Minneapolis—H. V. Jones has just issued sestimate on winter wheat yield. It is a yield of 340 to 370 million bushels. le government report indicated 432 milns.

Puts and calls, as reported by Ennis & Stoppanl, 21 Melinda-street: Milwankee July wheat, puts 90% c bid, calls, 92%; Milwankee Sept. wheat, puts 84% c to 84% c, calls 86% to 86%. Modern Miller says: In response to inquiries in regard to the prospects of the yield and quality of winter wheat and as to the probable movement. If the weather yield and quality of winter wheat and as to the probable movement, if the weather is favorable for the harvester, reports from milling correspondents show that in the southern part of the wheat belt the outlook for the yield and quality is generally below an average, being the poorest in Texas. Temessee and the Territories, In Illinois and Southern Missouri, the yield and quality varies, generally being below an average, but in Central and Northern Missouri the prospects are good. Fair to excellent yields are promised in Kansas and quality is good. Prospects in Nebraska are for a good yield. The average for yield and quality in Southern Indiana is good. In Ohio, Michigan and Kentucky the prospects are excellent for a larger yield than last year and for the quality of the grain.

With favorable weather the crop will With favorable weather the crop will move late in June and early in August, acording to latitude. The crop has begun to nove in Texas and Oklahoma, but the harvest was interrupted in many states by rain. A number of correspondents note that sales by farmers will be influenced by

Vigorous Operations Commenced to Develop the Fertile Lands of

AND OUTLINES THE PLANS AND PROSPEC S OF THE CUBAN REALTY COMPANY.

As Mr. Bull is known throughout the Dominion as one of Canada's prosperous and practical agriculturists, who has always been successful and most reliable, what he says will be of interest, and those who propose investing in Cuba should see Mr. Bull. Speaking first of the climate he denies that it is too hot for comfort. "I have been in Cuba three times this year, in January, in March, and again in May and June, and the last trip was the most enjoyable. Of course, it rains every day at noon for one or two ho rs; the mornings and evenings are delightful, and at night one always sleeps with a blanket. Of co rse, I am speaking of the Eastern end of Cuba, out where one gets the Atlantic breeze and air, and in from the coast away from the mosquitoes, insects and swamps. I have had options on, ridden over and inspected many tens of thousands of acres of land in Cuba both before and since I obtained an option on the hundred thousand acres from which was selected the twenty-five thousand acres now offered to settlers by the Cuban Realty Company, Limited, which I consider the most fertile virgin soil in Cuba, all thickly wooded and not one foot of waste, barren, swampy or in any way undesirable land. Continuing, Mr. Bull states that these lands are especially adapted to grow sigar, fruit and vegetables of all kinds and gardening and mixed farming, and at present they have a crop of valuable hardwoods and cedar. Polished samples of the latter can be seen at the company's office, 108 Yonge Street.

"At the present moment we have at our town, Bartle, a good new saw mill, shingle mill and planing mill.

"These in lustries will make Bartle one of the thriftiest

"Already from thirty to fifty men are working on our

lands. Surveying, clearing, planting and lumpering operations are in full swing.

"When you arrive at any of the important seaports of Cuba, you can get daily trains direct to the Cuban Realty Co. lands at Bartle, where you will find the best sugar, fruit and vegetable lands, occupied by the most contented and prosperous settlers on the Island of Cuba, surrounding the thrifty town of Bartle which we are just founding.

"We are within fifty miles of a city nearly the size of Hamilton—we own all the land for three miles on both sides of the main line of the Cuban Railway, and about 100 miles from its terminus at Nipa Bay-Vanhorne's seaport-which is said to be the best harbor on the coast, and which is nearest to the American and European markets.

"We have seen Vanhorne build railways before and he has always selected lands that attracted settlers and produced freight for his railroad. Besides this, Cuba's best ranch lands adjoin us, and many ranchers are buying lots at Bartle, where they will build their homes and all students of Cuba know about fifteen to twenty million dollars is being spent in sugar mills and development by the Anglo-Saxons this year in the east end of Cuba, and it is considered even in the island that the east end is becoming very fast the English-speaking part

"Part of our lands have advanced to \$50 per acre, but we have some still at \$25, below which we have sold none, and at which price we had sold 1,500 acres before a surveyor had visited our land. Our town lots are selling at from \$50 to \$150 each."

In conclusion Mr. Bull says, "I will return to Cuba in about a month and I wish to talk over the possibilities with as many as possible before I return."

For full particulars of surveys, products, prospects and plans of selling, call or address the

This Binder is designed to fasten packages and parcels, large or small, without the use of twine. It is also adapted as a new method of labelling bottles, cans, packages, etc. The Goff Binder may be regarded as one of the small and staple agencies which revolutionize the methods of doing up packages, It consists of a patented machine containing a roll of one thousand feet of paper varying in width: This is

toughened by a secret process and coated on the under side with glue made by a formula the property of the company This glue holds tenaciously, dries quickly and is not affected by damp or heat. As the paper is unwound an automatic printing device stamps every two or three inches with any advertisement which may be adopted. At the same instant the glue is moistened and the tape cut. The whole operation can be done in an instant. essential points of value are: A package is securely fastened in less than one-half the time and at less than one-half the cost of twine. The cost of material for sealing and printing twenty-four thousand packages by this method Every package becomes a sealed package, strongly fastened and secure from pilfering or curiosity without

7500 barrels; firm, with trade qulet. Rye ficur, quiet. Cornmeal, steady. Barley, dull.

They grant the free use of them on conditions of purchasing ecessary supplies, inks, printing rolls and tapes from the Company. The sale of these supplies will give the Company ENORMOUS PROFITS and also save the purchaser at least FIFTY PER CENT. of his present expense These machines have been tested by large departmental stores as well as by small shopkeepers. All to

whom they have been shown declare their intention to put them in use the moment the Company can supply them. The Company have a new Binder Twine which they expect to place upon the market. It is made by a secret process and is of great strength and will undoubtedly take the place of the twine now used by farmers in harvesting binding machines at much less cost. This twine can be used for all ordinary purposes twine is re-

The Company intend to manufacture printing inks, gums, papers, twine, advertising rolls of rubber and metal, labels for express parcels, bottles, cans, boxes, and for all purposes that labels are required for. Also water-proof paper for coverings, paper pails for carriage by hand of liquid products. These pails will be air-tight and the control of t waterproof. Also air-tight, waterproof packages for parcelling fruit, fish, meat and other quickly tainting foods. Waterproof and vermin-proof papers for the wrapping of goods liable to attack by dampness, moths or mice. Also the manufacture of many new and valuable improvements in the method of handling goods, not one of which has ever been placed upon the market, and at no extra cost to the purchaser than those now in vogue The Company will have a monopoly of these goods. The amount of business that can be done will make this corporation in a few years one of the most important in the civilized world.

In the opinion of bankers, manufacturers, merchants and others who have investigated these new inventions no company was ever incorporated with greater prospects. It is expected that the shares will rapidly increase in value. No such opportunity has ever been offered to Canadian investors to share in a money-making enterprise the profits of which will be indirectly contributed to Hur tingdon, June 23.—A meeting of the Huntingdon Dairymen's Exchange was held here to-day. Seven factoris boarded 247 boxes of white cheese and two factories boarded 68 boxes of colored cheese: 14 factories boarded 719 packages of fresh butter, and 4 factories boarded 158 packages salted butter; white and colored by every individual in the country.

The Company offer to the public the whole issue of preferred stock at par, with a bonus of one share of Common with every Three Shares of Preferred. Subscription must be accompanied by cheque, draft or money order; 25 per cent. with application, balance on allotment. Shares paid in full will be given the preference. Subscriptions may be paid to any branch of THE ONTARIO BANK, THE UNION BANK OF CANADA, THE SOVEREIGN BANK (Bankers of the Company), or to order of CANADIAN COMMERCIAL BINDER CO., Limited,

16 Yonge Street Arcade, Toronto, Canada Allotment will be made on July 15th, and all refunds and shares issued will be mailed on that date. Any information required may be had by calling at the Company's Office. Letters addressed to the Managing Director will receive prompt reply.

After allowing for the manufacture and expense of placing the machines it is estimated the business will roduce a profit of at least \$200,000 within the first year, or 100 per cent. on the capital The Company expects to have very large profits on their Binder Twine and numerous other articles

Canadian Commercial Binder Company, Limited

Strength, owing to continued light acceptance on bids sent to the country and to unfavorable crop reports. Commission houses generally have buying orders in the deferred months, in which sentiment is bull sh.

Frovisions—Ribs continue strong and advance easily on every attempt of shorts to cover. They are very tightly held and will sell higher.

cluding spring lambs, at \$4.50 to \$7.65. Lendon, June 23.—Cattle are quoted at 0%c to 12½c per lb.; refrigerator beef, ½c to 9%c per lb.; sheep, 13c to 14c per

Western Cattle Prospects. Western Cattle Prospects.
Winnipeg, June 23.—Grass cattle will be a little slow in moving out of Alberta for export this year. It will probably be July before any considerable number are sent. The grass is still "washy," and cattle could not feed to advantage until it was dry. The wet weather will delay shipments this session. Last year the grass export cattle season. Last year the grass export cattle started east July 5. The Liverpool quota-tions must be at least \$12.50 to move the Alberta grass-fed stuff freely. There will nearly twice as much export stock this over.

Receipts of live stock at the city market to day were, as reported by the rallways, 8 cars, composed of 183 cattle, 375 hogs, 22 sheep, 8 calves and 2 horses.

TOO MANY BANKS.

M. P.'s Criticize Application for Monarch Charter. Ottawa, June 23.-There was a meeting of the banking and commerce com-

mittee to-day, when the bill to incorporate the Monarch Bank of Canada of Toronto was discussed at some length and was allowed to stand over. The bill passed the senate. The minister of finance would support the bill if the promoters would say that they had money to start a bank.

Mr. Henderson of Halton expressed the same view. Out of eight or nine incorporated last year, only one had organized. He thought the amount, which it was called to raise, should be reduced from \$10,000,000 to \$2,000,000. reduced from \$10,000,000 to \$2,000,000. Mr. Barker of Hamilton spoke to the same effect, remarking that banks are becoming too numerous in Canada should be left to be settled by the law of supply and demand.

Mr. Gordon, who has the bill in charge, was absent, and the bill stood

SAFE-LOCK SHINGLES

make a perfect roofing for HOUSES, BARNS, STORES, etc. Weather-proof,

ornamental, lasting in quality, protect from fire and lightning.

If people would realize the danger in using wooden shingles, and making fire-traps of their buildings, they would use exclusively Galvanized "SAFE-LOCK" Shingles.

Shingles. They are easily applied; add

to the handsome appearance of any building; keep rainwater clean, as no dust adheres to them; should easily last fifty

years, without any painting or attention.

as they have no parts to get out of repair, and interlock each other on all four sides. They protect from lightning, and give their owners a contented mind, which makes up for the difference in first cost as com-

pared with wooden shingles. In the long

run they are the cheapest roofing sold. Send us rafter length and width, for

estimate, and we will make you an interesting proposition. Catalogues mailed free and samples sent by express, you paying the express charges, which will be allowed on first purchase.
