Winnipeg Live Stock

Figures are not available on the run of stock for last week, the returns not having been completed at the yard office. Re-ceipts up to Thursday totaled 5877 cattle, 1420 hogs and 352 sheep. The total for the week was hardly up to the previous

Cattle

Prices for cattle arriving during the week were lower than the previous week but this was due to a decline in quality rather than to a lessening of demand, the best of the arrivals being lower in quality. Animals of good quality would sell up to previous quotations.

Foreign cables are lower and this has put prices for export cattle-down a full twenty-five cents per cwt. One dealer states that the export market is in the worst shape it has been this year. It takes a mighty good export animal, he says, to catch above five cents per pound on this. says, to on this.

Hogs

licavy culves ...

Packers were after the hog market again last week and, the run being large, they knocked off another quarter per cut, the bulk now selling at the \$8.00 figure. The bulk of the arrivals are not high quality porkers and it is probable that good ones could be sold at twenty-five cents above this figure.

Country Produce

Butter

So strong the demand and so short the supply of real good dairy butter that wholesalers are offering three cents above last week's quotations for fancy dairy butter. And at that they are getting so little that they are in despair. Western makers have nearly stopped shipping and the dairy that can be getten in the East is of very poor quality. One dealer

Eggs

The egg market remains at the same level as the previous three weeks with everybody after the strictly new laid article and nobody getting anywhere near enough to supply the demands upon them. Car after car of eggs are coming in from Ontario, but these are necessarily of the "fresh" class while it is "new laid" that are especially wanted. Dealers are offering 35 cents per dozen, fo.b., Winnipeg for new laid stock and four to five cents less for fresh. It It stock sells at about \$\frac{1}{2}\$ or \$\pi \$\$ cents per dozen, dozen with the about #4 or #5 cents per dozen with the shrinkage out.

Potatoes

Prices offered for putatoes are a cent per hushel above had week dealers now offering 36 cents per hushel, f.o.b., Winni-peg, sarks supplied by purchaser. The weather has been against heavy shipments and the demand for good stock is strong. Most of the shipments show good quality.
