

THE NEW DE LAVAL

A Bigger and Better Cream Separator

THE Farmer who buys a De Laval this year will get a bigger and better cream separator than ever before. Not only will he get a better machine, a simpler machine, a machine that will skim even closer than any previous De Laval, but he will get a machine of larger capacity.

The NEW De Laval is the culmination of nearly forty years of experience and development by the largest and oldest cream separator concern in the world.

IMPORTANT FEATURES OF THE NEW DE LAVAL

Greater Capacity

Without increasing the size or weight of the new bowl, its capacity has been increased.

Self-Centering Bowl

The bowl is loosely supported upon the spindle and will run true and do perfect work even after long wear.

Skims Closer

The improved bowl design, together with the patented milk distributor, gives greater skimming efficiency.

Every New De Laval is now equipped with a Bell Speed-Indicator, the "Warning-Signal" which insures speed and uniform cream.

Discs Interchangeable

All discs are exactly alike, are unnumbered, and are interchangeable.

Fewer Discs

There are fewer discs in the new bowl, although the capacity is greater.

Easier to Wash

Simpler bowl construction and fewer discs, caulked only on the upper side, make the bowl easier to wash.

Easier to Turn

The low speed of the De Laval bowl, large capacity for the size and weight of the bowl, automatic oiling and high grade workmanship, make the De Laval the easiest cream separator to turn.

The DeLaval Co. Limited

LARGEST MANUFACTURERS OF DAIRY SUPPLIES IN CANADA

Sole distributors in Canada of the famous De Laval Cream Separators and Alpha Gas Engines. Manufacturers of Ideal Green Feed Silos. Catalogues of any of our lines mailed upon request.
