

## Paint that House this Fall

Protect it from the destructive effect of a winter's snow and ice—save valuable time next spring for other work. Fall painting pays. But be sure you choose the right paint—one that will give your buildings the years of protection that you've paid for.

### B-H "ENGLISH" PAINT

is made according to the formula which scientific tests and many years of experience by practical painters prove to be best to meet Canadian weather conditions.

Formula: 70% Pure White Lead  
30% White Zinc  
100% Pure Paint

It contains 70% of Brandram's B.B. Genuine White Lead—of standard purity for over 100 years—and 30% of pure white zinc—thus combining, in the proper proportions, pure lead and pure zinc, and making a perfect paint. You take no chances with B-H "English" Paint. Be sure you get it! There are cheaper paints, but none more economical when covering capacity and length of wear are considered.

## TO-DAY'S Messages.

10.30 A. M.

### THE GREEK PUZZLE.

LONDON, To-day. Following two days' silence in telegraphic communication with Athens, during which sensational rumors of revolution gained currency, but with no confirmation, comes the startling news of the arrival of an Entente Allied fleet with transports at Piræus, and that the general elections are likely to be postponed for a fortnight. The brevity of the despatches seems to indicate that something unusual is happening. The development of events is awaited with the greatest curiosity here.

### NICHOLAS OF MONTENEGRO.

PARIS, To-day. King Nicholas of Montenegro left Paris last night for Italy, where he will visit the Austro-Italian battle front. On his return from France he will pay a visit to the British and Belgian armies.

### BULGARIAN REVERSES.

ATHENS, To-day. According to information received here the Bulgarians are evacuating the town of Sirovits on the Serbian front near Florina. The Bulgarians are reported to have fallen in their attempt to take Gornitchovo, a town east of Florina.

### IN MESOPOTAMIA.

LONDON, To-day. Except for two successful bombing raids by our aeroplanes on the Turkish position on the Tigris there have been no developments, says an official statement issued by the British War Office last night regarding the situation in Mesopotamia.

### LATEST STRIKE DEVELOPMENTS.

CHICAGO, To-day. Convinced that Congress will force them to surrender, the Presidents of the important western railroads last night ordered the resending of the modified freight embargo, established in preparation for the general railway strike. At the same time the executives announced defections from the ranks of the railway brotherhoods, and declared they had enough men to operate the trains, strike or no strike.

J. R. BENNETT,  
Colonial Secretary.

### Changes at Mt. Cashel.

We understand that several changes are to take place at Mount Cashel, amongst them being that Mr. Ennis, Rev. Bro. Superior there is to be superseded by Rev. Bro. Cashman, of Mount St. Francis, and that the latter will be replaced by Rev. Bro. Eagan at present at Mount Cashel. We are also informed, and his numerous friends of all classes and creeds in the community will be glad to know, that Bro. Ennis, whose noble and self-sacrificing efforts in the welfare and uplifting of the orphans, will still remain at the Industrial Home.

The ex-pupils of the Rev. Bro. Kennedy are requested to meet in the O'Donell Wing (St. Patrick's Hall) on to-morrow, immediately after last Mass, for the purpose of presenting him with an address and souvenir.

## Great Britain Saved France.

Le Petit Journal (Paris):—Let no Frenchman deceive himself on this matter. Events have proved that if the struggle had been localized between France and Russia on one hand, and Germany and her Allies on the other, a German victory would have been the consequence. It is useless to cherish phantasms. The facts are there. Without Great Britain our ports were practically at the mercy

of the enemy. Our overseas communications practically cut off. Germany had made no mistake on the point, and if she now hates the British it is because she sees in them the principal cause of her approaching downfall. She declared war only because she counted upon the non-participation of Great Britain. She had worked for years to assure herself of this, had been prodigal of her advances to Great Britain, and when the moment came when she plunged Europe into the abyss in which it is now being ruined and exhausted, she thought herself sure that she had succeeded.

BUSINESS WOMAN HERE ON VACATION.—Miss Dolphin, Secretary of the International Postal Supply Co., New York, who arrived on the Stephania returns by that ship this afternoon. The company which she represents controls the only motor power date stamping machine in the world, which is rented to the different post offices in the United States, Canada and other countries. One of the offices is in use at our G.P.O. and has given every satisfaction for the past six years. Miss Dolphin has visited Nfld. on several occasions and is delighted with our climate.

## In Milady's Boudoir.

### THE USE AND ABUSE OF POWDER.

Face powder can be abused if not used discreetly. Just as perfume, lip rouge or any article of Milady's toilet.

Few people will deny that it is a necessity to the well groomed woman, but of course there are many badly groomed women who employ innocent powder to cover a multitude of pimples, rather than sin.

The way in which women use powder differs as much as the women themselves. I hear one declare that only a well worn chamomile can be used. Another says this is too drying and that a soft bit of flannel is better. The third turns up her nose at the mention of flannel and vouches for some sort of prepared cloth which is on the market for the purpose.

Another says that these are not sanitary and proudly asserts that a fresh bit of absorbent cotton is the only right thing that any woman with any sense can possibly use.

One says a dry towel, another a piece of white silk stocking, and still another thinks a bit of Turkish towel is correct; and so the battle of the powder rag continues to be waged.

The secret of using face powder without bad effects depends on whether the face is, or is not, thoroughly cleansed before retiring. A good pure cream should be applied and wiped off with a clean soft towel. This will leave the pores clean and free for several hours and at the same time improve the color and texture of the skin. The wise woman will choose her powder as carefully as her physician. She will select the tinge best suited to her complexion, apply it carefully, never neglect to brush it out of her eyebrows and lashes, and always look the better for using it.
