SULLIVAN OF IOWA IS NEWDEMOCRATIC BOOM

Candidate for Governor in His State
Two Years Ago is Given a Boost for Vice-Presidency—Is Said to Have Bryan's Endorsement.
Denver, Col., June 29.—Bryan and Sullivan is to be the Democratic national ticket according to the boom that got here from Iowa today. The Sullivan is Jeremiah V. Sullivan, of Iowa, who four years ago, in 1904, was national committeeman Martin Wade, of Iowa, brought the Sullivan boom to Denver, and so far it is the biggest boom that has shown itself above the sky line of Arapahoe county. Apparently, too, Mr. Sullivan is enough to Bryan's intimates. The Iowa leader is to second the nomination of Mr. Bryan, and the public may take it from Judge Wade that when he has finished, he will make Young Dunne, of Omaha, who is to make the nominating speech, wish that he had never tackled the job.
There are also political reasons for the nomination of Mr. Sullivan, so Judge Wade says. He believes Iowa is a doubtful state this fall.
The Republican party in Iowa is all shot to pieces, and then some. Judge Wade says. "After the deal that was put over in Chicago by the stand-patters, the Cummins people are all ripe for rebellion. They want to get a right good chance to vote for the reformers. No nomination of Jeremiah Sullivan for vice-president will give them that chance. If we nominate Sullivan, the state will certainly go Democratic."
Other members of the national committee, who are here, listen attentively to Judge Wade when he talks of Sullivan, but that is all. They are not aiding and abetting him to any extent that is noticeable to the naked eye. Mr. Wade may take his chance and not wait to hear from Lincoln, Neb., but they are not going to do anything to help him. They tried to do once in the selecting of a temporary chairman and had to back up over the fact that they have done with independent thinking, as members of the committee.
National Convention Officers.
Theodore A. Bell, of California, was chosen Saturday as temporary chairman of the Democratic national convention by the sub-committee on arrangements. Other appointments by the sub-committee which will likely be made permanent, are as follows: General secretary, Urey Woodson, of Kentucky; assistant general secretary, Edwin Sefton, of Washington, D.S.; sergeant-at-arms, John I. Martin, of Missouri; chief assistant sergeant-at-arms, C. C. Fern, of Indiana; chief doorkeeper, E. W. Sullivan, of Illinois; parliamentary, H. D. Crutchfield, of Kentucky; chaplain for opening day, Right Rev. James J. Keane, archbishop of Wyoming; official stenographer, M. W. Blumberger, of Washington, D.C.

FATAL WATERSPOUT IN KANSAS.

Score of Persons Missing—Many Houses Swept Away.
Wichita, Kansas, June 29.—A waterspout occurred at Wellington, Kansas, at midnight, causing the death of at least five persons and much live stock. Three are children. A score of persons are missing. The Rock Island and Santa Fe railways are washed out and trains are unable to reach the stricken towns. The report of the property damage is enormous. Many houses are swept away and as most of the inhabitants were asleep the death list may reach a large number.

RECEIVERS WILL REDUCE STAFF.

Minneapolis, June 29.—A general reduction in salaries of officers and general office employees as well as lower officials on the line is contemplated by the receivers of the Chicago Great Western. Although no definite action has been taken, the matter is up for consideration by representatives of the points and will be decided within a comparatively short time. How sweeping and how great the reductions is problematical although it is understood that the higher officials will suffer fully as much and possibly more than their subordinates. It is said, furthermore, that the reduction will begin at the top at the outset and will grade down to lower office and departmental employees.

Elections in Panama.

Panama, June 29.—Victory for the Obaldia faction in the municipal elections held today seems assured. Returns from this city, Colon, Taboga, Chame and Arriaran indicate triumph for the reformers. No definite action has been taken, although several clashes between the factions are reported from smaller towns in provinces. The Obaldia faction, however, no definite candidate for President against General Obaldia. The presidential election takes place Sunday, July 12, and the results of today's elections will be regarded as a forecast of the results of the presidential contests.
