One part of an elevator boy's duty is to answer questions, but not even an head against the marble steps of the elevator boy can be expected to know Capitol. He would step back a few feet everything. A guest at one of the big hotels, while going down the elevator. remarked to the colored elevator man. "I want to go to the wharf where the tea was thrown overboard," "Well," said the man, looking mystified, "you'd better inquire at the office. I reckon that was before I came here. I've only been in Boston about a year,"

and with that hot drop the long, unnatural spell seemed to be broken. Quickly bowing his head upon his hand the old man wept, shaking from head to foot with the great sobs, and soon there was not a dry eye in the room. Men rubbed away surreptitious tears, looking out of the windows, or walked hastily out of the house; women sobbed aloud, and we children wept wildly out of sympathy, clinging to our mother's skirts. After that things seemed a little easier to bear, and even Yorkie said he felt better.

In a very short time the Carmichaels went away again, but not before Mrs. Carmichael had given the forlorn old man a pressing invitation to go and stay with her and her husband for a month or two as soon as the funeral should be over.

value of the varied topics discussed The roll-call showed over one hundred delegates on hand.

After the formalities of welcoming the delegates, by Prof. Hayes, Assistant Secretary of Agriculture, who touched on his favorite theme of agricultural education being extended to the rural schools, and who took the place of Secretary Wilson, who was out of the city, and the reply by President G. C. Creelman, of the Agricultural College, Guelph, Ontario, the Convention got down to business.

President Burnett, of Nebraska, outlined concisely and clearly the objects and aims of the Farmers' Institute system. He emphasized the fact that the older methods and objects had not grown any less important, but the work was progressive, and the future Institutes would be successful as they adopted and utilized, to the best advantage, the agricultural extension work The burden of his address, as well as kindly," said Yorkie, "It'll be a lone- those of many others of the delegates, was that the Institute must help the On the way home that night I walked men with whom it comes in contact, by with old Chris, my father and mother assisting them to adopt those methods He was strangely which would increase the productivesilent all the way, and I kept looking up ness of the farm and make farm life both at the stars studded thickly over the pleasant and profitable.
