The eventful year of 1889 is ended, and the

last decade of the century is begun. What the new year may bring forth to any of us no one can foretell, and there is really no use in borrowing trouble even for to-morrow. Let us be philosophers, and make the best of our circumstances, whatever they may be-aye, though la grippe have us temporarily in its tentacles-our con dition will not become worse through the putting in force of such a resolution, even if it should be broken, for it really is better to make good resolves and break ness, of course—than never to resolve to turn over a new leaf at all. The very effort entailed in honest endeavor will strengthen the fabric, and tend to make the resolver a better man. But whether the present reader has made up his mind the resolver a better man. But whether the present reader has made up his mind to turn over a new leaf with the advent of 1890, or may deem it prudent not to put in a peg, but to keep on the even tenor of the way pursued by him in the departed the way pursued by him in the departed to the work of the party can be augmented to will hold an inquest. The will have being the thoroughly overhauled last night way the third load they had a the way pursued by him in the departed year, it is meet that the ADVERTISER should wish him with the many thousands who daily peruse these columns, A HAPPY NEW YEAR,

WHO ARE IN THE FIELD?

In London at the close of the recen municipal nominations there were 31 candidates for the fifteen aldermanic chairs; but it is rumored around the city that a number of the gentlemen proposed gave no authority for the use of their names and decline to go to the polls. It is hard for any one to definitely say, therefore, who is or is not in the field in some of the wards, but this much is certain, our advertising columns show that there are two mayoralty candidates, and they further demonstrate that a number of the candidates are enterprising enough to tell the people that they desire their suffrages. The electors will no

LAUGHABLE, THOUGH RASCALLY. The Tory leaders are going into the funny business with a vengeance these days. We pointed out a few days ago that Mr. D'Alton McCarthy's record was such that no self-respecting Liberal could be beguiled into following in his alleged independent footseps. Since then we have had additional evidence that Mr. McCarthy is but doing the bidding of his unregenerate master at Ottawa when nurregenerate master at Ottawa when he mounts the high moral horse, and for the purposes of present party necessities pretends to repudiate the misseeds of his associates. Mr. McCarthy resigned the presidency of the Conservative Assigned the Presidency Assigned the Presiden unregenerate master at Ottawa when sociation of Ontario, in order, so he said, that he might be free to act as he saw fit on public questions. But he did not resign his office of joint controlling spirit of the Empire newspaper, founded at the instance of Sir John Macdonald, to jump as he commanded, to give utterance to just such ideas as the inner circle of the centralizers. rigned the presidency of the Conservative Asas the inner circle of the centralizers might deem prudent, and to obey the every behest of the ringsters who were inveigled into contributing handsomely to keep it alive. He sat at the Empire meeting the other day, expressed the greatest gra+ification at the success of the paper, and indorsed its principles. He must have known that, gullible though he may have found many Canadians to be, they must be given credit for greater intelligence than to be-lieve that a man who is chief cook and bottle washer for another person—to wit, in this instance, Sir John Macdonald—can

in any measure be independent of that other Now, we believe now, as for some time back the logic of events has forced all discriminating Canadians to believe, that the whole Equal Rights movement, so far as the whole Equal Rights movement, so far as the Tory leaders and vote manipulators are concerned, is an expedient by which the adventurers would fain, by misrepresentation and appeals to prejudice, cause injury to the Liberal Government of Ontario, and correspondingly add to the strength of the Tories in both the Legislature and the House of Commons. We are all the easier able to reach this conclusion, not only from Mr. of France.

In the excitement of the municipal cam-paign, we have omitted to wish many happy returns of the season to that evergreen statesman, Wm. E. Gladstone, who has ust celebrated his 80th birthday, and replied to the thousands of congratulatory essages sent to him that he is in the very est of repair. May the wonderful old man long continue to exercise an influence for good in the country which he has served so ong and so faithfully.
