

mouth of the first fork of Indian River; those on Alex. McDonald's farm at Stillwater; those on the west side of Goldenville Lake, and on the portage road on the west side of Liscomb River, a little distance above the mill; the vein crossing the east branch of Liscomb River, a little below the embouchure of the Black Brook; those of the Gold-Mine Brook, and that on the east branch of Rabbit plain Brook. Some of these loads may yet prove rich.

PROSPECTUS.

Amherst Coal & Mining Company,

(LIMITED.)

CAPITAL, - - \$80,000,
In 4,000 Shares of \$20 each.

CHARTER GRANTED.

The property of the Company is situated at Maccan, in the County of Cumberland, on the line of the Joggins Railway, about two miles from the I.C.R. and Maccan River, and comprises one square mile, held under lease from the Government of Nova Scotia.

It is underlaid by at least 3 seams of coal from 2 to 7 feet in thickness, containing about ten million tons. Operations have hitherto been confined to two seams, about 2 feet in thickness each. These are contiguous, and can be worked together. The coal is free from explosive gas, cokes, is clear burning, with a strong heat, leaving a small quantity of fine blue ash. For use it has no superior.

The towns and villages along the line of the Intercolonial Railway in Nova Scotia and New Brunswick afford an excellent and remunerative market, easily accessible, and the surrounding districts in the vicinity absorb large amount. For want of facilities for shipping, the output hitherto has been necessarily limited, notwithstanding the active and increasing demand for the coal at remunerative prices. The operations have been chiefly confined to exploring, developing, and equipping the mine with the necessary steam power, plant, etc., for extending the operations and increasing the output of the mine, in which about \$12,000 have been expended.

Unfortunately, in November last, when the railway facilities were about completed, the mining machinery and buildings were destroyed by fire. The machinery is now replaced with temporary buildings, the mine again in operation with railway facilities complete. To equip the mine efficiently for the business intended, will require a further sum of about \$12,000, to be applied as herein stated.

The capacity of the mine thus equipped is over 100 tons per day. The cost of raising the coal to the mouth of the pit will not exceed \$1.25 per ton, and will probably be less. When the coal is in the cars at Maccan, it will command the market to all points west on the Intercolonial Railway. Shipping facilities on the Maccan River are also available. We sell at present at the mouth of the pit for \$2 and \$2.50 per ton, according to grade.

The operations of the mine may be estimated as follows:

Mining and delivering the coal on the cars at the mine, \$1.25 per ton. An output of 50 tons per day for 240 working days in the year, which is a moderate calculation, and allowing 15 per cent. for contingencies, will give a dividend of over 20 per cent. on the capital invested.

The special advantages of this mining enterprise may be summed up as follows:

1. The quality and quantity of the coal.
2. The favorable location, being close to the Railway and shipping.
3. The markets ready for its disposal, and the facility with which they are reached.

4. The low price at which the property is placed, and the small capital required for its complete equipment and working.

5. While it is proposed at present to work it on an economical and limited scale, so as to meet only the requirements of a market certain, it is capable of extension to many times the volume of the figures given.

The features thus briefly set forth are not problematical. The mine is in actual and profitable operation. They are certain and exhibit themselves to inspection. They have all been proved, and nothing is left to uncertainty. The operation of the mine for one month since the railway facilities have been completed has fully confirmed all the calculations and figures given above, and under this conviction the stock is offered to capitalists as a desirable and profitable investment.

The application of capital is as follows:

Value of Mining Property.....	\$32,000
Working Capital.....	48,000
	<hr/> \$80,000

Fifty per cent. of the working capital of \$24,000 will be sufficient to complete the equipment of the mine, as set forth in the foregoing prospectus, and it is not intended that the remaining balance of 50 per cent. shall be called up.

Further information may be had on application at

THE CRITIC OFFICE.

What Your Friends and Neighbors Say on a Matter of Vital Importance.

Below will be found a sample of the multitude of letters of encouragement Messrs. H. H. Warner & Co., of Rochester, N. Y., daily receive. The subjoined unsolicited testimonials are from your friends and neighbors, ladies and gentlemen you know and esteem for their honor and straightforwardness, and who would scorn to be a party to any deception. What has been done for others can be done for you, and it is folly, nay suicidal, to longer suffer when the means of recovery lie at your very door:

International R. R. Dining Saloon, AMHERST, Nova Scotia, Jan., 1887.—In October 1881, I was taken down with bleeding of the kidneys, or some of the arteries leading from them. One day, while lying, I felt something giving away in the region of my left kidney and immediately after I commenced to pass blood in matters water. Three doctors could not stop the flow of blood. I got "Warner's safe cure," and began taking it unknown to the doctors, and about the 10th of December the bleeding began to get less, and in two or three days the dropsy began to set in my legs and feet. By this time I was reduced to a mere skeleton, suffering from cramps in my legs, feet and hands, also the hiccoughs. My flesh became like a piece of white unpolished marble, cold and no signs of any moisture. I here wish to say that I did not take any of "Warner's Safe Cure" from the 20th of December until March following. They tried all they could to check the dropsy, but had to resort to tapping at last, which was done every thirteen or fourteen days until the 23d of March. Then I was given up as hopeless, my spiritual director giving me the last dying rites of my church. I told them, fear not, I would, with the help of God and "Warner's Safe Cure" come out all right. I then began taking "Warner's Safe Cure" every three hours night and day, and "Warner's Safe Pills" also, and dieted as directed, and to the surprise of the doctors, my family, friends and the public, I was able to get out by the 1st of May for a short walk or drive. I still continued to take "Warner's Safe Cure" and now I feel as well in health as I ever did. No more trouble with dropsy, cramps, hic coughing, or kidneys, and consider myself a sound man again. The catarrh in the head, of which I was badly affected, also disappeared. These are all the facts of my case, as hundreds can tell who know how low I was. As a reference I will mention the name of Mr. J. Rogers, with the firm of Evanson & Mason, of Montreal, who knows my case in full.

W. J. Hamilton

TORONTO, Ont., (166 Wilton Ave.) Jan. 31st, 1887.—For ten years I suffered from quinsy and relaxed throat, being confined to my room for weeks at a time. I was at last induced to try "Warner's Safe Cure" and with a most beneficial result. I may say I have not suffered in the slightest from quinsy since.

Wm. S. S. S.

TORONTO, Ont., Sept. 19, 1887.—I suffered severely with lame back, at different times, for three years. My physicians said that my kidneys were affected, and treated me for Bright's disease. I obtained no relief, however, until I commenced taking "Warner's Safe Cure."

L. D. B. B.

Supt. Protection Police and Fire Patrol Co. of Canada.

HAWKINSBURG, Ont., March 27, 1887.—I have been terribly afflicted with chronic Bright's disease. My body swelled so I could scarcely move about and my eyesight was so affected so that I could hardly distinguish objects across the room. I had a distressing cough from the pressure of water on my lungs, and was in danger of suffocation whenever I attempted to lie down. My limbs were so swollen that I could not bend my joints or sit on a chair. The valves of my heart refused their office. At times circulation seemed entirely suspended so that I was incapable of moving a limb, and at others the increased action of my heart would cause such a pain in my head as words are inadequate to describe. Then again my stomach refused all nourishment and I was growing weaker every day. The physician who attended me said there was no hope; he could do no more for me and that a few days would see the end. At this stage I resorted to "Warner's Safe Cure" and "Warner's Safe Pills," and with most satisfactory results,

although it was some two or three weeks after I commenced their use before much decided improvement was manifested. My recovery then was very rapid. My weight from dropsical swelling was then 132 lbs. and is now reduced to 107, about my normal weight. Analysis showed 90 per cent. albumen with a quantity of tube casts, and is now reduced to 10 per cent. I am so far recovered as to be able to attend my domestic duties, taking moderately long walks and visit friends as formerly. "Warner's Safe Nervine" has so far corrected the action of my heart that the severe pain in my head has entirely left.

Wm. J. C. Hersey

An Extraordinary Offer to all Wanting Employment.

We want live, energetic, agents in every county in the United States and Canada to sell a patent article of great merit, on ITS MERITS. An article having a large sale, paying over 100 per cent profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold to every householder, it might not be necessary to make "AN EXTRAORDINARY OFFER" to secure good agents at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its salability by any agent that will handle it with energy. Our agents now at work are making from \$150 to \$300 a month clear, and this fact makes it safe for us to make our offer to all who are out of employment. Any agent that will give our business as a thirty days' trial, and fail to clear at least \$100 in this time, ABOVE ALL EXPENSES, can return all goods unsold to us, and we will refund the money paid for them. No such employer of agents ever dared to make such offers; nor would we if we did not know that we have agents now making more than double this amount. Our large descriptive circulars explain our offer fully, and these we wish to send to everyone out of employment who will send us three one cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work on the terms named in our extraordinary offer.

Address, at once, NATIONAL NOVELTY CO.
314 Smithfield St., Pittsburgh, Pa.

Mine, Mill & Factory Managers

Whether in Halifax or in the Country,
Your attention is respectfully called to the fact that

AARON SINFIELD,

Mason and Builder,

has had over thirty years experience in and has made a special study of, all kinds of Furnace Work, so as to reduce to a minimum the expenditure of coal and time, and to make the process of "firing up" as expeditious as possible. "Expert" advice given, and all kinds of Jobbing promptly executed in a thorough, mechanical style at lowest possible rates.

Address—7 GOTTINGEN ST., CITY.

YOUR

Blood wants toning up. You have no appetite, and what you do eat distresses you. You feel low spirited and languid. You are nervous, and at nights roll and toss on your bed and cannot sleep. This is all caused by your system being run down and requiring something to brace it up, and make you feel all right again. To secure this result you must take Estey's Iron and Quinine Tonic.

It is not a new thing, but has been thoroughly tested, and hundreds can testify to its merit. Ask your Druggist for it, and see that you get the genuine. Every bottle our Trade Mark and signature.

Price 50 cents. Prepared only by E. M. Estey, Pharmacist, Moncton, N. B.

JOSEPH FADER & CO.

Wholesale and Retail Dealers in all kinds of

Meats, Groceries, Vegetables,

Fresh and Corned Beef and Pork, Cheese Butter, Eggs, Hams, Bacon, Potatoes.

17 & 19 BEDFORD ROW, HALIFAX N. S.

Manufactured Meats, Sausages, Bologna, Puddings, &c., prepared on the premises. Having an immense Refrigerator, we carry a heavy stock of goods, which are fresh at all times, and can fill orders by mail or otherwise promptly.

Goods delivered to all parts of the City free of charge.
