

## THE ACADIAN.

WOLFVILLE, N. S., OCT. 6, 1894.

## The Dominion Atlantic Railway.

The arrangement by which the Windsor & Annapolis Railway Company and the Yarmouth & Annapolis Railway Company (formerly the Western Counties) became amalgamated went into effect Monday morning. These roads, now united, will in future be known as the Dominion Atlantic. The control, however, remains with the former Windsor and Annapolis management. There is now a through line under the same management from Yarmouth to Halifax. Our railway has made great strides during the past four or five years, and the present arrangement will add very much to the efficiency of the road. The management have the hearty good-will and commendation of all in the endeavor to make the "Land of Evangeline route" the most popular highway of fast travel to and from the Maritime Provinces. The varied attractions of the route, the magnificent rolling stock, and its quick, close connection, easily secure it first place in the estimation of the public. The ACADIAN wishes the Company under its new name a brilliant and pronounced success.

## Recollections of the Exhibition.

The opening of the provincial exhibition at Halifax took place on Tuesday afternoon, the address being delivered by Hon. Gov. Daly. Mayor Keefe acted as chairman.

The attendance on both the first and second days was small, but on Thursday fully twenty thousand people paid the price of admission. The exhibit of fruit was excellent, especially the earlier varieties of apples. The Gravensteins were the finest we have ever seen. The first exhibit on the left of the entrance was that of the Nova Scotia Fruit Growers' Association, which was in charge of President J. W. Bigelow and Secretary Parker, who were assisted by Mrs. A. Johnson, of this town. This exhibit was one of the finest in the building and contained some splendid specimens of the different varieties of apples grown in the Valley. Notable among the exhibits in the southern half of the main building were two collections of apples from Kings County, one of which consisted of over 120 varieties.

In the educational department Acadia Seminary showed fine mechanical drawings. The Manual Training School also showed some fine specimens of the work of the students, including various kinds of blacksmith and forge work, also a handsome yacht, made by Mr. Andrew Cook, of this town.

In the Natural History department some excellent specimens of gold quartz were shown, also a handsome bar of gold, worth over \$2,000. The exhibit included the product of Torquay, Montague, and other mines.

The show of cattle was very poor, in comparison with previous exhibitions, owing somewhat to the dryness of the season, and the poor pastures consequent.

The exhibit of sheep was fair, including Shropshires, Co. Swolds, Cheviots, and a pen of Merinos, which attracted considerable attention.

The show of horses was small, but some very good ones were shown; the first prize for standard bred horses was taken by "Israel," owned by A. C. Bell, of New Glasgow. "Harlequin," also owned by Mr. Bell, carried off first prize for trotting stallions. Some good draft horses were shown. The show of carriage horses was good.

The free lunch counter, provided by the various household merchants of Halifax, for the benefit of the visiting merchants, was too well patronized. To obtain a lunch it was necessary to have a ticket from one of Halifax merchants. A number of enterprising merchants from various parts of the province, who were of a hungry temperament, went to a number of the merchants, and obtaining a ticket from each one, had two or three dozen lunches, according to their stowing-away capacity. "So cheap, eat all you can, and then fill your pockets, Tom," one old gent was heard to say to another.

Some very practical joker, who having a weakness for the tempting display of Gravensteins exhibited by the N. S. Fruit Growers' Association, procured a card, on which he labelled, "Please take one," and watching his chance placed it on top of the pile; nearly every one responded to the very kind invitation, and, as a result the pile was soon diminished.

On a whole the exhibition was much inferior to that of previous years, and was more of a huge advertising agency than an agricultural exhibition. The home scene and the other various outside attractions were well patronized. Halifax was literally swarming with people, of all sizes, from the six-month-old baby with a stick of candy in its hand, and manless and real estate on its face, to the grandfather of eighty years, piloted around by his oldest "son," and his emerald-broed admirer. The farmers had done their best to help out the coffers of the management, and were compelled to pay two prices to sleep eight in a bed or two tiers deep on the top of a billiard board, while some preferred to walk around till they were tired enough to go to sleep on their feet.

While thanking our many correspondents in various parts of the county for furnishing it with newsy letters, the ACADIAN would earnestly ask that they join in the work. We would like to see every town and village in the county represented.

## Town Council.

The monthly meeting of the council was held on Tuesday evening. Present: the Mayor and Councillors, Thomson, Davison, Sawyer, and G. W. Borden, and the Recorder.

Report of the Poor Com. was read. The following bills were read and ordered paid:

R. Prat	\$ .90
H. White and J. Christie	2.00
R. H. Bishop	7.80
Town Clerk	4.93
Valley Telephone Co.	5.00
Acadia Edison Electric Co.	60.15
W. J. Balcom	2.00
J. L. Franklin	1.37
A. E. Caldwell	25.00

A petition was read from Mr. Robert Palmer, of Grand Pre, with regard to his stray cattle that were impounded, asking that the council take the matter into consideration.

Resolved that Mr. Palmer be charged 25 cents for each head of cattle, as poundage, and 25 cents per day for the keep of each animal.

Mr. G. V. Rand asked permission to address the council re proposed new street to connect Main street with College avenue extension. He stated that he was giving the land for a street fifty feet wide and submitted a plan.

Resolved that Mr. Rand's offer be accepted, and he be asked to give such a title as the recorder may recommend.

Resolved that the superintendent of streets be instructed to prepare a place in the basement of the town building for storing the road machine.

Resolved that Mr. G. V. Rand be an arbitrator in the matter of the land known as the Foster property, taken by the town for a water course.

## Horton Landing Item.

There will be two weddings in our neighborhood in the near future.

Mr. Joseph Allison of St. John, accompanied by Mrs. Allison, Miss Gertrude and Master Willie Allison, spent a few days this week with his sister, Mrs. Thor. Harris, at Dundas Cottage. Mrs. Harris went back to St. John with them.

Rev. and Mrs. W. C. Brown, of Wilmet, visited Mr. C. F. Patterson on their return from the Exhibition at Halifax.

Miss Ella Chedoke, of Brantford, spent Sunday with Miss Patterson at "The Cottage."

There are thirty-five boarders at Acadia Villa school at present, and several more have engaged to come right soon. The prospects for a good school for the winter are most encouraging.

Mr. Patterson has just had a large pleasant-toned bell placed on his school building. It can be heard several miles.

Mrs. John Brown, of Wilmet, spent Sabbath with her sister, Mrs. Chas. Patterson. Monday evening Mr. Brown joined her and the following day they both started for Florida to spend the winter.

On Wednesday evening, Oct. 10th, according to posters placed around the neighbourhood, a "Gospel Supper" in the basement of their church. The proceeds will go for church purposes and we bespeak a liberal patronage. Judging from past experience a good feast and an enjoyable time may be expected.

Mr. F. Y. Curry has a schooner discharging soft coal at the wharf.

## Unfermented Wine.

Mr. E. Hulse not long since read a paper before the Victoria Vegetable Commission of Australia, regarding the use of unfermented grape juice, from which we make the following extract:

The grapes are picked when they are fully ripened and the juice extracted and bottled as soon as possible afterwards. The bottles are filled brimful and placed up to their necks in vats of hot water within ten degrees of the boiling point. When the must is as hot as the water, the cork is forced into the bottle, expelling a portion of the liquid. If the least portion of air is left between the cork and the liquid, the oxygen contained in the air will set the sugarine matter in the wine in motion and fermentation will ensue. When the cork is forced in to the bottle, the liquid is in a state of expansion from the heat. As it cools it contracts, leaving a vacuum between the cork and the liquid; but the vacuum must not be an atmospheric chamber. The cork must, of course, be thoroughly tight. If fermentation does set in, it may be driven off by reheating the wine. The bottles are then laid on their sides in a cool place and the organic foreign substances must be allowed to settle, so that the liquid may become clear. The settling may occupy whatever period the manufacturer chooses; sufficient time should, however, be given. The wine can lie six months or a year without damage. At the end of the settling period, it should again be filled into bottles, the sediment being left behind. These bottles must be brimful, and should again be set in vats of hot water, heated up to the same degree and corked in precisely the same manner as at first, using sealing wax to exclude the air. The wine is then left to cool in the ordinary way, and must be put away where the temperature is even and cool. It is now ready for use, and will keep just as long as it is kept free from contact with the atmosphere. This makes a very delightful beverage, which is entirely free from alcohol. —Canadian Horticulturist.

A very dangerous epidemic has broken out in the Icelandic settlement near Selkirk. Several have already succumbed and many more are ill. The epidemic in some cases is symptoms resembling cholera, but it is not thought to be anything so serious. The government is alarmed, however, and has despatched medical men to the settlement.

Mr. George H. Fielding, brother of Premier Fielding, has been appointed Deputy Magistrate for the city of Halifax in place of Robert Melton.

## Looking for Help.

## Longing for Release

## from the Bondage

## of Suffering.

Thousands Must Die if

Paine's Celery Compound

is Not Used.

IT CURES THE WORST CASES.

Mr. George J. Smye Had Kidney

and Liver Troubles and

Indigestion.

## HIS CONDITION WAS ALARMING.

THE "GREAT MEDICINE" MADE HIM WELL

AND STRONG.

HE SAYS: "I AM A LIVING WITNESS TO

THE WORTH OF PAINE'S CELERY

COMPOUND."

Although Providence has given to us

and our children a glorious heritage—

of plenty and peace; this fruitful

Dominion—yet there are thousands looking

and longing for help and release from

bodily sufferings and infirmities.

The people who are calling for help

and relief from pain, have tested medical

skill and the boasted virtues of

numerous patents, but to relief or cure

has come to them. They must perish—

die—if their various troubles are not

met by some honest and scientific

remedy.

Among the suffering thousands we

find those burdened with kidney and

liver complaints, heart disease, dyspepsia,

indigestion, rheumatism, neuralgia, nervous

debility, sleeplessness, and a score of

other common ailments.

Let all such take courage; thousands

who have suffered in the past have been

made well and strong by Paine's Celery

Compound. This wonderful king of

medicines has grappled with the most

difficult cases, cases that were pronounced

incurable, and has made them well.

These honest facts should be sufficient

warning and encouragement to those

who seek a cure. Experience and severe

test work has proven that Paine's Celery

Compound is the best and the desired work

effectually and well.

"I am a living witness to the worth of

Paine's Celery Compound." These

are the words of Mr. George J. Smye, of

St. John, N. S., a man respected and well

known in his district. He suffered for

years from indigestion and kidney and

liver troubles. He had a most trying

and disappointing experience with a host

of medicines that did not even relieve

him. Oh! blessed change, happy ex-

perience, when Paine's Celery Compound

was used. He is now a well man and

able to work on his farm every day.

The same blessed results may be yours,

sufferer, if you use the same curing and

life-giving medicine.

Mr. Smye writes as follows:—

It is with great pleasure that I test-

ify to the world of your great medicine, the

Paine's Celery Compound. For nearly

two years I suffered from indigestion,

kidney and liver troubles. After trying

several medicines that did not effect a

cure, I decided to try your Compound.

Before using it I was so low in health

that I could not eat or sleep. I could

not lie in bed owing to pain in my back;

it was only by resting on elbows and

knees I was able to obtain a slight degree

of ease. Before I had fully taken one

bottle of your medicine I began to im-

prove. I have now taken in all fourteen

bottles with grand results. I am a farm-

er and am now working every day.

Any one may refer to me regarding

these statements, or to any of my neigh-

bours around Sheffield, where I am well

known. I am a living witness to the

worth of Paine's Celery Compound."

Mr. R. Ferrish, the popular druggist of

Galt, Ont., vouches for the above state-

ments made by Mr. Smye.

## Highbury Items.

Seeing no items in your paper from this

place, for some time, I thought I

would send a few.

The school is under the management

of Miss Anna Beattie, of Grand Pre.

Her long stay with us, as teacher, shows

her high esteem in which she is held.

Mr. Newton Bishop returned on Friday

from Halifax, where he has been under-

going treatment in the Hospital.

Messrs. Kinman and Eagles are run-

ning their thrashing machine. On ac-

count of the scarcity of grain, they are

not as busy as in former years.

Miss Addie Cogswell of Port Williams,

who has been visiting her friends here,

has called home, because of the illness of

her father.

Bradford S. Bishop, a graduate of

Acadia, left on Thursday of last week,

for Toronto University, to study medi-

cine.

Misses Ida Bishop and Eva Downey

are attending Kentville Academy.

Miss Iry Eagles and Mrs. T. H. Wey-

mouth, of Dorchester, Mass., are visit-

ing their brother H. L. Eagles. Mrs. Wey-

mouth is seriously ill, having been con-

fined to her bed over five weeks. Her

husband is here at present.

Mr. Bowman, of Moncton, has been

sending a few days with his uncle, Mr.

James Downey.

The venerable Dr. P. ton, the world re-

nowned missionary, has called for the

New Harbours, taking with him three

missionaries and sufficient money to pur-

chase a new mission ship.

## FOR SALE.

## DESIRABLE RESIDENCE AND DIKE

## PROPERTY.

The subscriber offers for sale that very

desirable residence and property now oc-

cupied by him on Main street, Wolfville;

consisting of two and one half acres of

land with a frontage of 170 feet on the

street, a commodious house containing

14 rooms, stable and barn. On this lot

are about 40 fruit trees in excellent bear-

ing. Adjoining the above lot lies a

valuable dike lot of 10 acres in good

condition, and cutting a fine quality of

hay, also a 8 acre lot of marsh land.

These lots will be sold either separately

or together. A large proportion of the

purchase money may remain on mort-

gage. The pleasing appearance and con-

venient situation makes this a very

desirable property. Apply to

A. A. Pineo.

Wolfville, Oct. 6th, 1894.

## Y. P. S. C. E. Societies in Kings Co.

Dear Friends.—At the last meeting of

the Maritime C. E. Union held at Mon-

cton I was asked by the delegates from

this county to act as Superintendent for the

county and have consented to do so.

I feel that in undertaking the duties of

this important office I must have the

hearty co-operation of every Christian

Endeavour Society in the county and I

trust our work together may be abun-

dantly blessed. You can rest assured that

in any way way I can assist you I will

try and do so. Our work in this county

so far has been blessed, but a great deal

more can be done. There are many

places in which no organized effort is

being put forth for the advancement of

Christ's Kingdom. Something should be

done to enlighten the young people in this

county and noble work. We do not urge

the organization of new societies for the

sake of members but with a feeling that

better work for Christ and the church

can be done through organized effort

than otherwise and so we say organize

and be numbered among the thousands

who are being the instruments in God's

hands of winning the world for Christ.

And just a request of the secretaries of

the different societies in this county.

Will you please send me as soon as pos-

sible your name and address so that I can

report your society to headquarters and

also that I may know how to address

you at different times as I may be called

upon to do so in the future. This re-

quest applies to corresponding secretaries

of Baptist Union, of Christian Endeavor

or Epworth League of Christian Endea-
