NEW YORK STOCK MARKET.

[By Special Wire to H. C. Beeher.]

New York, May 23—Close.—The chief topic of discussion in today's market was the labor situation in Chicago. There is undoubtedly a distinct feeling of unrest among employes, and more especially among the railroad employes. Earnest endeavors are being made to avert a endeavors are being made to NEW YORK STOCK MARKET. among employes, and more especially among the railroad employes. Earnest endeavors are being made to avert a strike, but the feeling is growing among railroad officials that the concessions already made are sufficiently liberal and that further increases in wages must necessarily result in imperiling existing conditions or encroaching upon the provisions made for the payment of fixed charges. The underwriting of the new stock of the Pennsylvania Railroad has created an unfavorable impression, this created an unfavorable impression, this being evidenced by the fact that Penn-sylvania today lost all of the gain which being evidenced by the fact that rennsylvania today lost all of the gain which was made after the announcement in regard to underwriting. The steel stocks were under pressure all day, the reason given for the selling being that there were indications of a decided slackening in the trade. The pressure to sell the general market was moderate during the first hour, but increased during the last hour, until towards the close the market seemed to be on the verge of demoralization. The most disturbing feature was the weakness of St. Paul. The bank statement received little attention. The increase in surplus reserves was too small to affect prices, the decrease in loans was considered favorable, while the loss in cash was larger than had been expected. Final quotations were, as a rule, the lowest of the day, and sentiment in the street is of a pessimistic character.

Business was again dull at the meeting of the London Dairymen's Exchange on Saturday afternoon. It was not owing to a scarcity of offerings, for 13 factories boarded 1,593 boxes, only 225 of which were white; but it was due to an apparent desire on the part of the buyers to make their transactions off the market. Maple Grove (50 boxes) was the only factory which sold openly, the price being 11c, a figure which was offered for only one other lot—Blanshard and Nissouri. Ten and seven-eighth cents was bid for almost every other lot, and refused. This is 1%c better than the price paid in the same wak a year ago. The offerings were:
