

On Monday Feb. 18 Mr. Bland gave a second lecture on "Hamlet." This lecture was independent of the Star Course.

Acadia has just reason to be proud of her victories in sports this year. Another laurel has been won for the A. A. A. A. This time by the hockey team, in St. John. On Thursday, Feb. 21st, the campaign opened by a game with the Bicycle club of that city. Of this game the Daily Sun says: "The body checking and stick work surpassed anything seen here before." The first half closed with an even score, but the second half was played entirely within the Bicycle territory and the game ended with a score of 5 to 2. The second game, played the following evening, was a hard contest with the Victorias, also of St. John. This game was won by another brilliant play of Dimrock's, very much resembling his famous run in the Dalhousie game. Carrying the puck the full length of the ice through the lines of the Victorias and through their goal he raised the score from a tie to 2 to 1. After this victory the St. John boys treated our team in a most royal manner and they have returned home delighted with their trip and fully satisfied that this is not the last of the friendly contests in the line of sport between Acadia and the commercial capital of New Brunswick.

Seminary Notes.

Academy Notes.

Mr. and Mrs. C. R. Hill, of Margaret's Bay, paid the Academy a flying visit Feb. 9th.

Owing to an attack of mumps several of the boys have recently been housed. Mr. Fuller also being among the afflicted, the classes in the Manual Training Department were for a short time suspended.
