Export Contact:

Mr. Frank Meisels

Since 1965, F.G.L. Precision Works Ltd. (F.G.L.) has been at the forefront of mould design and mould-making throughout Canada and the United States of America. The company specializes in the design and manufacture of structural foam, injection, compression and RIM moulds (up to 30,000 lbs.).

F.G.L.'s export sales are constantly increasing and it is one of Canada's more successful mould making companies. The firm has a total C.I.M. (Computer Integrated Manufacturing) environment, up-to-date machinery and a well-qualified and versatile technical staff.
