Company Summary

Pacific Emergency Packs & Equipment Inc. was established in 1983 to design and manufacture backpacks primarily used for rescue purposes. From modest beginnings, the company has doubled sales annually and become an industry leader in durable and innovative rescue equipment. Pacific Emergency offers a diverse line of products ranging from trauma kits for ambulances to lowering harnesses for police dogs, all backed by a five-year guarantee. A full line of rescue clothing is planned for 1990.

Company Summary

Parsons A.D.L. Inc. was formed in 1982 to design and manufacture products primarily intended for the physically handicapped. The product line includes assistive devices as well as exercise weights for physiotherapy. All products have undergone rigorous testing in institutional environments and household situations. Unique in design yet completely functional, there are numerous items available for children and adults, many that adapt equally well to everyday activities of the general public.

Functional yet stylish, Parsons' assistive devices perform numerous tasks.
