KAISER REGARDS VISIT AS PRESENT BISHOP PLEDGE OF FUTURE PEACE

Gala Banquet Given in NEW BRUNSWICK Honor of British Sovereigns

Emperor in Happy Speech (, Accords Them a Hearty Welcome

King Says Visit Aims at Strengthening Friendship Between Nations

Concludes by Wishing Na tion Prosperity—Spectacle Brilliant

RERLIN. Feb. 9 .- King Edward and Queen Alexandra received a hearty welcome from the Emperor and the German people today. The principal nterest of the first day of the visit of the British monarchs centered in the speeches of the Emperor and the King when proposing healths during the course of the gala banquet at the Imperial Palace this evening. The utterances of both were of the most cordial nature, each emphasizing the peaceful sentiments and the close relationship of the two countries.

The Emperor, speaking in German first offered a toast to the King and Queen. After expressing the sincere pleasure and satisfaction of the Empress and himself and his whole house, which the visit afforded them and extending a most cordial welcome to the British sovereigns, the Emperor referclose ties of relationship. He hoped that their stay, which unfortunately would be brief, would leave only pleasant recollections

Your majesty may be assured with me," said the Emperor, "that my capital and the whole German empire see in your presence a token of the friendly feelings and sentiments which iniced your majesties to pay this visit The German people greet the ruler of the mighty British world empire with the respect due him and perceives in this visit a new pledge of future peaceful and friendly development in the re-

WILL BRING ABOUT WISHES. "I know how much our wishes for the preservation and the strengthening of peace are in accord, and can offer no better welcome than an expression of the firm conviction that your majesty's visit will contribute to the realization of these, our wishes. In giving voice to the hope that the vast empire over which your majesty rules may continue to prosper and flourish, \I pledge this glass to the health of your

majesty and the Queen. King Edward replied in German. first expressing thanks on behalf of come accorded them in Berlin. He mentioned pleasant recollections of previous visits to Kiel, Wilhelmshoe nd Cronberg. Then, after reference to the emperor's visit to Windsor, he

continued: 'With regard to the aim and desired result of my visit, your majesty has given eloquent expression to my own elings and I can therefore only repeat that our coming is for the purpose not only of recalling before the vorld the close ties of relationship between our two houses but also aims at strengthening the friendly relations between our countries and thus at the preservation of general peace, towards which all my efforts are directed."

WISHES EMPIRE PROSPERITY. The King concluded with warmly expressed wishes for the prosperity of the German empire and proposed the health of the emperor and em-

The dinner was a brilliant spectacle. King Edward sat between the emperor and the empress, with Queen Alexandra at the emperor's left. All the imperial princes were present. Prince Von Buelow, the imperial chancellor, were seated opposite their majesties. surrounded by the British suite and the German ministers. The table was strewn with red, white and blue flow ers and the dinner service was of gold. The emperor wore the uniform of the British Royal Dragoons while the King was attired as a Prussian general. The Empress appeared in white and the Queen in black. Their majesties and the princes congersed in German with throughout unanimity the repast. The Foot Guards' Band

played selections of German and Eng-After the dinner their majesties held a reception and the Emperor bestowed decorations on the members of the King's suite and the British embassy. The King received an ovation this afternoon as he proceeded through the principal streets of the city in an auto-

DEATHS.

WILLIAM CROWE. The death took place at 668 Main street, yesterday morning, of William Crowe, after a short illness of congestion of the lungs. Mr. Crowe was very well known in this city. He was born in London 81 years ago, and came to St. John in 1853, working as a sawmaker with the Lawton Saw Factory, for 40 years, and then going into business for himself. Mr. Crowe leaves one son, William, and one daughter, Mag-

gie, both of this city.

AS A FIELD FOR APPLE GROWING

More Suitable Land Here Than in N. S.

SELLING ADVANTAGES

Soil and Climate Combine to Produce Fruit of Fine

Quality

FREDERICTON, N. B., Feb. Sir-Few people in the province of New Brunswick are aware of the possibilities of that place for fruit growing. The fact that the majority do not s costing this province a great deal of money annually. If the majority could have attended the recent meeting of the fruit growers in annual convention at Fredericton they would have seen an exhibit of New Brunswick fruit that would have surprised them. Moreover, they would have been proud to know that such fruit could be grown in this province

The object of this letter is to endeavor to show in a few words something of what should be done in New Brunswick. In the first place every town of any size-Fredericton. Woodstock, Chatham and others, is importing principally from Ontario carloads of apples for the local market and each of these towns sends from \$3,000 to

\$10,000 out of the country. St. John

tself uses thousands of dollars' worth of Nova Scotia and Ontario fruit. I am quoting facts when I say that there is double the area of land in the St. John River valley and its tributaries that can be utilized for commercial apple growing than there is in the whole of Novd Scotia. Westmorland, Albert, Kings and Charlotte countles also have large areas of well adapted We have the land. Experts from Upper Canada attending our exhibitions and fruit fairs proclaim loudly that they never saw the equal in qual-

ior keeping qualities, of our fruit. We have the goods. There are enough commercial orchards throughout this area that I have referred to, to convince any man the favor of any other power, and who knows what an apple tree should they agree that they will endeavor to look like, that New Brunswick can associate their people in commercia grow thrifty, healthy, profitable bear- enterprises launched in Morocco. There

ing trees. Lastly and not least important, a tions preceding this agreement have harrel of apples from the St John River valley can be put in cold storage | 1907, when the initiative was taken by at St. John or aboard a winter port | Germany. The unfortunate Casablanca steamer cheaper than it can from any incident stopped the pourparlors for fruit district in Canada. We can deliver the goods.

The difference in humidity in the St. John River valley makes a difference anxious to participate in the agreein the varieties of apples grown there. ments assuring European peace that Queens and Kings counties and part of Sunbury, grow good Spy, King, Baldwins etc. Sunbury and Carleton and remained a stranger. being drier in air, there varieties winter kill, more or less, but there we grow Fameuse, McIntosh Red, Bishop ersburg and Madrid and she is con-Pippin, Golden Russett and many others to perfection. Moreover, these varieties bring the very highest prices in British and local markets. It needs but a glance at British Columbia, Oregon and Ontario, to convince us that fruit growing, as carried on by andi-

viduals or companies, is paying big

dividends.

I will not attempt, Mr. Editor, to go into the cost of production, except to ers to consider the improvement of say that labor is cheaper here and Franco-Germany relations as one of more plentiful, being near an immigration port, than other fruit districts of Canada. All we want is enterprise. Large farms well adapted for fruit growing can be bought reasonably. But just a word of caution. On account of the cold climate, a deal of experience is required in the orchardist. The orchardist must know the limitations of tree growth, besides being expert in all the other branches of fruit growing. The possibilities are great. but there are in many parts great restrictions and hap-hazard methods will

S. B. HATHEWAY. Secretary N. B. Fruit Growers'Ass'n.

NATHAN CLEVELAND. The death occurred at the family residence, 839 Jervis street, Monday at 10 o'clock of Mr. Nathan Cleveland, at the age of 77. The deceased was a native of Alma, in the Province of New Brunswick and had been for many years a resident of this city. Though he had retired from active work during the past few years, he was known by his friends as a man of active habits and vigorous constitution and inheritance from the U. E. Loyalist stock from which he descended. On the 27th of December last, Mr. and Mrs. Cleveland marked the fifty-third anniversary of their marriage. An effection of the heart which had given him some trouble during the last few months, was the cause of his death. Beside a sorrowing widow, he leaves four sons and two daughter, of whom three reside in this city namely Miss E. E. Cleveland, Mrs. C. M. Rolston and Mr. Ernest A. Cleveland .- Vancou-

TOTAL CATCH

Was Met by a Brass Band Increase in New Brunswick Amounts to \$395,339

> OTTAWA, Ont., Feb. 9.-The annual report of the fisheries branch of the arine and fisheries department, presented to parliament today by Hon, L. P. Brodeur, is as usual a comprehen ive review of the work of that important section of the public service for the fiscal year 1907-8. It includes a review of the fishing bounty system as well as condensed summaries of the fishery commissions in British Columbia, Western Ontario and the Bay of Fundy, and two special reports by Prof. E. E. Prince, which are of intense interest to all engaged in the in-

The fisheries bounty amounted to \$156,114, divided among the owners of 927 fishing vessels and 20,520 boat fishermen. The total catch of all kinds of fish is estimated at twenty-five mil lion and a half dollars, the figures by provinces being: Nova Scotia, \$7,632. 330, a decrease of \$166,830; British Columbia, \$6,122,823, a decrease of \$880,-424; New Brunswick, \$5,200,564, an increase of \$395,339; Qebec, \$2,047,390, a decrease of \$127,645; Ontario, \$1,935,-025, an increase of \$200,169; Prince Edward Island, \$1,492,695, an increase of

Salmon again heads the list of fish followed by lobsters, cod and herring The fish exports to foreign countries chiefly to Great Britain and the United

During the fishing season of 1907 over 71,000 men were engaged in the fisheries of Canada, including the thousands of persons employed in the lobster canning industry. These fishermen used nearly seven million fathoms of gill-nets and seines, besides other fishing gear and fixtures, representing an aggregate capital of nearly fifteen million dollars. This is about a quarter of a million dollars over the total outlay of the previous season by

a smaller number of fishermen. The lobster plant alone is valued at over one million and a half, comprising all the equipment of nearly seven canneries dispersed on the seacoast of the Maritime Provinces, as follows: Nova Scotia, 217; Brunswick and Prince Edward Island

184 each, and Quebec. 100. The divided jurisdiction between the for the following important reference: "Substantial progress has marked the exploitation of the fisheries of Canada and they continue to be a source of considerable gain to a hardy and industrious section of our population. It can never be denied that the protection and development of the great resources of the waters of the Dominion would be facilitated were the present vidided authority and overlapping administration federal and provincial merged in one cental system.

"Were the fisheries of the Dominon administration under one authority with one ample and effective staff of officials, still more were a system of common fishery laws enforced on both sides of the international boundary the heneficial results to all concerned would be rapidly apparent."

man, excited by love and pity to the highest degree, to the calm, deliberate act of the physician in the same case. The physician can calm the last sufferings of his patient, but he cannot kill the patient. Certainly the husband has killed his wife, but the lawyer who defends him has a good case. It was forty directors of the association. Fol- an act of passion, and the jurors who are men themselves are likely to understand such an act."
