

Questions

(b) There is no readily available method to identify serving officers or men who had previous service and who entered the service directly from university.

5. 1.9 per cent of officers enrolled during 1970 had previous service. 5.1 per cent of men enrolled during 1970 had previous service.

CANADA MANPOWER TRAINING PROGRAM

Question No. 569—Mr. Broadbent:

1. For each month since January, 1970, what proportion of Canada's unemployed were enrolled in occupational training programs?

2. (a) How many trainees were subsequently employed (b) how many of those that were subsequently employed held jobs for in excess of one year (c) if the answer to Parts (a) or (b) was based on a survey, what percentage of those surveyed replied?

3. (a) What proportion of entrants into the training program was previously unemployed (b) what proportion of entrants into the program had previously received occupational training?

4. How many employers had contracts with the Minister of Manpower and Immigration to provide training or retraining for workers in 1968, 1969 and 1970?

5. What different programs are provided under the Adult Occupational Training Act and what is the average cost per trainee in each?

Hon. Otto E. Lang (Minister of Manpower and Immigration): 1. Persons receiving training are not considered to be members of the labour force and the questions cannot be answered. The ratios of referrals for training, to the number of unemployed at the time of the DBS survey during 1970, are as follows: January 1970, 6.0 per cent; February 1970, 6.1 per cent; March 1970, 3.4 per cent; April 1970, 3.2 per cent; May 1970, 1.9 per cent; June 1970, 1.4 per cent; July 1970, 1.4 per cent; August 1970, 2.8 per cent; September 1970, 6.5 per cent.

2. (a) The results of a follow-up survey of trainees who completed training during 1970 are not yet available. Of trainees who completed full-time training at public institutions between January 1, 1969 and September 30, 1969, 75 per cent of respondents who looked for work were employed within three to four months. (b) Information not available. (c) 61 per cent of trainees surveyed returned replies.

3. (a) Of the persons surveyed, 68.9 per cent who commenced training during the period January 1, 1969 to September 30, 1969 were unemployed prior to commencing training. (b) Information not yet available.

4. 1968-69, 1,304; 1969-70, 3,415; 1970-71 (April to October), 1,178.

5. Preliminary figures for 1969-70 indicate the per trainee cost for full-time and part-time training for the four types of training purchase agreements is as follows:

General purchase (from Provincial institutions)	\$ 983*
Apprenticeship (from Provincial institutions)	568*
Training-in-industry (Federal contribution)	177
Private schools	1,326*

*Training costs and training allowances

[Mr. Macdonald.]

*BAY OF FUNDY TIDAL POWER DEVELOPMENT—ACCESS TO STUDY PAPERS

Question No. 571—Mr. Forrestall:

1. With respect to Question Number 373 answered on November 30, 1970, could the government indicate, in light of the response, why the Public Records Section, Manuscript Division, Public Archives of Canada has indicated it will not allow access to such documentation and study papers i.e., The Atlantic Tidal Power Programming Board's Study Papers, until April, 1975?

2. Is there a conflict between Public Archives policy and the policy of the government with respect to these study papers and, if so (a) what is the nature of this apparent difference of opinion (b) can it be resolved so as to permit free access to the detailed documentation upon which the report of the Board dated October 31, 1969 and entitled "Feasibility of Tidal Power Development in the Bay of Fundy" was based?

Mr. J. A. Jerome (Parliamentary Secretary to President of the Privy Council): Mr. Speaker, the Atlantic Tidal Power Programming Board recommended in its report that one copy of the records and supporting technical data and reports contained in its study office, following orderly assembly and indexing, be placed in the custody of the Public Archives of Canada to be made available to any of the subscribing governments, acting jointly or severally, in a future study of tidal power in the Bay of Fundy. This recommendation was concurred in by the government. It was considered that a five-year term of restricted access to this material was appropriate; and this term dates from April 1970, when the material was placed in the custody of the Public Archives.

The answer to the second part of the question is there is no conflict.

Mr. Forrestall: Why did you not tell me I just could not have it?

FEDERAL GOVERNMENT FINANCIAL GRANTS TO NOVEMBER, 1970

Question No. 582—Mr. Burton:

For each province in Canada and Canada as a whole, what is the total estimated (a) federal government financial grants (b) new employment, under the Regional Development Incentives Act of the Department of Regional Economic Expansion from the Act's proclamation to the end of November, 1970?

Mr. Martin O'Connell (Parliamentary Secretary to Minister of Regional Economic Expansion):

Province	Estimated Financial Grant	New Employment
	(a)	(b)
Newfoundland	\$ 826,446	514
Prince Edward Island	995,273	279
Nova Scotia	19,415,222	1,299
New Brunswick	15,147,577	2,285
Quebec	33,589,667	7,532
Ontario	5,525,773	1,419
Manitoba	4,902,911	1,475
Saskatchewan	1,360,690	342
Alberta	3,491,518	744
British Columbia	502,837	176
Total	\$85,757,914	16,065
