

INDEX OF INVENTIONS.

Alarm : see Burglar alarm.	
Animal trap. James F. Lyons.....	37,042
Artificial hand. Samuel Lucas.....	36,929
Automatic discharge valve for sewer pipes. Charles Horatio Shepherd.....	36,916
Bag for oysters. Marshall Roblin Wynn et al.....	36,976
Bags. Machine for making. James Arkell et al.....	37,061
Bailing press. Henry Luther Whitman.....	37,070
Bank : see Registering toy bank.	
Blind : see Door, window shutter or blind.	
Block : see Sling pulley block.	
Body battery and attachment therefor. John Arthur Crisp et al.....	37,054
Bolt : see Securing nuts to screwed bolts.	
Bolt. Horace Kimball Jones et al.....	37,032
Book : see Memorandum book.	
Bottle : see Fountain ink bottle.	
Box : see Steam boiler flue and fire box.	
Box for car axles. George Franks Godley.....	36,978
Brush for painting. Lancaster Z. Jenkins.....	37,079
Bucket for water wheels. Willis G. Dodd.....	37,094
Buckle : see Trace buckle.	
Building block. Rudolf Böhme.....	36,925
Burglar alarm. George Arter.....	36,930
Burner : see Hydrocarbon vaporizer and burner.	
Burner for lamps. Isaac Franklin Sterling.....	37,060
Bustle. William Townsend et al.....	37,040
Can : see Closing tin cans.	
Car coupling. William Bentley.....	37,015
Car heating apparatus. Frank Pierce Foley et al.....	36,996
Car heating apparatus. James Finney McElroy.....	36,974
Carriage for street railways. Edward C. Sessions.....	37,095
Cart : see Road cart.	
Ceiling plate : see Floor and ceiling plate.	
Chain : see Drive chain.	
Chair. Antoine Charles Brodeur.....	36,959
Churn. George Brannum Dowswell.....	36,926
Closing tin cans. Device for. Richard Kirsch.....	36,945
Coil spring power hammer. Philippe D. Dupont.....	36,927
Coke for foundries. Apparatus for producing, etc. Frederick Josiah Jones.....	36,913
Collar for shirts. George Cameron Caswell.....	37,085
Column and condenser for distilling. Edward Bolton.....	36,968
Compound for insulating electric conductors. James B. Williams.....	37,037
Condenser : see Column and condenser.	
Conductor : see Electric conductor.	
Coupling for pipes. Henry Bert Nichols et al.....	37,071
Cover for fruit baskets. George H. Williams.....	36,975
Cover for stacks. John Broughton.....	36,968
Covering for floors. Richard F. Flynn et al.....	37,001
Cultivator. Nicholas P. Lehr et al.....	37,046
Dasher for churns. Isaac Franklin Sterling.....	36,965
Denture. William Henry Marshall.....	37,044
Digger for ditches, etc. Louis Arsène Desy et al.....	36,995
Dish washing machine. John Stephen Stephens et al.....	37,068
Disk harrow. Andrew George Hill.....	37,025
Distribution slide valve. Gustav Duvinage.....	37,009
Dog : see Saw mill dog.	
Door closer. Carl Lander.....	37,010
Doors, window shutters or blinds. Bolt operating device for. Frank William Wallace et al.....	37,039
Double cross stand for supporting and emptying tanks. Charles C. Williams.....	37,081
Draft generator and spark arrester. Charles Albert Houston.....	37,056
Draw bridge : see Telescopic draw bridge.	
Drive chain. James Douglas Storie.....	36,966
Driving mechanism for cars. Caleb E. Healy.....	37,014
Dry dock : see Elevator and dry dock.	
Dynamo electric machine : see Electric motor and Dynamo electric machine.	
Ear trumpet. Frederick W. Aschendorf.....	37,011
Elevator. Angus Herbert McLean et al.....	37,021
Elevator : See Screw elevator.	
Elevator and dry dock. Frank Bettes.....	37,022
Electric conductors. John J. Saville et al.....	36,943
Electric dynamo and electric motor. Schuyler Shaats Wheeler et al.....	37,078
Electric motor or Dynamo electric machine. William Forman Collins.....	37,072
Evaporator for liquids. Alexis Ball.....	36,983
Expander and flue cutter. John Nichol Murray et al.....	36,994
Fanning mill. John Secord Marsh.....	36,971
Fence making machine. William Henry Smith.....	36,922
Float for fishing lines, etc. Lawson Cutter Cummings.....	36,961
Floor and ceiling plates for steam boilers. Allan Joseph Beaton.....	36,960
Flue : see Steam boiler flue.	
Flue cutter : see Expander and flue cutter.	
Fountain ink bottle. Albert Edwin Dain et al.....	37,005
Frame for buck saws. Charles Cruickshank et al.....	36,989
Frame for parasols. Henry R. Bothwell.....	37,092
Furnace for heating. Rudolph A. May.....	37,018
Gas cooking stove. Samuel Stewart et al.....	37,053
Gas holders. Appliance for guiding and controlling. Edward Lloyd Pease.....	37,058
Gas stove. Thomas Edward Spencer.....	36,941
Grader for grain. George Hornlingo Rich.....	36,954
Grate : see Tubular water grate.	
Grate. William Haze Russell et al.....	36,991
Guard for moustaches. Isaac Gillmore Gross.....	37,055
Guillotine paper cutting machine. Leonard Upcott Gill et al.....	37,075
Hair tonic. Minnie McGilloray.....	36,947
Hame snap. William James Creighton et al.....	37,031
Hammer : see Coil spring power hammer.	
Handle for augers. Lemuel H. Sargent.....	37,098
Hand rubber for washing clothes. Edward McGee et al.....	37,038
Hay rake. Horace McPherson.....	36,972
Holder and sharpener for insertible saw teeth. George M. Beach et al.....	36,948
Holder for cuffs. Alfred John Klein.....	37,035
Holder for pillow shams. Frank J. Waite.....	36,992
Holder for umbrellas. Frank Fremont Ward et al.....	37,065
Horse power. Arthur F. Clement.....	36,944
Hose coupling. James Hale Sewall et al.....	37,000
Hose. Rubber lining for. Ernest Nathaniel Foote.....	36,935
Hot water heater. William Kennedy.....	37,029
Hydro-carbon vaporizer and burner. Richard Thompson et al.....	37,049
Ice : see Shaving ice.	
Ice house. Octave Lambert et al.....	36,957
Induction in electric circuits. Means for preventing. Stephen Curtis Drew.....	37,045
Iron and steel. Process of manufacturing. Charles Adams.....	37,089
Jar : see Self sealing jar.	
Key board : see Transposing key board.	
Kiddle. Franz Kluge.....	37,048
Latch for bucket doors. William J. Sproule.....	36,988
Leg for stoves. Frank Phillips.....	36,967
Lever for moving cars, etc. William Henry Garlock.....	37,006
Liniment for the cure of erysipelas, etc. William George Glendinning.....	37,086
Liquids. Automatic vender for. Emile H. Schloessing et al.....	36,977
Loader for hay. Adolph Lasack et al.....	37,016
Magnetic from non-magnetic ores. Process of separating. Gurdon Conklin.....	37,097
Marbleizing paper. Machine for. Charles Harley Bellamy.....	37,024
Mechanical movements. Lucius Sanford Edleblute et al.....	36,937.
Memorandum book. Charles Edward Cosby et al.....	37,087
Metals. Process of coating with cement. Carl Kellner.....	37,084
Mica cutter and gauge. Charles B. Van Arsdale.....	37,043
Mill : see Fanning mill.	
Motive power. Art of obtaining. George John Altham.....	37,026
Motor. George John Altham.....	36,952
Mould and press for clay, cold dust, etc. William Johnson.....	36,981
Mower. Lyman Melvin Jones et al.....	36,990
Muffler for steam. Edwin Adelbert Leland et al.....	37,051
Music disk for pianos, etc. John B. Mitchell.....	37,078
Needle for sewing machines. Eva Jennie Hall et al.....	37,057
Nut lock. Ithamar C. Hawes.....	37,017
Nut lock and Washer. William Cook Ayres et al.....	37,008
Ores. Apparatus for and treatment of refractory. Henry Hutchison.....	37,090
Ores. Apparatus for treating. John Ketcham Halliwell.....	37,100
Organ : see Reed organ.	
Ornamenting metallic tubes. Apparatus for. Charles Willmott et al.....	37,004
Package for shipping. William Harvey Cadwell.....	36,982
Pad : see Sweat pad.
