymen had their innings on the afternoon of Dec. 11th. Messrs. E. Hawthorne, Warsaw, P. Dunn, Ingersoll, and W. H. McNish, Lyn, discussed the operation and results of practical work in cow-testing, and strongly advised the forming of cow-testing associations. One speaker stated that he sold a cow for \$60, and, after looking up her milk record, found she had returned him \$75 in the value of her products during one season.

Mr. Frank Hens, chief dairy instructor for Western Ontario, advised more co-operation between milk producers and owners of cheese factories

and creameries. There were too many small factories whose cheese was of an inferior quality. By combining these and being able to pay for more skilled men, the quality would be improved. He advised patrons to store ice, and recommended pasteurizing whey to insure cleanliness in conveying it to the patrons. Some factories have been able to get rid of the yeast flavor by pasteurizing whey. It costs from \$75 to \$80 per season for a 150-ton factory. Cool curing rooms should be built and the patrons should help pay for them. Makers and factory owners are now spending all they can afford on equipment. Are the patrons doing their share?

Prof. Dean advocated more sanitary methods in the handling of milk and milk products. Too many dairymen have reached their ideal and are therefore making no progress. Only three kinds of milk should be sold—

ADVICE TO WEAK MEN!

DON'T DRUG USE ELECTRICITY

THE OLD WAY.

EXPERIENCE IS A DEAR SCHOOL, but some men and women will learn in no other.

If you would apply the same reasoning faculty to your efforts to regain your health that you do in your other pursuits, you wouldn't make a drug shop out of your stomach.

Ever figure up what it has cost you experimenting with drugs and nostrums to get back your health?

Of all the fool notions that ever got into the human mind is the idea that there is, or ought to be, somewhere in the universe, some mineral or vegetable compound that will cure each and every ill to which human flesh is heir.

That's all bosh, but as long as the idea exists, poor, deluded mortals will continue to dose their stomachs, and it's this delusion that creates a market for carloads of "dope" in various forms that every year are manufactured and sold throughout the country.

THE NEW WAY

Said one of America's greatest statesmen, who was a signer of the Declaration of Independence: "THE BEST DOCTOR IS THE ONE WHO KNOWS MOST ABOUT THE WORTHLESSNESS OF DRUGS."

Break away from drugs and doctors, and use Electricity for just ten days. GET THE DR. McLAUGHLIN'S ELECTRIC BELT. Give us a chance for just a few weeks, and we will make a new man of you.

It's a safe bet that your weakness, your pains and aches, can all be traced to lack of vital tone in your system.

ANIMAL VITALITY—ELECTRICITY—MAGNETISM—THESE ARE ALL ONE AND THE SAME THING.

Let us give you back this power and your troubles will take wings and fly away.

STRENGTHEN YOUR BODY-GUARD! BUILD UP YOUR NERVOUS POWER! Your body-guard is the ten million nerves and tens of millions of little nerve cells that compose your Nervous System. It's the Electricity in these nerve cells—the little "storage batteries"—that runs the machinery of your body.

Read some of these samples of letters we get every day by the score from people who have used this grand remedy:

Dr. McLaughlin—

Dear Sir,—I write to let you know that your Belt has cured me, and I am entirely satisfied with your treatment. I then gave it to my sister to wear, and she, too, was entirely cured, after being treated by many different doctors, and also being told that she would have to go under an operation, to which she would not consent. She used your Belt and was entirely cured.

JOHN W. TRIBAULT.

Bruce Mines, Ont.

Dear Sir,—I should have written you before to let you know what your Belt has done for me. I can say that my back is cured, and as strong as ever. For six months before I started to wear your Belt, I could hardly stoop over to pick up anything off the ground, sometimes I could not walk, the pain in my back was so bad. I had not worn the Belt more than two months when my back was as well and as strong as ever.
