PANDORA RANGE

for Coal or Wood

OF course the Pandora Range is a few dollars more than an ordinary range. But it will soon pay for itself in the fuel it will save for you.

The *Pandora Flue System and Wide Fire Box*, designed by our brainy stove experts, save about *half a ton* of coal per year, because they supply more air than the flue systems and fire boxes of ordinary ranges, causing better combustion of fuel.

The *Steel Oven* saves some *more* fuel, because it heats up more rapidly than a cast iron oven. The heavy *Fire Clay Coating* on the main bottom of range prevents any heat wasting towards the floor. It drives the heat back into the oven, and thus saves *still more fuel*.

But the *big economizing* feature is this: The draft for cooking on top of the range is also the draft for baking in the oven. The heat does *double duty* and your *fuel bill is largely reduced*.

Get the Pandora. No other range is high-class enough for you.

THERE is no fine, fancy, dust-catching carving about the Pandora Range. Instead, the *Carving* is bold and large, and is easy to clean.

Great care is exercised in making, cleaning and polishing the *Pandora Castings*. That is why they are so very smooth. The *Cooking-Top* is *burnished*. It is smooth as glass. Doesn't catch the dust. Requires but little black lead once a week.

You want a range that is easy to clean—that bakes perfectly—that saves fuel—that is *guaranteed* to satisfy you. The Pandora is that kind of a range. See it at our agent's in your locality.

YOU can quickly get the Pandora oven ready for the baking. It is made of *Nickel Steel*, which is much more sensitive than a cast or gray iron oven. It heats up more rapidly, and thereby saves you many precious minutes.

After you've used the *Nickel Steel Oven* for a week you'll congratulate yourself that you invested in a Pandora Range. Get one this week. Make up your mind you'll enjoy its many conveniences at once. Our agents in your locality will fill your order promptly.
