A committee composed of Messrs. Mannell, Jackson, Peterman and Patterson was appointed to secure a suitable site for a permanent fair ground.

If a suitable location can be obtained at a reasonable price a stock company will be formed and a half-mile track, together with the necessary buildings, will be erected.

Investors of large or small means wishing a safe and steady income should invest now in the stock of the New England Theatre Company, incorporated in 1891, with a guaranteed dividend of 12 per cent. per annum, payable semi-annually (Jan. and July). This corporation, with the assistance of well-known citizens of Toronto, will erect a magnificent theatre in the city of Toronto at an estimated cost approaching \$100,000.

We desire to make this a co-operative enterprise, which will be safe, sure and solid and, as it is a well-known fact that enterprises of this description offer large returns, and when properly managed are absolutely safe; we have, with this in view, decided to offer a limited number of shares of the treasury stock for sale at the par value of \$10 each (full paid and non-assessable).

Fall Fair—Corner Stone Laying.

A meeting of the directors of the York Township Agricultural Society was held in Mannell's Hotel on Saturday afternoon. The principal business before the directors was the consideration of the report of the committee appointed to select a site for the holding of the fall show.

The committee had visited many localities, but failed to find any better location than last year's grounds. Mr. J. H. Perrin, East Toronto, wrote offering his grounds free for the balance of his term, which is for four years.

Mr. A. Harvey wrote offering to sell the 14 acres in the Dawe's-road, Little York, together with the buildings thereon, for \$15,000.

Neither of these propositions was entertained, and upon the recommendation of the committee it was moved by Messrs. Peterman and Jackson that the fall fair be held at the same place, as last year, Glen Grove Park, North Toronto.

Sugar continues to monopolize the attention of traders. The street is fully convinced that the Tariff bill, as amended by the Senate Finance Committee, will in due course become a law or else there will be no legislation. It is certain that the public is not buying the certificates and that the investigation into the Senate scandal is not likely to put Sugar people in the best light. They have the market, however, and can do whatever they please with the certificates. Some prominent commission houses that have at times excellent information believe that Sugar will work higher and they insist that people that sell it will be mulcted badly. Gas was very strong. There is reason for this stock to sell higher. The weakness of Atchison, and it sold to-day at the lowest price in its history, was caused by rumors to

Henry A. King & Co. special wire from F.G. Logan & Co., Chicago: Wheat opened with rather better feeling this morning on steadier Liverpool than expected after yesterday's extreme weakness, and on further unfavorable crop reports, mainly from the southwest, and a promise of more dry and hot weather reports from the drought-complaining sections of Kansas and Nebraska. Notwithstanding the reported pressure of Argentine wheat at the very low prices quoted for it, the exports for the week show rather respectable proportions—2,400,000 bushels in wheat and flour from our two coasts. We apprehend that the Argentine surplus must be well marketed now and when that time does come one source of extreme pressure will have been lifted from the market.

Provisions — Liberal receipts of hogs throughout the West and prospective liberal runs next week occasioned a weaker feeling. Estimated hogs Monday, 35,000: for next week, 145,000.

Schwartz, Dupee & Co. wired Dixon: A range of % of a cent in wheat was evidence that the speculative motives to-day were not very urgent ones. Cables were lower, but not quite as panicky as expected. Some private messages said there seemed to be a disappearance of apprehension of panic abroad. New York sent talk of settlement of coal strike. While it was of a very indefinite sort it helped to maintain the price. Clearances from both coasts, 2,400,000 bushels, were a little larger than last week's. Prime declared that winter wheat crop.was not filling out well and did not look as satisfactory as it did two weeks ago. It is figured the visible supply would decrease Monday about 750,000 bushels. 59, 61, 63 FRONT-ST. EAST Loran & Co. Chicago: Wheat count with
