It just strikes us that if the repairs and renewals recently made in the A. H.S. building had included the truing and fixing of the compass letters under the weather vane new students would be sooner able to get their bearings in this big town. The letters continue to indicate that the cardinal points are any old direction.

The advertisement of Mr. G. L. Riches, proprietor of the Island City Music Store, Brockville, appears in this issue of the Reporter. Mr. Riches has built up a large business in the county town and takes this means of making known the special advantages he is in a position to offer all who wish to purchase a piano, organ or, in short, any musical instrument or musical goods.

Rev. Frank Cornell, of Newmarket, Ont., came east a few days ago for the purpose of delivering missionary addresses in connection with the work of the Society of Friends, and since Saturday has been renewing old acquaintances in Athens. On Sunday he conducted the morning and evening services in the Methodist church, and large congregations heard with pleasure his able and truly eloquent discourses. To-day he leaves for Oxford Mills for a visit with his brother.

Mr. John Rappell returned home last week from his trip to Humboldt, Iowa, his father remaining for a longer stay. His excursions there included a trip to Des Moines and points in South Dakota. Returning he spent a week in Chicago, where he met Mr. and Mrs. G. W. LeGarde and other Canadian friends. Many years have elapsed since Mr. Rappell was last in Iowa and he found that a wonderful development had taken place. Land that sold at \$7 per acre then is now valued at \$100. Dr. D. G. Peat and Mr. S. H. McBratney left Athens this week on the harvesters' excursion to Manitoba, with Brandon as their objective point. They didn't take their snow shoes with them but they'll pretty nearly need them if there should be a continuation of the kind of weather that has been served up lately in the Golden West. During the blizzard that swept western Manitoba on Saturday last from 3 to 10 inches of snow fell and what little grain remained uncut was utterly destroyed.

The Reporter is requested to state that a notice which recently appeared in this paper respecting a disclosure made by the Babcock test does not apply to any patron of the Athens factory. About seventy patrons send their milk to this factory and the recent inspection and test was highly satisfactory to all concerned. We are pleased to add that within the last few days we have received assurances leading to the belief that nothing of a culpable nature occurred in the case to which the paragraph referred. Of course, we did not give it as an item of news for this district, for news of that kind travels much faster than a newspaper, but because we think that whenever the Babcock test demonstrates its usefulness as a detector of unfair milk so that the fact should be made widely known, so that all factory patrons may learn to regard it as being in very truth a terror to evil doers and a praise to those who do well.

Up-to-date millinery at Miss Falkner's.

Mr. W. A. Stratton, Frankville, has his store lighted with the Aner incandescent light.

Millinery Opening all this week. A cordial invitation is extended to all.—Miss Falkner.

Strength and vigor come of good food, duly digested. "Force," a ready-to-serve wheat and barley food, adds no burden, but sustains, nourishes, invigorates.

If variety is truly the spice of life, then the farmers are having a very highly-flavored time these days, as haying, harvesting, potato-digging, plowing and fall seeding are all on at once.

Frankville Fair comes next on the list of local events—Sept. 24 and 25. President Dowley expects the greatest show that Kitley ever presented, and there should and no doubt will be a great attendance.

Mr. Geo. C. Smith, representative in the Niagara Peninsula of the Brantford Windmill Co., called on old friends in Athens last week. To the Reporter he said that the foreign and domestic trade of the firm was increasing at such a rate as would soon necessitate a great enlargement of the factory.

The McCormick Harvesting Machinery Co. purpose shortly to establish a factory at Hamilton, Ont., to supply the Canadian trade. While in Chicago last week, Mr. John A. Rappell, who is the Athens agent for the sale of McCormick machinery, visited the company's immense works in that city and was more than surprised at the speed and accuracy evident in every department. Mr. Rappell sold several of their machines this year and the satisfaction expressed by purchasers leads him to think that the use of these excellent machines is bound to increase in this section.

Sleeplessness

You can't sleep in the calmest and stillest night, if your stomach is weak, circulation poor, and digestion bad.

Hood's Sarsaparilla strengthens the stomach, improves the circulation, perfects digestion, and brings about that condition in which sleep is regular and refreshing.

It does not do this in a day, but it does it—has done it in thousands of cases.

In Gananoque, town taxes are payable in two instalments, one half on or before Sept. 15, and the balance on Nov. 30. If the first half is paid on or before Sept. 15, a rebate of one per cent is allowed. If all is paid by that date two per cent is deducted. No discount or rebate is allowed after Sept. 15. After Dec. 15 an addition of 2 per cent is made to all unpaid tax bills, and another two per cent is added after Jan. 1. How would this system work in Athens?

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"I suffered dreadfully from rheumatism, but have been completely cured by Hood's Sarsaparilla, for which I am deeply grateful." MISS FRANCES SMITH, Prescott, Ont.

"I had an attack of the grip which left me weak and helpless and suffering from rheumatism. I began taking Hood's Sarsaparilla and this medicine has entirely cured me. I have no hesitation in saying it saved my life." M. J. McDONALD, Trenton, Ont.
