

WITNESSES QUESTIONED ON GAMEY'S POLITICAL VIEWS

Many Witnesses from Manitoulin Island Relate What They Know of His Politics.

TALKED A GREAT DEAL OF BEING AN INDEPENDENT

He Declared He Would Support Any Good Measure the Ross Government Brought Forward—Said He Would Not Be Inactive Like Former Conservative Member.

Tuesday Afternoon's Evidence.
[Special to The Advertiser.]
Toronto, April 28.

On the reassembling of the commission, Mr. Thorburn was called to the stand.

Cross-examined by Mr. Ritchie, the witness said that negotiations with Mr. Gamey for the purchase of a house had begun shortly after the election. After the Globe interview had appeared, Gamey called off the negotiations, because he said that his Conservative friends might not allow him to live in the Bay of Quinte, why, and asked Gamey if he had not taken the same stand as he had indicated before the election.

What stand was that? A—Independent. You regard an Independent as a Conservative that votes for the Ross Government? A—Not exactly. I understood he was an Independent, because he had said that no matter what Government was in power, he would support all good measures.

You knew Gamey was a Conservative? A—Not a very good one. The witness, however, stated that Mr. Gamey had denounced the entire Government policy, particularly the pulpwood laws and the running laws, and that previous to the election he never made a single public statement that was not strongly in opposition to the Government.

When he saw the Globe interview Mr. Thorburn did not think that Gamey had been bought. He simply thought he had changed his mind, and as the witness was a strong Reformer he thought Mr. Gamey had taken a very wise course.

"Did you vote for Mr. Gamey at the election?" A—No. You hold offices under the Government? A—I am a license commissioner and an issuer of marriage licenses.

To Mr. Riddell the witness explained his statement that Gamey was not a good Conservative, because on one occasion he had supported a Reform candidate.

In regard to the remarks made by witness to Mr. Gamey to the effect that he had simply taken the stand advocated before the election, the witness was asked how he knew that Mr. Gamey had taken such a stand. He replied that he had heard it through the riding.

Neil McLean, a Manitoulin farmer, met Gamey at the Queen House, Gore Bay, shortly before the meeting of the Conservative executive, and asked to borrow some money. Gamey replied that he had some money at home, but that if he had to resign he would need every cent in order to pull up stakes and leave the country. Witness urged Gamey not to resign.

Mr. McLean had heard reports of the meetings at which Gamey had said that if the Ross Government was sustained he would not resign any measure that would be of benefit to the constituency.

BETRAYED CONSERVATIVES.

To Mr. Ritchie the witness said that he had voted Liberal often than any other way. The general opinion in Manitoulin among the Conservatives was that Gamey had betrayed them, and they were therefore making things very hot for him.

As to the election promise of Gamey to support good Liberal measures, it did not seem a singular one to the witness. Any Liberal candidate might say the same thing, and rightly, too. Witness said he was a brother-in-law of Mr. Fraser, the Liberal candidate.

Mr. Riddell—Which seems to be a

Womanly Troubles

SHOULD NOT BE ALLOWED TO UNDERMINE HEALTH AND BEAUTY, BUT SHOULD BE TREATED AT ONCE BY FERROZONE.

It is impossible to go into details on this subject, but the experience of many a poor woman who is crippled for life, just because she didn't use a good remedy in time, should be a warning to others.

When the first stages of womanhood appear in a young girl, a great deal depends upon getting her over this critical stage, so that in years to come she will not develop green sickness or consumption.

As soon as she complains of flushed face, headache, bearing down feelings, give her at once a course of Ferrozone treatment, which will carry her past the crisis.

In the adult woman if any irregularities occur, Ferrozone will be found a remedy of remarkable potency and power.

Ferrozone is the ideal regulator for the monthly period and causes all organs of the body to perform their work properly, and at just the expected time.

It purifies the blood, tones up the nerves and vital energies. The stomach is strengthened, and digestive and assimilative processes are improved by the good work of Ferrozone. It regulates the bowels, cures constipation and piles, and replaces disease and decay by health and strength.

There is nothing better for the complexion than Ferrozone. It removes the dark circles from under the eyes, removes and cures all manner of skin eruptions, gives brightness and brilliancy to the eyes, a rosy tint to the cheeks, whitens the teeth and develops a well rounded, plump and handsome form.

Ferrozone is the ladies' favorite, and should find a place in every household. It is prepared in the form of a chocolate-coated tablet, convenient and pleasant to take.

misfortune, according to my learned friends.

Mr. Blake—That is your suggestion. Daniel B. McRae, the next witness, is a lumber dealer of Gore Bay. He was asked by Mr. Ritchie, a representative, and asked to say what Mr. Gamey said about supporting the Government, quoted: "If I'm elected, as I shall be, I don't want to go down to Toronto with my hands tied. I shall support any good measures, which may be brought up."

After the Globe interview appeared the witness met Gamey on the street and said that he hoped he would stay on the side he had taken.

Cross-examined by Mr. Ritchie, the witness said that Fraser was the straight, Liberal-Conservative candidate, and Gamey the straight Conservative. He did not know that there was any question of Gamey deciding to support the good measures of the Government, but party men did not often do it. He thought Gamey's action in changing his party allegiance was a very sensible one.

"You are a good Reformer, I believe," said Mr. Ritchie. "I am a Reformer. I don't know whether I'm a good one or not."

Mr. John Scott, another of Mr. Gamey's constituents, was next called. He had, he said, attended campaign meetings at Long Bay and Poplar. At the former meeting he had himself spoken, pointing out that it was inadvisable to send a man to be in opposition in the Legislature. He advocated that a man be sent to advocate certain measures, independent of party lines.

DIDN'T WANT INDEPENDENTS. In a new country, said Mr. Scott, it was essential that the representative be on the side of the Government.

"Gamey said he was going to be on the Government side," continued Mr. Scott, "but he also made it clear that the Ross Government was going to be defeated. Mr. Gamey said he was not going to sit on the cold benches of Opposition for four years; he was going to take a position to get something for Manitoulin."

Continuing, Mr. Scott said that he understood Mr. Gamey was running a Conservative, but that he appealed to the people as an Independent. Mr. Gamey held certain views, about the people owning the railways, telegraphs, and timber lands, and about the Government working too much in the interests of the capitalists.

Mr. Riddell—He did not appeal only to the Conservatives at that meeting, did he? A—No, he did not.

Mr. Ritchie—Did you ever attend a political meeting where a candidate appealed to the members of one party? A—No.

I thought not. This was Mr. Gamey's meeting, wasn't it? A—There was a dispute as to whom the meeting belonged. Mr. McLean had heard reports of the meetings at which Gamey had said that if the Ross Government was sustained he would not resign any measure that would be of benefit to the constituency.

BAYLEY'S

after he had been in North Perth speaking in the Conservative interests.

WHAT A STUDENT HEARD.

Dr. Hogan, dental surgeon, employed in the office of Dr. Fell, of Gore Bay, heard a conversation which took place on the street just outside the office.

Dr. Fell is a strong Conservative, and once was a candidate for the Legislature. The doctor was speaking with Gamey on the occasion the witness referred to, and was "calling him down" very vigorously because of his desertion of the Conservative cause.

Dr. Fell said he took it as a personal insult because of his earnest efforts during the campaign to secure Gamey's election. Witness could not hear Gamey's replies, as he spoke in a low tone. Dr. Hogan was a Liberal, but Dr. Fell was a Conservative, and was visible to send a man to be in opposition in the Legislature.

Jesse Leamon, of Kegawong, Manitoulin Island, attended a political meeting at which Gamey said that Manitoulin was not a part of the Ross Government, but that if the Ross Government was sustained he would give it sufficient support to secure the necessary road grants.

He was following Campbell's example and get nothing. To Mr. Ritchie the witness said that Gamey, while not quite as vigorous as Dr. Fell, who also spoke strongly, denounced the Ross Government, and said that he was certain that Whitney and the Conservatives would be returned to power.

Gamey, during the campaign, had strongly denounced the Government, in fact, there was not one act of the Ross Government which he endorsed.

TO DEVELOP NEW ONTARIO. Thos. Bowser, also of Kegawong, also said that at a public meeting Gamey announced that he was prepared to support either the Ross Government or the Government of Ontario and help his constituency. From this the witness had gathered that Gamey was going to give the Ross Government an independent support.

The witness told Mr. Ritchie that at this same meeting Gamey had denounced the entire Ross policy. In regard to the Ross policy of selling the limits in large blocks Gamey said that it was by that means that the corruption fund was raised.

The witness said that Gamey was an out-and-out Conservative, as personally he had not much confidence in him.

Witness was not affected by Mr. Gamey's speech.

John Brooks, a merchant at Providence Bay, said that in the autumn of last year, when Gamey came to see him and asked for his friendly support. Witness asked what he would do about the road grants if the Ross Government was elected.

In reply Gamey said that he could do as much in that way as if he were a Liberal member. He said he was personally acquainted with Mr. Ross and the other ministers.

WOULD DO LOBBY WORK. Witness rejoined that Campbell had not been able to do much for the constituency, and Gamey had said he could do more in the lobby than Fraser could do on the floor.

In February Mr. Brooks again saw Mr. Gamey. This was after the "Globe" interview had appeared. On being asked how the people felt about the vote-face Mr. Gamey said that the people in Gore Bay were a little bit past that, two or three of them had gone down to Toronto to try and make big men of themselves.

Mr. Riddell—What was said about the Government? A—Mr. Gamey said that he had been asked if he would be friendly when the estimates were brought down with the road grants inserted or if he would be among the first to charge the Government with extravagance. Naturally he had said he would be friendly, and therefore the grants would be inserted.

One of the people and find out how they felt.

Anything said about McGregor Island? A—Yes, Gamey said that the timber on the island was mostly hollow and no good and anyone who had money could buy it for \$5,000.

To Mr. Ritchie the witness said further that when Mr. Gamey told him that he had taken the estimates for road grants up to the House, he had led witness to infer that if he were friendly with the Government he would get the grants for the island, while if he were not friendly to the Government he would not get them.

Mr. Gamey, said the witness, did not seem to be like being seen by Mr. Whitney to speak in the smaller places in the bye-elections, but he did not give this as a reason why he was changing his allegiance.

NO NEED TO BUY HIM. To Mr. Riddell the witness said that on Feb. 14, Mr. Gamey had said to him that the Government did not need to buy him (Gamey) as they already had a majority.

This concluded Mr. Booth's evidence. Just before adjournment Mr. Johnston put in as an exhibit the official report of the Manitoulin Conservative executive meeting on Feb. 16, as written by Mr. Gamey and given by him to the Globe correspondent at Gore Bay.

The commission adjourned at 4 p.m. to resume at 10 a.m. today.

STRIKE RIOTS ON MONTREAL DOCKS

Longshoremen Interfere With Loading of Steamships.

600 TROOPS PATROL WHARVES

Big Mob Attacks a Stevedore Who Shoots One of the Strikers in Self-Defense.

Montreal, April 29.—Owing to serious disturbances caused by the longshoremen on the wharf yesterday morning, Mayor Cochrane ordered out several regiments of the militia. The Victoria Rifles, the 66th, and the Hussars were summoned to the drill hall, in order to be in readiness to proceed to the wharves. This step was taken after a consultation between the mayor and the police authorities, when the latter expressed fear that they were not able to cope with the disturbers. The wharves this morning were the scene of many disturbances and a struggle between the strikers and the police. The strikers proceeded to the different ocean vessels in port and intimidated the non-union men who were unloading the ships from working. The police charged the mob and drove them back, but the small force of police was no match for several thousand strikers. It is feared there will be serious trouble yet at the wharves.

SIX HUNDRED TROOPS ON DUTY. Over six hundred militiamen, composed of members of the Victoria Rifles, the 66th Battalion and the Duke of York's Hussars, armed with strike cartridges, proceeded to the wharves last night. Troops will be left on duty as long as there is any likelihood of trouble. Lieut. Col. Gordon, who was in command of the troops, said: "The troops will patrol the entire water front, and they will remain under arms so long as a mob is required to keep order. If there is no need of so large a body, some will be dispensed with, to relieve those on duty later. There were no serious disturbances last night, and the real trouble is expected today, when another attempt will be made to unload the vessels with non-union men. An attempt was made last night to set fire to a part of the cargo of the Leyland Line steamship Alexandrian, which was lying at the wharf. The fire was started either by some of the strikers or their sympathizers, but the flames were put out before they had made much headway. A man was taken into custody on a charge of having started the fire."

ONE STRIKER SHOT. John Laverie, one of the striking longshoremen, was carried to his home late yesterday afternoon with a bullet wound in his leg. W. E. Quinn, paymaster for Messrs. Ferns, stevedores, did the shooting. He shot in self-defense, when attacked savagely by a gang of strikers. It was a choice of shooting or running the risk of being beaten to death. Quinn shot three times at his assailants, and the shots took effect, pain was borne within a matter of minutes. Before Quinn could fire again the revolver was knocked from his hand. Another moment and the mob was upon him, and he was taken to the central police station and handed over to the authorities. Mr. Ferns and Mr. Arthur Ferns, who were with Quinn, were also severely handled by the crowd, which went perfectly mad after the shooting.

There were several lively attacks on the men working on the vessels yesterday afternoon, and several of the non-union men were very roughly handled. The steamship Lake Champlain, which arrived here last night, had 150 dock laborers on board, who will be put to work today.

This makes six producing wells they have now struck, all averaging between 20 and 30 barrels of oil daily, with no dry holes. Drilling from Raleigh and Petrolia are being moved into this territory, all the leading oil men being interested in this field. About ten rigs are now at work. A few years ago prospectors struck good showings of oil, but owing to the closeness of the Bothwell fields, it is thought that they never made their minds public in order to keep the price of the oil up. It is the opinion of oil men that in a short time they will have the greatest producing field in Canada in this vicinity. All land for miles around is leased and drilling being pressed night and day.

WEAKNESS PECULIAR TO MEN AND WOMEN. It is said to contemplate the unfortunate condition of so many men of our day and generation. At 30 they feel 50, at 40 they feel 60, and at 50 when they should be in the very prime of life, they are almost ready for the grave. The fire of youth has gone out, the fountain of vitality is exhausted. Premature old age! No matter what produced it, whether evil habits in youth, later excesses, or business worries, the one thing for you to do is to get back the vim, the vigor and vivacity of manhood. Don't lose your grip on life. There are yet many happy, golden years before you if only you can get help. We can and will only help you, but for you if you only get help. We can and will only help you, but for you if you only get help. We can and will only help you, but for you if you only get help.
