ONE WILL LAST
A LIFETIME

Why

ONE WILL LAST A LIFETIME

EXPERTS who have made severest tests say that "Souvenir" Castings are perfect castings—flawless castings—because they are made of the finest iron and steel, and come from the casting-box as smooth and clean as when you find them in the finished Range. In flawless castings there's absolute certainty of no warping or cracking. "Souvenir" castings will stand the severest strain of climatic changes.

It takes quality to make worth—as much so in a Range as in anything else you buy. "Souvenir" Ranges have stood the test for over half a century—they have the quality—they have the style—they have the record—backed up by a written guarantee to every purchaser. That's why one will last a lifetime. Sold everywhere. Get a booklet. **It's economy to buy the best.**
