Planters Go Fishing.

Three well known planters of Briggs, Messrs. Water Wilcox, George Wilcox and John Payne, who possess between them 6 traps, will engage in working them themselves this summer. The men last year were short-handed, but this year, though every inducement was offered to fishermen for the trap voyage, they could only get one man where they wanted 15. Men are either leaving the country or going to Bell Island or Grand Falls and will not engage at the fishery. Sooner than have their traps idle they will work them personally, and have a hard summer's task before them.
