Zoe-tic is a new and improved combination of glycer-phosphates, fine odorless-rendered Cod Liver Oil containing no greases and the best procurable tonic wine. Your own physician will tell you that glycer-phosphates contain the actual elements of the human body in the most assimilative form, and the value of Cod Liver Oil in rebuilding tissue, and tonic wine in rebuilding nerve force are too well known to need discussion. Zoe-tic has a delightful taste.

Everywhere in Canada at the same price. One Dollar for a Generous Bottle. Compounded from food and tonic essences by The Zoe-tic Company, Montreal. (6-33)

## "The Little Lost Sister"

## AT THE CASINO.

Another great success was achieved by the Klark Urban Company in the production of "The Little Lost Sister," which was presented to a full audience at the Casino Theatre last night.

The play deals with a story that is full of human interest, the story of an innocent young girl who is lured away from her humble cottage in Miller-ville to the big city of Chicago, where according to "an attractive gentleman" who makes the proposal to her, she will become a lady and "see life." Reluctant to part with her dear mother at first, she finally surrenders to the wiles of the procurer and flees from her home with him. The story is full of situations, which are also only too real to-day. It depicts the depravity of the human nature whose desire for money, even at the cost of the souls of innocent young girls, is only equalled by the baseness of the character which makes a business of catering to the sensual gratification of patrons of the questionable resorts over which such vultures preside. In this case, however, the girl is saved from destruction by the work of energetic moral reformers who lay a trap for the unsuspecting proprietor and succeed in ensnaring him before he has time to fulfill his wicked designs.

The play was excellently staged, every detail being brought out in a clean and wholesome manner by a well balanced cast. Masie Cecil as Mary Runderell, the reformer, gave an excellent portrayal of a very difficult role, and Auralia Clarke as the "Little Lost Sister" gave a very clever impersonation of the innocent victim of the wily procurer which role, though an unpopular one from the viewpoint of the audience, was splendidly sustained by Thomas Brower. Albert Patterson, as the ally of Mary Runderell, the reformer, was, we think, even better than on previous occasions. Little Dean, as the mother of the "Little Lost Sister" was as usual very natural and gave a clever delineation of her role, while Frank Urban, as Michael Grogan, the Irishman, whose proud boast that the strength of Ireland lay in the purity of her sons and daughters, gave the most faithful impersonation seen here for a long time. He was admirably suited to the part, and in every word and gesture his benevolence was the predominant note, and elicited the applause of the audience. The other characters were well portrayed by Billie Webb, Charles Mills, Curtis Short, LeRoy Kenneth and A. Tenney. The bill will be repeated to-night, and we bespeak for this popular company another full house.

## The King of Cars.

The New York Show has just closed having had a record attendance of over 300,000.

Amongst the hundreds of exhibits there was none that created a greater sensation than the Hudson Super-Six.

With its new patented vibrationless engine it has revolutionized the gasoline motor.

The cylinders of this new engine are the same in size (3 1/2 x 5-288 cubic inches) as former six-cylinder 40 h.p. and the energy generated within the cylinders is also identical in volume. But the difference between the two motors is that the Super-Six can deliver 80% more power which has been shown by careful tests, owing to the elimination of vibration and by reducing power waste within the motor. The Super-Six is capable of developing 75 horse power and it is economical because it develops as much power when pulling a full load, with a half open throttle, as the average motor develops under full pressure. Every one knows that the harrier the motor works the more gasoline it uses, the more attention it requires, and the shorter its life.

This new Super-Six motor has just undergone some most gruelling trials under the supervision of the American Automobile Association.

During the trials it has beaten all previous stock-car records for speed and reliability; a Super-Six stock-car has maintained for 1350 miles a speed of 70 miles per hour and carrying 5 passengers in one hour it has travelled the distance of 70 miles. The Bodies of the Super-Six Hudson are exquisite in design, making the car very attractive. The drive is on the right hand side and the controlling instruments are conveniently placed. With rich leather upholstery, one man top, and a full equipment of every comfort the motor world has devised, the Super-Six is a palace within, and the perfect springing, long wheel base and the electric lighting that turn night into day permits the motorist to enjoy the same of comfort no matter over what rough roads he may choose to travel.

The Hudson Super-Six can be supplied in any style body, a five or seven passenger touring model or a three passenger roadster.

If anybody is contemplating buying a motor car which will ensure them comfort and reliability, they will do well to apply to the undersigned who will be pleased to furnish them with catalogue and prices.

## BONAR LAW.

## THE REASON FOR THE SEIZURE.

## LONDON, Jan. 21.

The seizure by the French of the Greek Island of Corfu, is now known to have been due chiefly to the location there of an Austro-German submarine base. A second base has been located in a narrow channel between Corfu and the Albanian coast. Most of the submarine raids in the Eastern Mediterranean have been directed from these two bases by a fleet embracing German as well as Austrian craft. Submarine activities by Germans in the North Sea have largely abated, owing to international complications and relentless warfare by British destroyers. German submarines have been diverted to the Mediterranean to such an extent that, according to best information, only two small underwater craft belonging to the Germans remain in the North Sea. Co-operation by German submarines with Austrian craft in operations against Italian ships is regarded here as of political significance, it having been stated on good authority that Italy would declare war against Germany if it should be established that German submarines had contributed to the loss of Italian ships.

CONSTANTINE'S APPEAL FOR SYMPATHY.

NEW YORK, Jan. 21. King Constantine's appeal for the sympathy of the United States, made through the medium of newspapers and interviews, finds no response in the American press. On the contrary the New York press emphatically condemns the course of the Greek monarch. Nowhere on earth, it says, is Constantine's policy of defaults and betrayal more bitterly condemned, and more strongly despised, than here in the United States. The King of Greece is as wide of the mark as he possibly could shoot, when he thinks there is, or can be, American sympathy for his betrayal of Serbia, and for his default upon his country's bond to the Allies, when Greece begged them to come into her territory, and do for her what she could not do for herself.

## BRITISH STEAMER SUNK.

## NEW YORK, Jan. 21.

A News Agency despatch from London to-day says that the British steamer Sutherland was torpedoed and sunk in the Mediterranean on Monday. The crew landed at Malta yesterday, one sailor having died from exposure in the lifeboats. The Dutch schooner Rangerman was blown up by a mine off the Danish coast, with the loss of all on board, says a Copenhagen despatch to the Daily Mail. The Sutherland displaced 3,542 tons.

## IN THE COMMONS.

## LONDON, Jan. 21.

After a brief debate, the Commons to-day passed the second reading of a bill amending the Trading with the Enemy Act, empowering the Board of Trade to prohibit any person, firm or company of hostile nationality, or associations, from carrying on business in this country during the war.

Solicitor General Sir George Cave explained that the purpose of the bill was to put an end to a situation which enabled German companies to continue business here during the war, hoard their profits for their own benefit, and the economic struggle which might be expected to follow the conclusion of peace.

I have reason to believe that British property in Germany is being treated in a high handed way, the Solicitor General continued. While there is no desire to confiscate enemy property in this country, it is desirable on the other hand, that the State should be placed in control of such property, and that it be kept safe until it is known what has happened to British property in Germany. The Commons also passed, without discussion, the supplementary Navy estimates, authorizing an addition of 50,000 men to the personnel of the Navy.

## ALBANIANS JOIN MONTENEGRINS.

## LONDON, Jan. 21.

A despatch from Rome states that Eshad Pasha, Provisional President of Albania, has arrived at Scutari with Albanian forces to join the Montenegrin troops, which are retreating to that point. The despatch says that these measures are being taken with a view of defending Scutari. It was reported from Paris last month that Eshad Pasha had declared war on Austria and Bulgaria, and that he was said to have 20,000 armed men who would assist the Allies.

## THE GRAIN SUPPLY.

## BUCHAREST, Roumania, January 21.

An Anglo-French Corporation, with a capital of \$96,000,000, has been formed to buy up all available grain so that the Central Powers will be unable to import needed supplies. It is not known what use will be made by the Allies of the proposed purchases.

## NORWEGIAN STEAMER'S MAIL SEIZED.

## LONDON, Jan. 21.

A Reuter despatch from Copenhagen says that the Christiania Morgenblatt reports that during the stay of the liner Bergensford at Kirkwall, her entire parcel post was seized by British authorities, and that for the first time passenger luggage was examined, and eleven boxes labelled "Valdemar Petersen" were discovered but as no passenger of this name was aboard, the boxes in question were seized. The Bergensford, a Norwegian ship, sailed from New York on Jan. 8th for Bergen, Christiania, and other Norwegian ports. She was reported at Kirkwall on Jan. 17th, and arrived at Bergen to-day.

## RUSSIANS KEEP MOVING.

## TEHERAN, Persia, Jan. 21.

Russian columns operating in Persia, have pushed forward and occupied the town of Sultanabad, 150 miles southwest of Teheran, about an equal distance northwest of Isfahan. The Russian and German Consul have fled to Bouroudjir, 50 miles west of Sultanabad.

## WILL AMEND MUNITIONS ACT.

## NEW YORK, Jan. 21.

A News Agency despatch from London to-day, says that a most imperative need for more ammunition has forced the Government to propose a drastic amendment to the Munitions Act. Premier Asquith informed the Commons this afternoon to increase the number of persons engaged in making shells. The Government proposes to replace skilled union workers engaged in minor tasks, by men and women classed as semi-skilled and transferring the skilled union men to more important work. This measure, the Premier announced, will be introduced following agreement with the Labor Party members. What reception the Government proposal will receive from radical laborites is not known. A few months ago the Minister of Munitions, Lloyd George, made unsuccessful attempts to obtain the sanction of unions to such a scheme, but radical leaders declared they suspected a scheme to undermine unionism, but said they might agree to such a programme if convinced that it was absolutely necessary.
