Will Have Public Funeral Monday-Life Story of a Strong Torontonian.

The death of Emerson Coatsworth, sr., City Commissioner of this city for 30 years, occurred at 7.20 a.m. yesterday, after a protracted illness. Some months ago old age began to show itself upon Mr. Coatsworth, who, at the age of 76, exhibited wonderful vitality. Up to March 4 last Mr. Coatsworth was at his office, but he was compelled to lay off at last, the exercising his duties in his home up to about two weeks ago, when he signed the weekly pay roll of his department and executed his last official act.

Thruout the City Hall yesterday many sincere expressions of regret were given by the officials who had worked with the late commissioner for years. Ald. Ward said at a committee meeting yesterday: "He was a good meeting yesterday: "He was a good and faithful servant at a time when nesty was at a premium.

the late City Commissioner- The suggestion was concurred in by the board, and the Mayor and the City Clerk will and the Mayor and the City Clerk will confer with the members of the family asking their permission.

The Council will meet at 2.15 p.m. Monday to attend the funeral, and will go in a body to the service at Berkeley street Methodist Church. The City Hall will be closed after 2.30. Story of His Life,

Emerson Coatsworth, born July 26, 1825, at Lune Head, Yorkshire, England, the son of John Coatsworth, farmer and miner, who died on May 5, 1829, aged 32 years. With his mother and the family, he left England in May, 1832, and arrived at Niagara in August of the same year. They settled in St. Catharines, in and around which all his early life was spent. The educational advantages at that time were very few, and he only had a few were very few, and he only had a few months' schooling altogether; these, however, he turned to the best advantage, and acquired the rudiments of education. Theological matters and bi-ography were his favorite subjects for reading. After erecting the Don Bridge, in the spring of 1852, he began business for himself, engaging largely in corporation work, roads, bridges, and built the first white bridge across Dundas street, did a large amount of adock work, and Improper feeding brings on disease. The use of coffee for instance is almost certain to cause organic ills. The whole system of health becomes involved and the physical failure known as collapse is always impending. No financial trouble can cause half the suffering that follows disease and most disease comes from what we eat and drink.
