

A Far - Reaching Service

Besides serving cities, towns and villages throughout Quebec and Ontario, our lines reach thousands of farmers.

More than 707 independent telephone systems have made satisfactory arrangements for interchange of business with us, and these serve upwards of 98,851 subscribers, mostly farmers.

Hence, Bell service—local, long distance, urban, and rural—is part of the business and social life of the whole community.

"Every Bell Telephone is a Long Distance Station."

The Bell Telephone Co. of Canada

PEDLAR'S "PERFECT" TONCAN METAL CULVERTS

LENGTHS UP TO 40 FEET. COUPLING BANDS FOR LONGER LENGTHS. DIAMETERS 8 TO 84 INCHES.

The narrow and deep corrugations which are the essential feature of the Pedlar Culvert, give the maximum strength with the minimum weight. This great strength enables the Culvert to withstand tremendous external stresses from various types of rolling loads. It also gives it the power to resist great internal stresses from frost and ice. The enormous strength of Pedlar Culverts, combined with their ease of installation, makes them the first choice of engineers who go deeply into the study of road-building economy.

Write for Culvert Booklet "M.J."

The Pedlar People, Limited

(Established 1861)

Executive Office and Factories: OSHAWA, Ont.

Branches:—Montreal, Quebec, Halifax St. John, Ottawa Toronto, Winnipeg, Calgary Vancouver.
