

# NEW YORK EXCHANGE.

**MARKET GENERALLY DULL — GRANGERS HOLD FIRM—TRADERS DISPOSED TO AWAIT TOMORROW'S BANK STATEMENT.**

New York, March 24.

The market for Americans is firm in London, the feature being the buying of Louisville & Nashville and Reading, the latter attracting some bull speculation on account of the improved outlook for the coal trade, and the probability that N. J. legislature will adjourn to day.

St. Paul is also fairly strong on statement that earnings for 3rd week in March which not only show an increase of \$29-410 over the same period of last year, but are also the largest earnings of any 3rd week in March in the history of the city.

A despatch from Albany says that the Astoria Gas Bill will be reported unfavorably by the Senate committee, which will be a distinct disappointment to recent buyers of Consolidated Gas, and will probably be looked on as a bull point on New Amsterdam Gas.

It is announced that the directors of the St. Louis and Iron Mountain railroads have decided to issue \$16,000,000 of new 4 p.c. bonds. The object of the issue is to provide for an exchange of these bonds for Texas Pacific 2nd incomes. The basis of the exchange is not definitely known, but it is supposed to be on the basis of \$625 worth of Iron Mountain bonds for \$1000 worth of Texas Pacific 2nd incomes. The Texas Pacific bonds exchanged for the new issue of Iron Mountain bonds will be held as security against new Iron Mountain bonds.

Yesterday's buying of Southern Ry. Pfd was on a revival of rumor that the company had acquired L. E., and St. Louis railroads, and had thereby secured an entrance into St. Louis. The talk on the stock is rather bullish.

Yesterday's sharp advance in P. O. was on buying by one or two important interests in the Street but was unaccompanied by any news. Friends of the company, however, say that the earnings are steadily improving and are now equal to rather more than 8 p.c. on the stock. Discussion of tomorrow's Bank Statement is already taking place, and the fact that rates for call money have recently been more stable and somewhat lower than they were earlier in the week, indicate that the decline in the Surplus Reserve, if any, will be small.

Consolidated Gas broke rapidly at the opening on the prospective defeat of the Astoria Gas Bill and it has only scored a partial rally since. This defers the company's project for the sale of its real estate in this city and the transfer of its plant to Astoria for at least another year.

Weakness in Sugar, we don't think requires any explanation whatever. The consolidation idea has been exploded, and we have never placed much credence in the theory of a combination of the companies, the purchase of the Standard Oil crowd. It may be dangerous to sell Sugar after a 20-point reaction from top prices,
