BEAUTIFUL "KEW MOUNT."

A Paradise near Our Gates—Lets at Lew Frices and on Easy Terms.

"Kew Mount," situated on Wheeler-avenue, a short distance north of Queen-street, is one of the most beautiful spots in Canada on which to build a home. "Kew Beach" is at the foot of the avenue and is a well-known summer resort. The Toronto street cars run past this property, giving direct access to "Kew Mount" for the usual fare. Queen-street is graded past this property and is to be blockpaved at once. City water, gas and electric lights are about being placed and a sidewalk is finished the whole way. This charming spot occupies both sides of Wheeler-avenue, is just out of the city limits and consequently free from city taxes. Every lot is beautifully wooded with pine, cak, elm, &c., fit for shade or ornament, and every lot overlooks Lake Ontarlo. There is not such an attractive spot so near the centre of business in Toronto so accessible night and day, so charming in location and outlook, so healthful, so cheap. A general store has been opened; the milkman, butcher, baker and lee dealer are regularly on hand, and all domestio necessities can be had as readily as in the city and as cheaply and new and fresh. In this paradise summer holidays can be enjoyed at home. Beating, bathing, fishing just as good as a hundred miles away. The cost of two or three trips to the northern lakes or other distant places will pay for a lot and cottage for ever—slways growing in value—and without the annoyance of travel, crowded hotels and backwoods taverns. The business man can be absolutely away from his business and yet within 20 minutes of his office. Every business man and mechanic should buy a lot for his wife while it can be had at a low price and on easy terms. Will be sold on bloc or in lots to suit purchasers. Apply to C. N. Shanly, 6 York Chambers, Toronto-street, or A. H. Dixon & Son, 337 King-street west, Toronto.
