W. C. SHARP, PROF. JOHN SHARP. GEO. STEVENSON. Secretary-T reasurer. Vice-Pres: and Gen. Manager. DIRECTORS. PROF. JOHN SHARP, late Queen's University, Kingston, Ont. New Liskeard, Ont. W. C. SHARP, Mining Operator Toronto, Ont.

OFFICERS:

Messrs. Mills, Raney, Hales & Colquhoun Toronto, Ont. Messrs. McEwen & Morgan New Liskeard, Ont. Head Office-TORONTO, ONT.

The properties of the Company consist of twenty-one Forty-acre claims in the Larder Lake District (total, 840 Acres), situated between the southwest and southeast arms of Larder Lake.

The title of all properties is vested in the Company, absolutely free from all incumbrance.

The properties are recorded under the following numbers: 2578, 2591, 2592, 2686, 2715, 2716, 2717, 2718, 2719, 2720, 2923, 2924, 2925, 3042, 3043, 3044, 3609, 2929, 2930, 2931, 2932.

Combined Goldfields, Limited: Gentlemen,-I beg herewith to submit my first report on the work carried on for you on our Larder Lake properties:

On May 24th I engaged a foreman, and on the following day a cook at \$3 per day, a blacksmith at \$2.75 per day, and three laborers at

five inches of snow fell, so that the can do development work for nearly This report gives the general result of a little less than one roads were almost impassable, as one claim per day. may be judged from the fact that we were able to make only eight miles on the 28th. We had about eight miles of trail to clear out, so that a wagon could be driven on it; as soon as we reached that point part of the men were set at this work, and the remainder assisted the teamsters to forward our outfit from Tomstown, and by Saturday night of that week we had our outfit at Larder Lake, and on Monday we set up our tent on our own property. On Tuesday, June 4th, began actual development work on the property near our camp, stripping a vein of quartz, which has since been shown to be from 20 to 30 feet wide, and which we have traced for over 500 feet. As soon as we were settled I got two more men, so that we had now six laborers, counting the blacksmith, who works at development work when not sharpening drills, etc. On June 17th three more men were secured and I have since added to the gang as opportunity offered, until now we have 25 men on our pay roll. Just here I may explain that after looking over the ground I advised that it would be more economical to work the "Combined Goldfields" and the "Searchlight Larder Mines" together, thus saving the cost of one cooking outfit. one blacksmithing outfit and at least part of the wages of cook, blacksmith and foreman. As this matter was left to my judgment; I am carrying out the exposed very fine samples of cop-plan, and this explains why I have per. This metal occurs here in \$2.50 per day, and for the large

Sharp, B.A., an honor graduate in mineralogy of Queen's University, who goes over each claim with the foreman before any work is done on it, advises as to the best place to do development. the best place to do development work, and in every way gives us the benefit of his expert knowledge. When not engaged traveling the claims he works with the men. He gets \$4 per day.

> The cost of taking in supplies now is so great that I am confining our work exclusively to completing the development work necessary to hold the property for one year. In winter supplies can be put in for about 20 per cent. of what we have to pay now, so we try to get on with as

little as possible until then. So far development work has been done mainly on the following claims: Nos. 2,578, 2,591, 2,716, 2,717 The work so far done on No 2,578 has been stripping the earth off a body of statyschist rock, which is shot through by several two we will go down a few feet On Claim No. 2,591-About 2,000 square feet of rock has been stripped. The formation here is a heavfour or five feet wide colored green To Prof. John Sharp. at one point a large vein of quartz by green talc. A few shots were put into this rock, and promising values in both gold and silver were obtained (\$2.40 per ton in gold and \$2.60 per ton in silver). stripping on this claim one of the workmen picked up a fine sample of free gold.

On Claim No. 3,042-Work has just been begun and the second blast would do the work for pyrite). If further work proves Cobalt, per lb...... gang \$3 per day. Our foreman gets have in it a very rich proposition. \$1 per day extra for looking after | On Claims Nos. 2,716 and 2,717- | Iron \$5 per day, but, as he is a very done. On No. 2,716 a vein of quartz competent man, who gets good work heavily mineralized with iron pyout of the men, I consider it econ- rite has been located, and on to

about 300 feet, but there is every \$2.50 per day each.

With this gang I left New Liskeard for Larder Lake on May 27th, taking an outfit of provisions, tents, bedding and took with us. The weather was very bad, raining heavily all day, and that night about five inches of snow fell. so that the
