

### MANY PEOPLE WANT TO RETURN ON SUBMARINE

As High as \$50,000 for Passage Money Offered, is Statement.

### SCRAP IRON PART OF CARGO

Some Indications That the Bremen Expected Shortly.

By Special Wire to the Courier. Baltimore, July 13.—The North German-Lloyd has received from persons in all parts of the country offers running as high as \$50,000 for the privilege of taking passage on the submarine Deutschland on her return trip.

"We have had letters from some persons," said a representative of the company to-day, "who said that they would pay any price we wanted. There was one \$50,000 offer, several of \$10,000 and virtually scores running from \$1,000 to \$5,000. These we have had to refuse. Nearly all of them came from Americans. There are, of course, thousands of Germans in this country who would like to get back to their native land, but no passengers will be carried. The unloading of the Deutschland was being hastened yesterday and may have been completed last night. Included in the cargo entered at the customs house is a quantity of scrap iron, which it was necessary to bring as ballast. The space thus occupied will be replaced with nickel on the return voyage.

The fact that the tug Thomas F. Timmins went into drydock to-day for repairs gave rise to rumors that she was getting ready to return to the Virginia Capes en route into the Chesapeake as she did the Deutschland, the submarine Bremen, which is reported on her way. If the local agents have any right to believe that the Bremen is expected, they are keeping the secret closely guarded. It was thought on the other hand that the tug's first duty would be to escort the Deutschland back to the Capes. It was intimated to-day at the North German Lloyd offices that the Deutschland might drop anchor several days at Norfolk and wait for the most favorable opportunity to slip by enemy cruisers which may be making for her.

### BRAKESMAN INJURED AT CAMP BORDEN

Was Crushed Below Timber from a Car on July 13.—A serious accident occurred here last night when Brakesman Cooper, of the G.T.R. extra No. 1011, from Allandale, was pinned to the floor of a flat car under a considerable part of a load of lumber which was upset when the car was bumped by the engine and other cars. The car was being put on the siding, and Cooper jumped for the brakes when the other cars struck it, with the result that the lumber was thrown over and pinned down. The car was being put on the siding, and Cooper jumped for the brakes when the other cars struck it, with the result that the lumber was thrown over and pinned down. The car was being put on the siding, and Cooper jumped for the brakes when the other cars struck it, with the result that the lumber was thrown over and pinned down.

Albanian military companies are drilling throughout New England to preserve their country when it obtains its independence.

### To Make Personal Efforts to Get Relief to Poland

By Special Wire to the Courier. Conditions in That Country, Says President Wilson, Are Tragical. Washington, July 13.—President Wilson to-day told a large delegation of representatives of Polish organizations that he would make personal efforts to get relief to the starving in Poland. It is understood he is considering a personal appeal to the rulers of the nations involved to allow distribution of food. The State Department already has made one such appeal to the governments. The president characterized conditions in Poland as tragical and described the negotiations for the sending of food as being "against a stone wall."

The committee told the president that what is now needed is permission from Great Britain to allow ships carrying food to pass the British blockade and assurances from Germany that the food sent from the United States will not be used for military purposes.

### TWO GIRLS DROWNED WHILE NEAR WHITBY

One Went to Rescue of the Other and Both Became Exhausted. Whitby, July 13.—A double drowning accident that has cast the town into gloom occurred yesterday afternoon at Storey's Point on the lake shore near here. Two young girls, Evelyn Elvidge, aged about 16, the daughter of Public School Principal and Mrs. W. L. Elvidge, and Clara Nevin, of Windsor, a granddaughter of Mrs. Bath, of Whitby, with whom she was visiting, were the victims. The accident occurred during a picnic held by a Sunday school class. The girls were all in swimming, and Miss Nevin, who was a good swimmer, was out further than the others. She evidently took a cramp and became nervous, for she called for assistance which was at once proffered by Evelyn Elvidge, though herself not a very good swimmer. They were only about ten feet from shore when both went down. Their comrades being unable to swim, could not go to their help, and none was obtainable nearer than the hospital for the insane, some distance away. When Dr. Mitchell of the hospital arrived, and was able to bring the bodies ashore, he found life extinct, though he used every means of resuscitation. Miss Nevin was several years older than Miss Elvidge. Both were well known in Whitby.

### THREE PATROL BOATS SUNK BY AUSTRINIANS

London, July 13.—The British version of the naval encounter in the Southern Adriatic which the Austrians admitted in a statement issued yesterday declared had resulted in the sinking of four or five British patrol boats by the Austrian cruiser Novara, was given out yesterday in the following official statement: "Information received from the British Admiral in the Adriatic is that on July 9 the Austrian cruiser Novara, accompanied by a group of his Majesty's patrol boats on duty. The Astrum, Spei and Clavis were sunk and the frigates Bird and Benbus damaged, but were able to return to their port. The crew of the Astrum and Spei were taken prisoner and among the remainder of the boats there were ten killed and eight wounded. The statement quotes the official Austrian admiral report in which it declares "this incident was grossly exaggerated."

### How HOLLANDERS Catch You at a FIRE

The modern fire net may have some advantages over this older contrivance, but the Dutchmen are notably expert in its use. You will observe that they hold the loops attached to the canvas in the crook of one arm, and make it more secure by folding the arms. The 25 men in the rescue squad, therefore, in an imaginative fashion, receive the jumper in their arms.

Our picture is from a photograph taken during one of the rescue drills. The man has just landed in the device, which has sagged at this particular moment under his weight, but will hurl him slightly upward on the rebound, just as in the case of a circus performer whom you have observed dropping into a net and being tossed up by his feet again—providing he got his equilibrium on the rebound.

### MEN ON LEAVE FROM CAMP

General Logie and His Staff Endeavor to Alleviate Discomforts Which Prevail.

### EFFORTS APPRECIATED

Furlough for Men Wishing to Engage in Harvest Operations.

Camp Borden, July 13.—Week-end leave for one-third of the troops in the Southern Ontario camp, which is the greatest number the railways are in a position to handle, has been granted to-day. The leave will be for a period of three days, not including the time spent in traveling, if the men come from a distance. The last night 2,000 men of the London battalions got away, the distance they will have to go being the reason for their early departure. With the granting of leave and the active endeavor made by Gen. Logie and his staff to alleviate the discomforts of the men, the general feeling among the troops to accept the conditions as they are. In spite of yesterday's extreme heat there was less discomfort than in the past few days, no parade taking place after noon and with watering carts busy all on the roads. The men were less discontented than in the past few days, no parade taking place after noon and with watering carts busy all on the roads. The men were less discontented than in the past few days, no parade taking place after noon and with watering carts busy all on the roads.

### FIFTEEN ENEMY BATTLESHIPS ARE BEING REPAIRED

Tremendous Punishment Inflicted on Germany's Fleet at Jutland.

Rotterdam, July 13.—From reliable sources information has been received proving that tremendous punishment was inflicted upon the German fleet in the naval battle off Jutland. The following 15 warships are repairing in various shipyards: The dreadnaughts Koenig, Grosser Kururst, Markgraf, Kaiserin, Kaiser. The older battleships Rheinland, Hessen, and the battle cruisers Seydlitz, Moltke, Derfflinger, Von Der Tann, Stettin, Kohn and Frankfurt. It is also stated that the Stuttgart and Muenchen are repairing, but no confirmation of this can be obtained. Every one of these vessels was more or less battered. It will be months before most, if any, of them will be ready to seek another such "victory."

THE CHANNEL TUNNEL London, July 13.—The old project of building a tunnel under the English Channel to connect England with the continent, has again been revived. Plans are on foot for a meeting of a large number of members of Parliament to consider how far the scheme can be furthered at present, with a view to putting it into execution at the end of the war. The decision of the Allies' Trade Conference to establish rapid land and sea transport services at low cost is said to have a direct bearing on the revival of the matter. Miss Dora-Keen of Philadelphia, noted explorer, has been married in Alaska to George William Handy, of McCarthy, Alaska.

### WOMEN TO LIVE IN MOVIE HOUSES OR SCHOOL ROOMS

One Way British Authorities Will Try to Solve the Housing Problem.

### SMALL COTTAGES ARE SCARCE

Labor so Hard to Obtain None of These Can be Built.

London, July 13.—(Correspondence of The Associated Press)—School rooms or moving picture palaces may be taken over by the Government as temporary living quarters for women and girls employed either in the munition factories or in other large cities. It will be one way of solving one of the questions forced into prominence by the war, namely, the housing of thousands of women workers. To this end women of the upper and middle class whose age prevents them from entering munition factories or taking service on the farm are urged to assist the Government in improvising a comprehensive scheme. Scarcity of labor has stopped building and the small cottages in or near the big centers of population are in unusual demand. The sudden increase in the number of munition workers has involved great migrations of labor. If there is a scarcity, amounting almost to a famine of small houses, in a good many cases, though not in all, large houses can be obtained. The die class families to migrate from the large house to the small one or flat. Many large houses are empty but no plan to occupy them economically or in keeping with their incomes. An appeal was recently made to landlords to allow the temporary occupation of such dwellings, to be conducted as hotels or shared out among women.

At a few women's hotels these women obtain comfort and excellent meals at an exceedingly modest price. Such a result is possible only by combination and co-operation, because alone in a rooming house women could not live so cheaply. Where there is an absence of houses the Government is considering using moving picture houses or school-rooms.

### Will Keep Time of Departure a Dark Secret

No Information to be Given by U. S. as to When Sub. Leaves. Washington, July 13.—If the news of the departure of the German under water liner Deutschland can be regarded as military information of value to Germany's enemies, the United States in the interest of neutrality, will take steps to prevent such information reaching them. State Department officials admitted to-day they were considering the question of how to protect the government's neutrality in the matter. The official report of the naval and customs officers who inspected the submarine and reported she was an unarmed merchant ship probably will be made public by the State Department to-morrow. It already has been established to the satisfaction of the government that the Deutschland's crew is purely a merchant one.

# O. Henry Stories

## III.—The Enchanted Profile

By O. HENRY

(Copyright by Doubleday, Page & Co.)

HERE are few calligraphers. Women are Scherazades by birth, predilection, instinct and arrangement of the vocal chords. The thousand and one stories are being told every day by hundreds of thousands of visiers' daughters to their respective sultans. But the howling will get some of 'em yet if they don't watch out.

I heard a story, though, of one lady calligrapher. It isn't precisely an "Arabian Nights" story, because it brings in Cinderella, who furnished her disarray in another epoch and country. So if you don't mind the mixed dates (which seem to give it an eastern flavor, after all) we'll get along.

In New York there is an old, old hotel. You have seen wood cuts of it in the magazines. It was built—let's see—let's see—a time when there was nothing above Fourteenth street except the old Indian trail to Boston and Ham-merstein's office. Soon the old hotel-see-off a time when there was nothing above Fourteenth street except the old Indian trail to Boston and Ham-merstein's office. Soon the old hotel-see-off a time when there was nothing above Fourteenth street except the old Indian trail to Boston and Ham-merstein's office.

At this hotel a holdover stopped Mrs. Maggie Brown. Mrs. Brown was a bony woman of sixty, dressed in the rustiest black, and carrying a handbag, apparently, from the time she was a small girl. She always occupied a single room and bedroom at the top of the hotel at a rental of \$2 per day. And always, while she was there, she was a holdover. She always occupied a single room and bedroom at the top of the hotel at a rental of \$2 per day. And always, while she was there, she was a holdover.

The stenographer and typewriter-see-off a time when there was nothing above Fourteenth street except the old Indian trail to Boston and Ham-merstein's office. Soon the old hotel-see-off a time when there was nothing above Fourteenth street except the old Indian trail to Boston and Ham-merstein's office.

One day I walked past Mrs. Maggie Brown's room. She was sitting at her typewriter, and she was looking at me. She was looking at me. She was looking at me. She was looking at me. She was looking at me.

"Well, man, how are the stories going?"

"Pretty regularly," said I. "I'm equal to their going."

"I'm sorry," said she. "Good"
