## A BAD COLD DEVELOPED INTO **BRONCHITIS**

Mrs. Levi Ogden, Amherst Shore writes: "My baby girl had a very bad cold which turned to bron-chitis, and she could not sleep at night for the coughing. I gave her everything I could think of to relieve her, but nothing seemed to do her any good, and she was not getting any better. I was advised, by a friend to try.

## Dr. Wood's Norway Pine Syrup

I did so, and after giving her a few doses I saw good effects, so I kept on with it. I gave her two bottles, and her cough soon left her, and now she is as well as can be I can-not praise 'Dr. Wood's' enough; it is certainly a wonderful medicine."

This preparation has been on the market for the past 35 years; manufactured only by the T. Milburn Co., Limited. Toronto, Ont.-Advt.

### In the chest— Apply Red Pepper at once

Not a plaster, not mustard. Not ny old-time method. The modern way is Red Pepper Rub.

Nothing else applies such concen trated, such penetrating heat. And heat that doesn't hurt. The old ways can't compare.

Rub it on the chest where congestion exists. A cold is congestion, you know. At once you feel the tingling, know. At once you feel the tingling, penetrating heat. Circulation starts, congestion is relieved. And soon you will feel the cold loosen.

This is just the age-old method of dealing with a cold, perfected by modern science. Red pepper, applied in this way, does what old ways could not do. Use it once and you will use it always. The difference will quickly

But have it ready—get it now. Every hour saved at the start of a cold may save many hours of troubl Be ready to loosen it at once.
