

### CITY MAY HAVE REALTY BRANCH

City Officials With the Business Men as Advisors, Could Save Money.

### RESIDENTS PROTESTING

Do Not Want a Preventorium at Yonge and Sheldrake Avenue.

Real estate purchases for civic purposes are likely to be made before long by a committee formed of civic officials, aided by two or three business men acting in an advisory capacity.

The formation of such a committee is now under serious consideration.

Controller McCarthy endeavored a year ago to effect a solution of the problem of acquiring real estate for civic purposes in a way to prevent information reaching speculators before the price of the property could be fixed.

It is again preparing a plan to carry out this needed betterment of civic business.

So acute is the situation that there are instances of citizens, who desire extension of streets, forming themselves into syndicates, buying up the required property, and then getting the street extended at profit to themselves.

An authority on property values adds that Toronto could acquire areas for two diagonal streets, one on each side of Yonge street, at an average of \$100 a front foot, and would be able to frontage the diagonal streets at \$300 a foot for the diagonal streets would become business thoroughfares.

Residents Protest. Location of a preventorium at Yonge and Sheldrake ave. was protested against by a deputation from North Toronto, yesterday, to the board of health.

D. C. Hossack stated that surrounding property had been sold under restrictions, and that the legality of locating the preventorium there would be tested.

Some of the deputation said thousands of dollars would be lost to the property owners, unless the preventorium is located elsewhere.

It was given power to regulate the price of milk, and to require at least four profit for the committee adopted the policy of selling to the farm all such horses required there.

Consideration of the property estimates was given by the board of control yesterday, and little cutting was done, the board regarding the estimates as generally reasonable.

Vital Statistics. Toronto's death rate for February, reported by the department of health, is 18.94 per thousand of population, which is normal in comparison with other cities.

Dr. Hastings notes that pneumonia is prevalent, and the number of deaths from it should be reduced.

A slight rise in deaths from acute contagious diseases is reported, due to measles and whooping cough. Out of the 522 deaths 124 were of children under one year old.

In the laboratories 210 specimens were examined, which 721 cases of diphtheria cultures, a large decrease from the number in February, 1912.

For child welfare three nurses had 470 infants under supervision. Two district nurses made 618 visits.

Inspection of private slaughter houses showed 27 animals showed evidence of disease.

In housing and district inspection five houses previously condemned were demolished and six closed.

Inspectors of restaurants and bakeries seized 221 loaves of bread. Food inspectors condemned the carcasses of 18 sheep, 12 lambs and 110 chickens.

Henry G. Baker, for bravery in rescuing 377 babies of onions, and 44 bushels of apples.

DIAMOND ANNIVERSARY. Town of Barrie Will Celebrate During the Summer.

A diamond anniversary, celebrating the incorporation of the town of Barrie, will be held early this summer.

The town council has appropriated sum of \$1000 which has been duplicated by citizens.

Invitations have been sent out to residents in various parts of the city, to be present at a festival, and a committee to look after those residing in Toronto has been appointed.

Robert Orr, chairman, pro. tem.; Percy Rogers, secretary, pro. tem.; Ernest Cuthbert D'Arcy Hinds. A meeting will be held tonight at Orr's hall, on Richmond street.

### TORONTO MIGHT ANNEX LEASIDE

City Would Get Hundred Thousand Dollars Annually in Taxes.

### MORE MARKETS NEEDED

Farmers Ask That Better Facilities Be Provided for Them.

Another conference over the annexation of Leaside was held in Mayor Hocken's office yesterday. Commissioner Harris has been asked to report the cost approximately of a central sewage disposal plant.

One of North Toronto's septic tanks is now on the Leaside plot, and its enlargement may meet the requirements.

City water supply will also be needed. There is the probability that the C.N.R. will bear the expense of laying the water main and of providing a sewage disposal plant.

The assessment of the land will be at least \$5,000,000, giving the city a revenue of \$100,000.

Tomorrow morning another conference will be held, and the C.N.R. will give an idea of the amount of area reserved for parks and playgrounds.

Acceptable assurance of the establishment of car shops has been given, and it is now announced that a site for another large manufacturing industry has been sold and building is to commence at once.

It is expected that a population of 5000 to 7000 will be on the Leaside site in a couple of years.

Market Facilities. Need for more market facilities in Toronto was urged upon the property committee yesterday by Reeve Pugsley of Richmond Hill, Reeve Cornell of Scarborough, Peter Leighton of North Toronto, and F. Simpson. They advocated markets in outlying districts and a central one near Bloor and Yonge streets.

Controller O'Neill said that the numerous small markets that have been taken the place of markets. The matter was referred to the transportation committee.

Using hand-footed horses from the street cleaning department for work on the industrial farm has proved so profitable that the committee adopted the policy of selling to the farm all such horses required there.

Replying to the point that it was too late to file an election petition, Judge Doherty said that the Election Act to prove that a petition could be filed any time within 30 days after a member of the house paid money corruptly.

The election petition was filed on Feb. 17, so there was still time to file a petition.

Oration for Laurier. Sir Wilfrid Laurier, who had been absent from the house for several days, received a great ovation from his followers when he rose to reply. He admitted that ordinarily the house of commons should not concern itself with charges growing out of election contests, but in the case at the bar, the gravamen of the charge was that, long after the election the secretary of state had paid money corruptly on Feb. 17, so there was still time to file a petition.

Mr. Borden then made a legal argument to prove that the house had no jurisdiction and quoted from speeches made in the house by Sir John Thompson and Sir Charles Doherty. The precedent established by the Laurier government in refusing to reopen the Brockville and West Huron cases, he thought, should be followed in the case of Hochelaga.

Mr. Carvell insisted that Mr. Borden had spoken against the precedent established by the Laurier government in the Brockville and West Huron cases. The prime minister had denied that Bourassa was a government official, but did not speak of his own knowledge of this subject.

Mr. Carvell: "Will the minister of marine and fisheries say the prime minister is correctly informed?"

Hon. J. D. Hazen: "Bourassa was never appointed to any office."

Mr. Carvell: "But he received a letter from your department assuring him that he had been appointed?"

Mr. Hazen: "He was appointed to no office by the government."

Mr. Carvell insisted that the minister had sidestepped the question. If the investigation was ordered, he thought, it would prove that he had been given an office.

The debate continued by Postmaster General Pelletier, Mr. McDonald (Pleasant), Mr. McLeigh (Portage la Prairie), and Judge McKenna (North Cape Breton).

Mr. Gauthier in closing the debate charged that Mr. Coderre had not been in his last Monday, as stated by the prime minister, but was busy with his friends at a hotel in Montreal.

House adjourned at 1.30. Tomorrow will be devoted to the estimates.

### CODERRE CHARGES FALL FLAT IN HOUSE

Continued From Page 1.

Rest of the World Should Be Shown That the Dominion is Behind Great Britain in Maintaining Supremacy, Declared W. F. Maclean, M.P., to Balm Beach Conservatives—Premier Borden's Policy Was Endorsed.

That, while Canada is destined to be a great shipbuilding country, it is up to her to put the \$35,000,000 contribution to the relief of the world that is behind Great Britain in maintaining British supremacy on the seas, and that it should be given unconditionally, was a declaration that aroused unbounded enthusiasm at a meeting of the newly organized Balm Beach Liberal Club, held last night.

The declaration was made by W. F. Maclean, M.P., for South West, who made the prophecy that the close of the century would see Canada with a population of 10,000,000, and that the younger generation in Canada, alive today, would live in Canada with a population of 60,000,000, and with fleets both on the Atlantic and the Pacific.

"That this meeting, held under the auspices of the Balm Beach Conservative Association, strongly endorses the policy enunciated by our esteemed leader, the Right Hon. R. L. Borden and his cabinet, was a resolution unanimously passed and was followed by cheers.

The goal now being accomplished by the Ontario Government was recognized in the following resolution: "That the meeting endorse the policy of Sir James Whitney and his ministers."

The meeting opened with the singing of the national anthem, and the president of the new association, which has only been organized three months, was in the chair.

Canada Would Join. Mr. Maclean declared that Canada and the other portions of the empire in maintaining British supremacy on the seas "first, from our love of the old land—a daughter's devotion to the mother country, and secondly, because the Dominion would never have been what it is today, but for the British navy and the British army."

Great Britain would spend the last cent of her money on the sea, and the Dominion would do so for business reasons. The Dominion would never have been what it is today, but for the British navy and the British army.

"We have a proposition at Ottawa, based on the feeling of the daughter state toward the mother country, but business reasons there are also to be considered."

"A great portion of the capital in this country came from the motherland. All the great railways and the long-distance lines were financed with money—development of the past, the marvelous what is to come in the future will be the money we obtain from the old world. We have been able and we will be able to go to the old country."

IRISHMEN HELD USING A HAMMER TO CRACK EGGS

Says Judge Morgan in Discussing Petty Actions Sent to Him.

"Using a sledge-hammer to crack eggs" is the way Judge Morgan expresses the use that has been made of his court at the city hall last night by a large number of minor cases, which should have been settled in the police court.

County Crown Attorney Greer is "grochy" because the good Judge has been so lenient, allowing many of these petty actions to go to him.

Hon. James Duff, minister of agriculture for Ontario, Thomas Whiteside, Hon. Alex. McCreary, Hon. J. C. McCreary, and a number of other prominent Conservatives addressed the meeting.
