CHATS WITH YOUNG MEN.

Besides a pure intention, a cheerful and willing acceptance of the little crosses which meet us day by day goes far, if we accept them in a loving and explatory spirit, to redeem the loss of time which, to the eve at least is on time which, to the eye at least, is one of the least hopeful features of a life in the world.

Our Part.

Our Part. We should always seek to discover and to do our own part, small or large, with the utmost faithfulness. Not to do this, to leave undone the things we ought to have done will be to leave a blank in the universe where there ought blank in the universe where there ought to have been good work well done.

Love Your Mother Now.

Young man, did you ever put your arms around your dear old mother, and arms around your dear old mother, and tell her that you love her and are grateful for the work she has done for you, for the tears she has shed and the prayers she has offered for you? She may think that you love her without you assuring her that you do, her it costs you but little effort to tell but it costs you but little effort to tell as well as the least.

but it costs you but little effort to tell her and your words may bring more joy and sunshine to her heart than you ever dreamed of. Some young men will pay \$2 for a livery rig to ride three hours with a 75 cent girl and they will tell her all the nice things they can which of that are true, and more that think of that are true, and more that are not true, and they don't spend 5 cents or five minutes in a year to show cents or nve minutes in a year to show their old mother that they care any-thing for her. Do not be one of them, nor wait until your mother is dead to show her your affection..

Learn Something From Everybody.

Due of the most useful success habits one can form is that of learning some-thing from everybody with whom he comes in contact. No information which can be acquired is too trivial to be imported.

Daniel Webster once made a great hit, in arguing a case before a jury, by repeating a story which he afterwards said he had not thought of since he heard it, fourteen years before. But Webster was always picking up some-thing for future use. His famous reply to Hayne, the greatest speech ever de-

IGNORANCE OF THE CULTURED

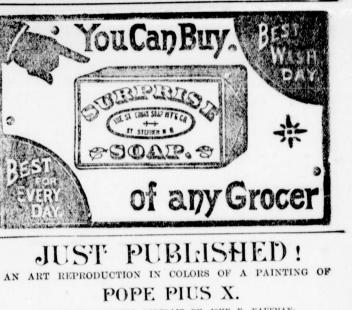

It is curious how people will demand harmony, definiteness, and correctness in music and art and literature, but are content with vagueness and nebulosity in religion. Here are our friends the Unitarians. They pride themselves on their culture, on their breadth of vision, their culture, on their breadth of vision, on their superiority over all who be-lieve that Christ was God. Many of them are people of education, of the student habit which investigates and finds out and makes sure of most of the subject which exercise the minds of men. But to religion—why that great and subject which exercise the minds of men. But to religion—why, that great and most important question need not be bothered about. "Be good and you will be happy," seems to be the basis of their religious belief, and they care no further. Mrs. Emily Fineld, herself a Unitarian, tells of this Unitarian, indifference to definite ideas regarding religion in a recent issue of the Chrisreligion, in a recent issue of the Chris-ian Register. She says : "This very summer I have been sit-

ting on a hotel plazza with a group of delightful, cultivated men and women, most of them Unitarians, and not one of them was able to say why he was a Unitarian or what Unitarians believe.
