just come to us from Cardston, Alta., that the development of the leading Mormon centre of Canada according to the type of rapid growth instanced in the case of Salt Lake City, Utah, is foreshadowed by the completion of architects' plans for the \$300,000 temple to be erected there by the Mormon church. Contracts are just being closed with Cranbrook, B.C.,

quarrymen for the delivery of the requisite amount of cream-colored marble, which will be of a very high grade corresponding with the elaborate design and finish of the interior structure. Excavation for the main structure is to be started early in the coming year. We have before received reports of the serious advance of Mormonism in the Canadian West.

"Eat More Bread"

Of course you should "eat more bread"—and less meat—but be sure your "bread" contains all the body-building material in the whole wheat prepared in digestible form. The only "bread" that fulfils all these requirements is

SHREDDED WHEAT

It is made in Canada of Canadian whole wheat steam-cooked, shredded and baked. It is a natural, elemental food and is not treated or compounded with anything. Its purity, cleanliness and food value stand unchallenged, being endorsed by the highest health and dietetic authorities in Canada and the United States.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted Triscuit, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

IN ANSWERING ADVERTISEMENTS, PLEASE MENTION "THE CANADIAN CHURCHMAN."

This shows the rapid strides being made and should make our churchmen think!

The Bishop of London last Sunday proclaimed himself the champion of all Christian people of the metropolis to lead a campaign for purer moral standard in music halls and theatres. This is the outcome of the hostility of the clergy, headed by the Bishop of Kensington, to certain theatrical performances. Bernard Shaw wrote a characteristic letter to the Times the other day, scolding the Bishop of Kensington, begging the question as to what is fit or unfit for the theatre, and constituting himself the judge of that question. Dr. Ingram referred to Shaw's letter in his morning sermon. He said:—"This man of the world contends that no absolute standard of purity exists, and that there is no such thing as positive morality. If that is so we are going back to a standard not only below that of Plato and Aristotle, but below that of many savage tribes. If the Church sat down under such a standard it would be disowning all its traditions. It would be better for it to abandon the title of Church of Christ. Thank God, the Christian folk of London are in a majority, and the question we have made up our minds to ask is, Are we going to be masters in our own house?" The Bishop of Kensington, speaking in his church, complained that whenever he tried to fight impurity he found he was up against the dead wall of men's apathy, as there is a double standard of morality in England, a very high one for women and a low one for men. Parodying Longfellow's "Psalm of Life," he asked if it was always going to be true that "In the world's great field of battle, In the bivouac of life, You will find the Christian soldier Represented by his wife."

HOW TO HELP.

Said Peter Paul Augustus:

"When I am grown a man
I'll help my dearest mother
The very best I can.

I'll wait upon her kindly;

She'll lean upon my arm;

I'll lead her very gently,

And keep her safe from harm.

But when I come to think of it,

The time will be so long,"

Said Peter Paul Augustus,

"Before, I'm tall and strong.

I think it would be wiser

To be her pride and joy

By helping her my very best

While I'm a little boy."

CANADIAN HOWLERS.

Our Boys and Girls Can Muddle Their Answers on Occasion.

Canada's great wheat crop this year is almost rivalled by the wonderful crop of amusing answers in the

examination papers which the examiners have been going over during the past few weeks.

Canadian pupils seem to need considerable coaching on history, according to some of the tales told by the examiners. Here are a few of the answers to queries in the History paper:

"The Boers tried to take Canada, but were defeated by a famous British general, John Bull."

"The Jesuits were so strict that a number of young men took to the woods and married Indians."

"Gen. Braddock had five horses shot

THIS WASHER MUST PAY FOR ITSELF.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse, but I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right," but pay me first, and I'll give you back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse wasn't "all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse, although I wanted it badly. Now, this set me thinking.

You see I make Washing Machines—the "1900 Gravity" Washer.

And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it. But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in Six Minutes. I know no other machine ever invented can do that, without wearing the clothes. Our "1900 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it don't wear the clothes, fray the edges, nor break buttons, the way all other machines do.

It just drives soapy water clear through the fibres of the clothes like a force pump might.

So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight too. Surely that is fair enough, isn't it?

Doesn't it prove that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save its whole cost in a few months in wear and tear on the clothes alone. And then it will save 50 to 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 60 cents a week, send me 50 cents a week 'till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Drop me a line to-day, and let me send you a book about the "1900 Gravity" Washer that washes clothes in six minutes.

Address me personally, B. Q. Morris, Mgr., "1900" Washer Co., 357 Yonge St., Toronto, Ont.
