tives take of their own cases is strongly in their fayor. Each year is showing a larger per-centage of cures.
One of the best reasons for good hope is the record of Scott's Emulsion as a medicine for consumptives. So long as the system is strong enough to use medicine of any kind it can use Scott's Emulsion.
The reason for its helpful-ness in this disease is because
New York, Dec 12, --anisy Emina there, the trained nurse who voluntarily offered herself to be experimented upon by Dr. George D. Barney of 401 Third-street, Brooklyn, and was inoculated with tuber-culosis bacteria on Nov. 22, has dereloped a well defined case of the disease, and has been removed from this city and state to avoid possible interruption of the ex-periment by the health authorities of the city. Dr. Barney admitted these faots to diay, emphasizing the statement that metatan, who reported the presence of tuberculosis in the right lung, and made affidavits to that effect, which are now in the possession of a New York newspaper, intended for Sundar publication.
