

WAIVER OF IMMUNITIES

Canada may request from the sending state the waiver of the immunities of diplomatic and consular personnel who have committed offences or are needed to give evidence in judicial or administrative proceedings. Although the sending state may not ordinarily agree to grant the waiver, particularly for criminal offences, law enforcement officers ought to document offences by diplomatic and consular personnel in case prosecution is eventually allowed, and ought to report them promptly to the federal, provincial, or territorial offices of protocol as appropriate.
